

Smith & Hawken® | TO THE TRADE

SOURCEBOOK

CONTRACT FURNISHINGS 2006

SOURCEBOOK

YOUR 2006 SOURCEBOOK This is your comprehensive guide to Smith & Hawken furniture for 2006 and should be kept at hand throughout the year. Rather than mail quarterly catalogs, we will spare the forests and contact you only with special mailings to announce new product offerings. Prefer to be notified by e-mail? Contact us at SmithandHawkenTrade.com.

TRADE DISCOUNT Those qualifying for our trade discount receive substantial savings from the retail prices. Discounts range from 15% to 40% according to purchase volume over a 12-month period. The more you purchase, the greater the discount. Please call, fax or e-mail us for quotes and details.

SOLUTIONS FOR EVERY PROJECT The quality of furniture outside a property speaks volumes about what guests can expect inside. With this in mind, Smith & Hawken designs all its furniture to be both uncommonly durable and beautiful, carefully crafted to make unforgettable first impressions. Whatever your project calls for—whether it be a teak dining set, metal bench or a wicker lounge chair—Smith & Hawken has a broad selection of styles to suit any outdoor setting.

Why Choose Smith & Hawken Premium Teak™ Furniture?

Our furniture starts with only the choicest cuts of Premium Teak—straight, smooth and free of knots—the best quality available. The wood is kiln dried for optimal water content, eliminating future shrinkage or expansion. Then each section is hand fitted, using snug mortise-and-tenon joinery that remains rock-solid year after year.

Handcrafted like other fine furniture, Premium Teak will endure for decades. Once in place, it requires virtually no maintenance and can be left outdoors year-round to weather naturally, eventually turning a silvery grey. Every piece is backed by our guarantee, which covers any manufacturing or material defects.

Premium Teak is ecologically grown on Javanese tree plantations managed by a government agency that permits the harvest of only mature trees, supervises reseedling and encourages villagers to grow crops for their personal use. We import no grey-market wood from threatened forests.

BENCHES

Though their styles are diverse, our teak benches share one common thread: they are all built to last. Part of what makes Premium Teak™ so special is its sheer strength; we use only the densest cuts of teakwood with the straightest grain. Couple this with teak's natural ability to withstand all types of weather without warping or buckling, and the result is a bench that will remain rock-solid and attractive through years of heavy use, indoors or out. *For cushions, see page 76.*

Occasional Bench
(15 LB) 34"W x 13"D x 18"H 738989

ACCESSORIES AND MORE

With teak, there's no need to sacrifice form for function. Its appealing grain and honey color bring a natural beauty to almost any application. And even after being exposed to a few winters' worth of rain and snow, its dove-grey color is no less attractive. Our accessory pieces take full advantage of teak's effortless good looks, while standing up to almost anything Mother Nature can dish out.

Teak Storage Chest

Our roomy chest has a center shelf for storing stacks of towels, mountains of supplies or a restaurant's worth of flatware and napkins. A sturdy, solid top enables it to double as a sideboard for serving or a busboy's way station. Premium Teak™, with stainless steel hinges, it can be placed outside in a covered location. The piston-assisted top lifts up for easy access.

(125 LB) 55"W x 25"D x 30"H 724682

Teak Utility Receptacle

Our camouflage for trash or used towels has a door on one side for easy access. The opening's on the sides, rather than on top, to keep out rain. A tough 28-gallon plastic liner with handles is included; an included Teak Ashtray attaches to the side. Premium Teak™ construction ensures that it can be exposed to the elements without harm.

VERSATILITY

When used as a receptacle for towels at the spa or poolside, its heavy-duty liner and oversized openings on either side come in handy. When used as an attractive, all-weather trash receptacle, the included ashtray can be attached.

Teak Pool Box

This sleek teak chest conceals cushions, floats, hoses and pool-cleaning chemicals right at poolside. The slatted sides and vented bottom help prevent mildew from forming on contents. Can be left outdoors year round; our optional Cushion Storage Bag is recommended if contents need to remain dry. Top lifts up for easy access. Optional cushion storage bag available.

(100LB) 65"W x 30"D x 28"H 786798

Teak Care

To restore teak to its original color, our Cleaner whisks away mildew spots and dirt as it brightens the surface to a honey tone. To maintain teak's weathered look, our Patinizer keeps the natural weathered grey a silvery hue. Or to preserve the color of new or cleaned teak, apply our Protector, which lasts up to four times longer than teak oil. Water-based for easy cleanup.

- Teak Patinizer** 728352
- Teak Protector** 866301

Teak Decking

Our teak decking has been specified for a greater variety of settings than any other furnishing we offer. The 18" square slatted panels link via concealed stainless-steel hardware, creating an ultra-stable platform for outdoor dining, entertaining, dancing and special events. Constructed entirely from teak, it also suits damp locales, such as locker rooms, bathrooms, commercial foyers and restaurant kitchens. It can easily be laid over an existing flooring material and sets up quickly on any flat surface, even crushed stone. Can be mounted permanently or set up and broken down as needed. Squares may also be used individually to form a pathway or steps up a slope.

- Deck Kit** (Set of 24 Panels, 6' x 9' Total) 761734
- Deck Squares** (Set of 4 Panels, 3' x 3' Total) 761726

EASY TO ASSEMBLE

18" square panels slot together using stainless-steel clips to form a stable, flat platform, floor covering or pathway. Versatile enough to be used for permanent or temporary installation. Hardware included.
