

The European design and
brilliantly clean dishes get noticed.
The sound levels don't.

European Design

Sleek, sophisticated designs are one of the reasons Siemens is the number one built-in brand in Europe. Our stainless steel dishwashers feature hidden controls for a clean look.

Brilliantly Clean Dishes

The Siemens dishwashers clean dishes 99.9% bacteria-free, with wash cycles certified by the National Sanitation Foundation. A flow-through heater ensures precise temperatures throughout the wash cycle. And a hygienic hydroDry™ closed drying system uses internal heat to dry dishes, instead of drawing in air from behind kitchen cabinets.

Ultra-Low Sound Levels

The Siemens hiDefinition™ dishwashers are as quiet as 48 dBA. That's quieter than a normal conversation at 12" away. In fact, it's so quiet that we created our activeLight™ LED that shines on the floor to let you know whether the dishwasher's running or not.

German Engineering

No detail is overlooked in the construction of a Siemens hiDefinition™ dishwasher. The fit and finish are impeccable. Everything works together perfectly. The components are engineered to be durable and long-lasting. And each dishwasher is individually run-tested before it leaves our factory.

hiDefinition™ Dishwashers

The future moving in.
