## DORMA CL/700/CK700 GRADE 2 CYLINDRICAL LOCKSETS

### Applications:

DORMA CL700/CK700 Series heavy-duty Grade 2 cylindrical locks are especially suited for health care, commercial, and industrial applications. A full range of functions and designs are available to fulfill all cylindrical lock Grade 2 applications.

### Listings & Approvals:

- Certified to meet ANSI/BHMA A156.2 Series 4000 Grade 2 requirements.
- U.L. and C.U.L. listed for 3-hour applications for UL10B and UL10C.
- CSFM approved, California State Reference code, 1989 (formerly Title 19).
- CL700 Series lever locks meet ANSI 117.1 and ADA requirements for barrier-free accessibility.

### Warranty:

Five (5) year limited warranty.

### Exposed Trim:

Brass, bronze, or stainless steel. Levers are pressure cast zinc, plated to match finish symbols.

### Finishes:

Brass: 605 (Bright) and 606<sup>1</sup> (Satin).  
Bronze<sup>1</sup>: 612 (Satin) and 613 (Dark Oxidized Satin Oil Rubbed).  
Chrome<sup>1</sup>: 625 (Bright) and 626 (Satin).  
Stainless<sup>2</sup>: 630 (Satin).

1. Available on lever handle locksets only.
2. Available on knob locksets only.

### Door Ranges:

Lever and knob designs fit 1-3/8"-1-7/8" (35 mm-48 mm) standard. Consult factory for special door ranges.

### Backset:

2-3/4" (70 mm) standard for lever applications.  
2-3/8" (60 mm) standard for knob applications.  
3-3/4" (95 mm) and 5" (127 mm) available.

### Keying:

6-pin brass cylinders provided with two nickel silver keys. Keying options available from factory include master keying, grandmaster keying, and construction keying. 6-pin and 7-pin Small Format Interchangeable Core cylinders available.

### Features:

- All CL700 Series Locksets are through-bolted and have auxiliary springs to provide long cycle life and resistance to lever droop.
- Non-handed chassis.
