

# Resinous Fluid-Applied Flooring Systems

# Markets We Serve

## Commercial, Retail & Grocery

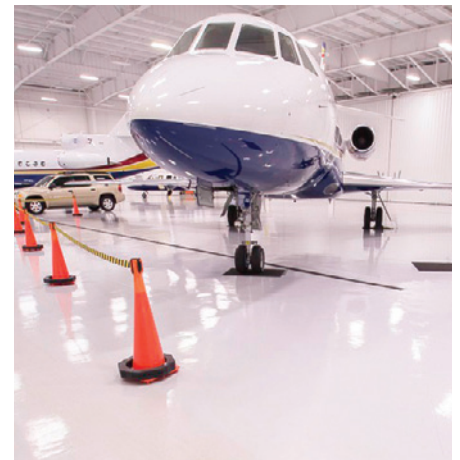

Our hard-working, decorative commercial and retail floors require no waxing/ stripping or special treatment. They reduce costly maintenance, are slip-resistant, exceptionally durable and absolutely beautiful!

- Grocery
- Retail
- Museums
- Shopping Malls
- Office Complexes
- Wholesale Showrooms
- Conventional Centers
- Entertainment Venues

## Aviation & Transportation

These U.S. government-approved flooring systems are a favorite in busy facilities, where the traffic never stops. Slip-resistant, non-porous, chemical, stain and abrasion resistant, our high performance aviation and transportation floors come in a variety of finishes, furnishing long-lasting strength, environmental safety and easily-maintained aesthetics.

- Aerospace
- Avionics
- Air Hangars
- Concourses
- Terminals
- Showrooms
- Government Facilities
- Vehicle Maintenance

## Healthcare & Medical

Our ultra-fast turnaround floors minimize healthcare facility downtime, while offering antimicrobial options supportive of strict sanitation protocols. Outstanding chemical and stain resistance, great resilience and easy maintenance, customizable slip-resistance and unlimited design options all add up to just what the doctor ordered -- superior medical flooring value.

- Hospitals
- Clinics
- Offices
- Patient Rooms
- Procedure Rooms
- Operating Suites
- Therapy Rooms
- Nursing Homes

## Manufacturing

The heavy wear and tear, abrasion, oils and chemicals characteristic of many production facilities necessitate industrial-strength flooring that can take serious abuse. Our large selection of tough, chemical-resistant and easy-to-clean floor systems work as hard as you do -- and keep their great looks over the long haul!

| <b>Packaging</b>  | <b>Assembly</b>      | <b>Loading Docks</b> |
| <b>Converting</b> | <b>Machine Shops</b> | <b>Battery Rooms</b> |

## Hospitality & Restaurants

Special high-performance, USDA-compliant food service flooring, capable of withstanding extreme commercial kitchen environments, can help keep the setting hygienic and safe for staff and patrons alike. In public areas, slip-resistant designer flooring can welcome visitors, help define a space and contribute to an overall positive guest experience.

## Fire & Public Safety

Emergency vehicle repair bay flooring must be skid-resistant and easy to clean -- when the alarm goes off, there's no time for slip-and-fall accidents. Our beautiful heavy-duty, chemical, abrasion and chip-resistant flooring is an excellent long-term value. Add a department logo to underscore crew and community pride!

# Markets We Serve

## 🎓 Education

Attractive, clean and slip-resistant floors contribute to a positive educational experience. Yet, the miles of corridor and classroom floors in any facility can be a daunting and expensive maintenance burden. Thanks to Florock, gone are the days of unending stripping, waxing and buffing -- maintaining our easy-care, no-wax flooring is quick and economical.

**Schools**            **Training Centers**            **Shop Rooms**  
**Universities**       **Vocational College**       **Campuses**  
**Daycare**            **Lab Classrooms**            **Sports Arenas**

## ⊕ Science & Technology

Facilities working on the cutting-edge of science and technology depend upon special flooring to support the smooth running of their high-dollar ventures. Our impressive selection of high-performance floor systems includes dependable electrostatic dissipative, conductive, extreme acid/ caustic resistant, antimicrobial and even fast-curing options for critical operations.

**Electronics**            **Pharmaceutical**            **R & D Facilities**  
**Semi-Conductor**       **Wastewater**                **Biotechnology**  
**Clean Rooms**            **Laboratories**

## 🍷 Food & Beverage Processing

Acidic, caustic ingredients, abrasive powders, harsh chemical cleaners, constantly wet surfaces, temperature extremes and heavy loads are just a few of the abusive conditions found in food and beverage facilities. Our specially formulated USDA-compliant, chemical and slip-resistant floors demonstrate their strength and durability daily in facilities around the world!

**Bottling**                **Production Bakeries**        **Ingredients & Flavors**  
**Wineries**               **Meat, Fish & Poultry**       **Beverage Production**  
**Breweries**              **Cheese & Dairy**              **Frozen Foods**  
**Distilleries**            **Produce & Juice**              **Snack Foods**

## Animal & Veterinary

Depending on the activities accommodated, animal facilities require flooring that's impermeable and resistant to animal waste, odor absorption, staining and the harsh cleaners used for sanitation. Finishes must be mildly slip-resistant, yet kind to tender paws. Ours is one of the largest selections of decorative, high performance vet and animal flooring systems on the market!

