# Unmatched Capability & Versatility for Every Need

**ICI Paints** offers architects, engineers, specifiers, contractors and painters the finest paints, coatings and services in one convenient source.

**ICI Paints** features unmatched capability and versatility in meeting exacting requirements for all new construction, remodeling or maintenance applications throughout the United States.

**COMMERCIAL INDUSTRIAL RESIDENTIAL**

**Dulux®**

# Complete Product Offering Designed for Professionals

ICI Paints has the right brands, the right product formulas for every need. Our product lines are designed to fit the needs of the architectural and design community so you can quickly find the right product for every specification.

## INTERIOR:

### DULUX® ULTRA™ Latex Interior Wall Finishes (1201, 1403, 1407)

Highest quality premium latex wall and trim finish. Dulux ULTRA is often chosen for residential repaint and small commercial establishments where ultra durability extends repaint cycles.

- Provides a tough finish that adheres extremely well to glossy or hard surfaces
- Excellent washability, moisture and block resistance
- Quick drying and recoat
- Burnish resistant
- Low Odor and VOC

### DULUX® PRO PREMIUM™ Latex Interior Wall & Trim Finish (1200N, 1402N, 1406N, 3028N)

Premium quality professional latex wall and trim finishes. Dulux Pro Premium is ICI Paints' lead specifications brand. Ideal for use on interior walls and trim surfaces in all commercial and institutional applications.

- Outstanding hide and coverage to help minimize overall job costs
- Provides a highly durable and washable finish
- Excellent moisture and block resistance
- Quick drying and recoat
- Excellent one coat coverage
- Low Odor and VOC - Most products meeting MPI Specifications

### WOOD PRIDE Professional Wood Finishes Interior (1700, 1800, 1900, 1916)

Wood Pride provides a complete interior wood finishing system for professionals. ICI Paints' WOOD PRIDE line is designed to save you time and money, and deliver outstanding color consistency and control through new advances in stains and varnishes.

- Available in both Oil-Based and Water-Based formulas
- Fast Drying Formulas
- Tintable to hundreds of shades and tones
- Color uniformity from wood to wood
- Low VOC (volatile organic compounds) formulas

## EXTERIOR:

### DULUX® FORTIS® Premium 100% Acrylic Exterior House Paint (6201, 6403, 6407)

Our most premium quality exterior 100% acrylic latex paint, Dulux Fortis provides lasting beauty and protection, with exceptional weathering resistance, easy application and quick curing, resulting in long lasting uniform finish, at temperatures as low as 35 degrees.

- High solids for outstanding hiding and coverage
- Thick, rich, high-build coating
- Apply 35°F and higher to extend your painting day and painting system
- Fade and chalk resistant
- Gives a mildew resistant coating
- Early moisture resistant
- Excellent adhesion: resists peeling, blistering, and flaking

### DULUX® PROFESSIONAL Exterior 100% Acrylic Finish (2200, 2402, 2406)

Professional quality exterior 100% acrylic finish specially formulated to provide excellent weathering resistance, low temperature application and quick curing, resulting in good resistance to early moisture exposure.

- Low temperature application down to 35 degrees, quick curing and early moisture resistance
- Ideal for use on properly prepared wood, masonry, metal, aluminum and vinyl siding
- Gives a mildew resistant coating
- Resists blistering, peeling and flaking
- Excellent gloss and color retention
- Quick drying and recoat

### WOOD PRIDE Professional Wood Finishes Exterior (2600, 2601, 2610, 2701, 2710, 2800, 2900, 2901)

Wood Pride professional wood finishes are performance proven deck and siding stains that provide a wide array of colors and finishes to enhance the beauty and durability of wood. WOOD PRIDE finishes are ideal for any exterior above ground surface including shingles, beams, fences, decks, and siding.

- Available in both Oil-Based and Water-Based formulas
- Clear, Semi-Transparent and Solid Color Finishes
- Color Uniformity from Wood to Wood
- Easy Application, Excellent Penetration
- Low VOC (volatile organic compounds) Formulas

## SPECIALTY COATINGS:

**ZERO  
VOC**

### DULUX® LIFEMASTER™ Interior Enamels (9100, 9200, 9300)

Premium quality water based 100% acrylic finish that brings increased washability to interior architectural surfaces. This wipable, super adhering, oil and stain resistant series of coatings is ideal for use in all types of interior wall or ceiling areas where a durable, washable surface is desired. DULUX LIFEMASTER Latex Enamel has been formulated without the addition of V.O.C.s\* (volatile organic compounds) in order to meet all current and anticipated regulations for air quality.

- High performance, premium interior latex
- Specially formulated to provide exceptional hiding, washability, touch-up and stain resistant properties
- Scrubbable
- Ideal for hospitals, schools, hotels/motels and office environments
- Virtually odor free and no VOC's
- Meets MPI Low VOC/Institutional Paint Specifications

### DULUX® ADVANCED OIL™ Interior/Exterior Wall Enamel (1502, 1506, 1508)

Premium alkyd interior/exterior enamel for use on properly prepared wood, metal, or masonry surfaces. Specially formulated with "oil in water" technology for paint, an evolutionary breakthrough that links oil to water to provide genuine alkyd application and performance with the speed and ease of an acrylic latex.

- Alkyd hardness and durability
- Superior resistance to yellowing versus conventional alkyd enamels
- Excellent block resistance
- Excellent stain blocking and stain resistance
- Moisture resistant
- Low Odor and VOC

### DULUX® ACCENTS™ Interior/Exterior Acrylic Latex Enamel (3000N, 3002N, 3006N)

A pre-toned, deep accent-color acrylic enamel finish for use on interior or exterior walls, doors, sash and trim. Achieve deeper, richer colors in fewer coats. May be applied to properly prepared wood, hardboard, masonry, wallboard, metal or sound painted surfaces.

