*John Dutton, Music Teacher
Fort Frances High School

MUSIC LIBRARY

Storage options that cut sheet music storage by nearly half.

- Patented high-density slide-out design minimizes storage space.
- Organizes music with a systematic approach that can save hours, even days of searching.
- Roll-out design economizes space and creates a clean, organized appearance.
- Designed to accommodate the majority of music filing boxes, end-tab file folders, and envelopes.

"We have three Music Library units holding 2,500 – 3,000 titles. It's much easier to access the music than with file cabinets. I'm able to put away 100 scores in less than an hour — this used to take me two days."

*John Dutton, Music Teacher
Fort Frances High School,
Fort Frances, Ontario*

SPECIALTY STORAGE

Safely store and transport Cellos, Bases, Violins and Violas.
- **Folio Cabinets**
Keep all your folios organized and right where you want them.
- **Stereo Workstation**

- **Elementary Storage Cabinets**

"When it comes to purchasing storage cabinets for instruments, equipment or music, Wenger is the logical choice. There are a lot of cheaper options out there, but you lose the durability and security. Demonstrating the durability of Wenger equipment was easy because our high school was still using Wenger percussion and folio cabinets that were 30 years old. This equipment was still in good shape and working well."

*Chris Blackmer, Director of Bands
Kearsley High School
Flint, MI*

"Our Versalite platforms are set up as band or orchestra risers. Each group uses a different riser configuration. The Versalite's features speed up handling, which is particularly important with a student crew. Platforms are very easy to set up and take down and they lock together very securely. Removing the legs and changing leg sizes is also easy."