**Small Animal Clinic**  
**Large Animal Vets**

**Milking Parlors**  
**Kennels**

**Equestrian Facilities**  
**Training Operations**

## Correctional

Properties like exceptional durability, slip-resistant safety, antimicrobial protection and ease of maintenance can be difficult to find in a single, budget-minded detention facility flooring solution. Our aggregate-filled correctional floors easily fit the bill and provide the added security of puncture resistant finishes.

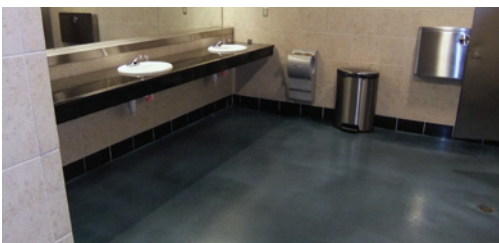

**Common Areas**  
**Prison Cells**  
**Gang Showers**

**Correctional Kitchens**  
**Treatment Centers**  
**Work Areas**

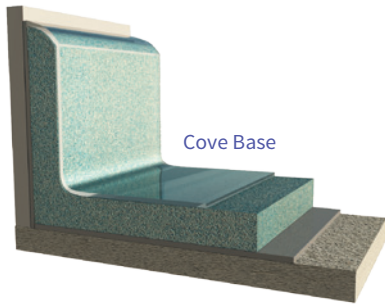

## Multi-Purpose

Some spaces are common to just about every building. Even so, one size does not fit all. With our many different resin chemistries and methods of installation, we're able to ensure that every facility gets the just-right protective finish, slip-resistance and other properties needed to provide optimal lifecycle value for their unique operation.

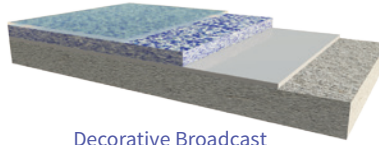

**Restrooms**  
**Locker Rooms**  
**Laundry Facilities**  
**Storage Areas**  
**Mechanical Rooms**  
**Loading Docks**  
**Dumpster Pads**  
**Entryways**  
**Stairwells**  
**Parking Garages**

\* FloroSeptic antimicrobial protection is an integral part of all FloroCrete Urethane Mortar Systems and is an option in all other Florock floors.

## Florock Polymer Flooring — Made in the U.S.A.

Serving a wide range of facilities across the globe, Florock Polymer Flooring, manufactured in Chicago, Illinois, U.S.A., by Crawford Laboratories, Inc., is a leader in the research and development, production and installation of solutions-oriented flooring systems for commercial, industrial and institutional applications.

Extensive laboratory and field tests, combined with years of satisfied customer use, have proven Florock poured flooring systems to be an uncommonly high value, high performance solution.

David Schmetterer  
President

## Our History

Founded in 1952 by Benjamin A. Schmetterer, Florock Polymer Flooring is doing better than ever in the 21st century. The company has flourished under the leadership of Benjamin's son, David Schmetterer, requiring extensive expansion of the R&D and manufacturing facilities, as well as the establishment of a new office and finished goods warehouse. And the 3rd generation, David's daughter Aviva Llorens, has taken over the daily operations at Florock.

Today, our growth continues—and with our ever-increasing capacity, we're ready.

## Our Products

Though the selection of Florock epoxy floors and coatings started small in the 1950s, our concrete floor coating product family now incorporates more than five phthalate and formaldehyde-free polymer resin chemistries, including Floropoxy Epoxy Flooring, Florothane Urethane Coatings, FloroCryl Acrylic MMA Flooring, FloroCrete Cementitious Urethane Mortars and Floro-Spartic Polyaspartic Floors. With these and other epoxy floors and coatings, we can effectively give a wide variety of floors the lasting protection and aesthetics they need.

## Our Service

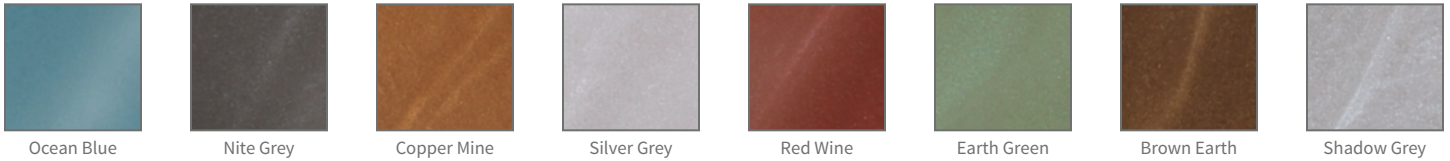

With a tight network of polymer floor coating professionals, including our local Approved Installers, highly-experienced Regional Representatives, and dedicated Customer Service Team, we're confident that we can meet your concrete flooring challenges on time and within budget.

*The bottom line? At Florock Polymer Flooring, we're here for you—it's just that simple.*