- Durable, scrubbable finish
- Wide range of deep accent colors for interior or exterior use
- Quick drying and recoat
- Low Odor and VOC

## PRIMERS:

### PREP & PRIME Professional Line of Primers

#### Interior (1000, 1020, 1030, 1040, 1070, 1090, 1110, 3210, LM9116)

Prep & Prime offers a complete line of interior primers for a variety of surfaces including drywall, paperless drywall, wood trim and doors, stucco and concrete. In addition, PREP & PRIME has high-build primers, bond preps and block fillers to prepare any interior surface for topcoats.

- Available in both Oil-Based and Water-Based formulas
- Superior Surface Bonding
- Support for Deep Topcoat Colors
- Excellent Stain Blocking
- No VOC Formulas

### PREP & PRIME Professional Line of Primers

#### Exterior (2110, 3010, 3030, 3210, 6001)

Prep & Prime line of exterior primers are focused on adhesion, stain blocking and enhancing topcoats. PREP & PRIME exterior primers include bond preps, block fillers and primers designed for chalky concrete surfaces.

- Available in both Oil-Based and Water-Based formulas
- Superior Surface Bonding including Concrete
- Commercial Grades for High Productivity
- Excellent Stain Blocking
- Low VOC Formulas

## CONCRETE COATINGS:

### Complete Line for Horizontal and Vertical Applications

#### BuildTex (3230)

A premium quality interior/exterior latex high-build texture coating for use on properly prepared interior drywall, interior and exterior masonry, wood, metal and sound plastic surfaces. Excellent for tilt-up concrete construction panels.

- One Coat Application – 40 mils wet film
- Fully Tintable to Hundreds of Colors
- Sand, Medium and Coarse Textures
- Low Odor, Low VOC
- Soap and Water Clean-Up

#### Decra-Flex (2260, 2270, 2290)

Professional quality Elastomeric flat coating. Provides long-lasting weather resistant finish on exterior, above grade vertical masonry surfaces including tilt-up, precast and poured in place concrete.

- Water and Weather Resistant Film
- Resistance to 98 mph Wind Driven Rain
- Fully Tintable to Hundreds of Colors
- Low Odor, Low VOC
- Soap and Water Clean-Up

#### Groundworks (3018, 3111, 3214, 3218, 3301, 3610, 3710)

Groundworks offers a complete line of interior and exterior concrete primers, stains, clear sealers and anti-slip additives. GROUNDWORKS can be used for driveways, walkways, garage floors, pool decks, porches and basement floors.

- Available in both Oil-Based and Water-Based formulas
- Superior Surface Bonding
- Ready Mix and Custom Colors
- Excellent Adhesion
- Low Odor, Low VOC Formulas

## INDUSTRIAL COATINGS:

#### Devoe® High Performance Coatings

The Devoe High Performance Coatings brand is one of the leading lines in the industrial maintenance industry. Starting with the invention of epoxy resins and coatings by Devoe & Reynolds, Inc. in the 1940's to today with a complete line of acrylic and urethane finishes, epoxy coatings, and zinc rich primers, Devoe High Performance Coatings has the products you need for Asset Protection, Long-Term Reliability, and Improved Profitability. See *Paint Systems Guide for Product Listing*.

## ICI Paints . . . Performance You Can Count On

### **Dulux Color Palette – Faster & Easier Color Selection**

Using the Master Palette as our guide, Dulux compiled a collection of more than 2,000 colors that comprise the Dulux Color Palette. The Dulux Color System has been carefully redesigned, making color selection with the new color palette faster and easier than ever. The tools include the Color Fan Deck, Color Resource Library, Color Album, ColourFutures™ and Dulux website.

- The Color Palette incorporates the most popular, frequently specified colors from ICI Paints' master color selection of over 6,000 colors, including more than 1,000 new emerging trend colors.
- Master Palette Notation color logic "locks in" your color choice so you can always get back to that exact same color.
- All colors available for interior and exterior applications.

### **ColourFutures™ Book – Inspirational Color Trends**

Every year, ICI Paints assembles a team of top international color consultants and ICI Paints color experts. Using vast market insight they create a color palette that reflects society's moods and interests – the trends for the coming year. This knowledge comes together in ColourFutures, an informative book of inspirational color palettes and theme-driven color collections.

### **Dulux Website: [www.duluxpaints.com](http://www.duluxpaints.com) – Information at Your Fingertips**

You need to quickly receive color chip samples and product information for a project that has a tight deadline and your traditional methods won't get the information to you in time. The Dulux website will give you the ability to order color chip samples and collateral that can be delivered to you the next day. You can also download product information instantaneously so you can continue to finish your specification.

### **ICI Paints Technical Service – Personalized Expertise**

Regardless where you are in the nation, our dedicated paint experts are just one phone call away to assist you for all technical aspects in painting ranging from surface preparation, coating systems, product information, technical application to product data sheets and material safety data sheets and more. **Call us at 1-800-984-5444.**

### **ICI Paints DuSpec – On-Line Specification Creation Program**

This program enables you to create personalized technical specifications in industry standard formats for your project. DuSpec will even estimate how much paint you need! All the details of your project will be stored in a secure personal area of the system. Printing or downloading the professionally produced technical specification and product data sheets for your project is just a click away at [www.duspec.com](http://www.duspec.com).
