AWNING AND MARINE FABRIC COLLECTION

Welcome to the world of

The leader in quality and innovation, decade after decade

For over 45 years, Sunbrella® has been the leader in performance fabrics. And there's good reason people look to Sunbrella first for their awning needs. No one else brings so much under one revolutionary, stylish brand.

No other resource is more committed to leading the performance fabric industry with innovations that fit today's lifestyles. With enhanced quality, additional colors and sophisticated styles, the next generation of Sunbrella offers more possibilities than ever.

Combine that with the new Sunbrella best-in-class 10 year warranty, and you have a performance fabric that's unbeatable.

Expand your living space.

Let your indoor party expand to the outdoors. Encourage the kids to play outside in the shade. Enjoy lunch on your deck in August. All are possible when you have an awning with Sunbrella fabric. Installing an awning is like making a low-cost room addition while also adding value to your home.

Protection from the elements. And more.

The Skin Cancer Foundation recommends Sunbrella* as an aid in the prevention of sun-induced damage to the skin. Please use shading products featuring Sunbrella as a part of your complete sun protection regimen, including regular use of sunscreen.

* Does not apply to styles of Sunbrella that are designed for transparency, such as Sunbrella Sheers.

Your dream deserves the best.

When you want a wide selection of performance fabrics that can beautifully withstand the elements without creative limitations, the choice is simple. The choice is Sunbrella.

Beauty beyond words.

Awnings beautify a home. It's really that simple. And with our extremely varied selection of Sunbrella fabrics, if you can imagine it, we have the fabrics and stunning colors and designs to bring your ideas to life.

In fact, visit www.sunbrella.com/awningshowroom to try out different fabrics and find your own style.

Let your awning help save on your energy bills.

An awning will keep your energy costs down by blocking the sun's heat in warmer months. The American Society of Heating and Air Conditioning Engineers shows that an awning can reduce heat gain by 55 to 65 percent on southern-facing windows and 72 to 77 percent on western exposures.

Plus, you can enjoy the beauty of the outdoors since you won't have to close blinds or draw your draperies. Spring, summer, winter and fall, your awning will serve you indoors and out.

Please note that the swatch colors shown are for representative purposes only. See your awning fabricator, design professional and/or licensed installer for actual fabric samples.

Sunbrella fabrics are durable and easy to clean.

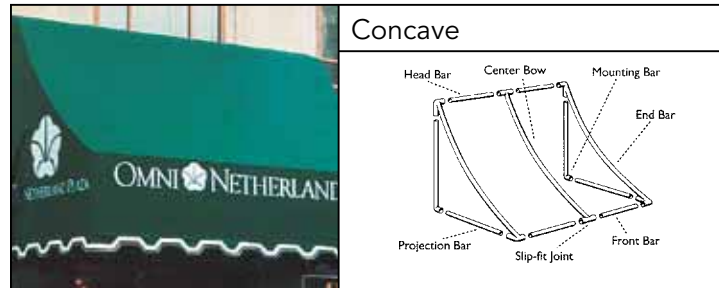

Sunbrella® superior pigments are added during the production of fade-resistant Sunbrella fiber. The final result is Sunbrella yarn and fabric with color throughout that won't fade or wash away. Think "carrot."

In ordinary fabrics, dyes are added to the surface of the yarn or fabric. The color only penetrates the outer layer and washes out or fades away over time. Think "radish."

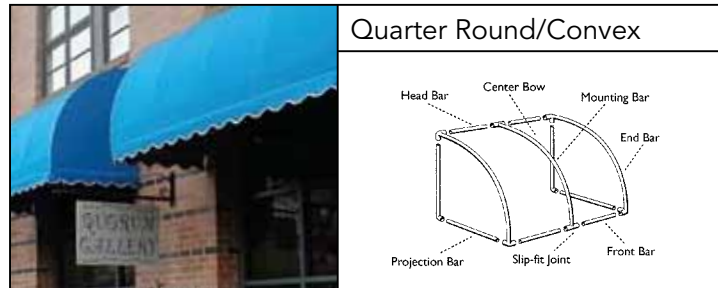

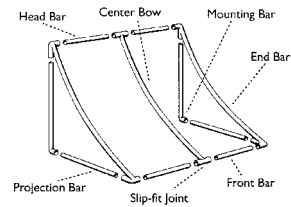

Awning Frames

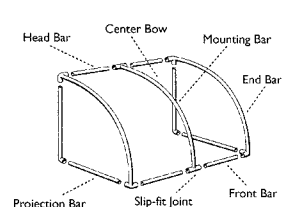

Here are some popular frame styles to help get your creative juices flowing. Visit our web site or talk to your fabricator for more details.

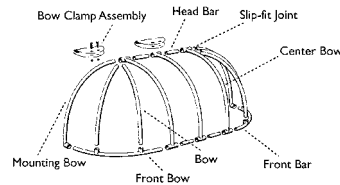

Concave

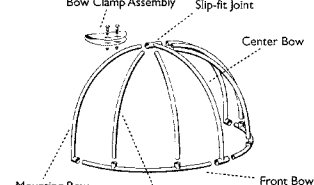

Quarter Round/Convex

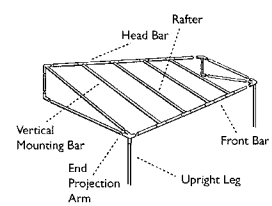

Elongated Dome

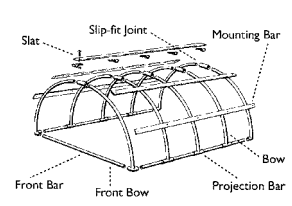

Dome

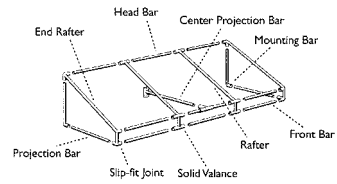

Patio Canopy

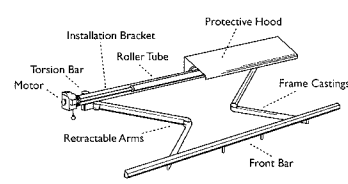

Rounded Entrance Canopy

Traditional

Retractable

SUNBRELLA® AWNING AND MARINE FABRIC 10 YEAR LIMITED WARRANTY

This limited warranty protects the original purchaser from Sunbrella Awning and Marine fabric becoming unserviceable due to color or strength loss from normal usage and exposure conditions, including sunlight, mildew and atmospheric chemicals. The limited warranty coverage period is ten years from the date of original installation and covers full replacement of fabric only for the first seven years and is pro-rated for the remaining three years.

Visit www.sunbrella.com/warranty for more details.

SUNBRELLA CARE & CLEANING

One of the best ways to keep Sunbrella fabrics looking good and to delay the need for deep or vigorous cleaning is to hose fabrics off on a monthly basis with clear water. This practice will help prevent dirt from becoming deeply embedded in the fabric and eliminate the need for more frequent vigorous cleaning. In most environments, a thorough cleaning will be needed every two to three years.

When it's time for thorough cleaning, Sunbrella fabrics can be cleaned while still on an awning frame or boat top. Simple brush off any loose dirt, hose down and clean with a mild, lukewarm soapy solution. Rinse thoroughly and allow to air dry.

For detailed cleaning instructions, visit www.sunbrella.com.
