

experience

true inspiration

Amtico Woods are available in a selection of finishes, textures and sizes making it one of the most comprehensive ranges on the market. Amtico woods capture the inherent qualities of the natural product but unlike the real thing, won't dent or fade over time. Backed by a 15-year Commercial Wear Warranty, the Amtico Woods collection combines superior looks with proven performance.

Most Woods come with a tick finish as standard. For a more authentic, engrained effect, you could choose a sawnwood finish, which is available as an option on some of our woods. All products are 2.5mm thick with beveled edges (unbeveled also available).
