

BATH HARDWARE

FAUCETS • FITTINGS • HARDWARE • LIGHTING • ACCESSORIES

Restoration Hardware-Contract offers commercial quality bath hardware, faucets, fittings, furniture and accessories for hospitality, multi-family housing and commercial projects. We can be a single source bathroom solution or simply offer single product fulfillment.

QUALITY MATERIALS AND CONSTRUCTION

Our faucets and fittings have met rigorous engineering standards and are hand-assembled with the highest attention to detail. The components, such as handles, escutcheons and trim pieces, are engineered from solid and forged brass to our exacting standards. Each component has been mechanically- and hand-tested for solid feel, flawless performance and durability. Features include:

Solid Brass Faucet Spouts

Our hand-cast, 100% premium brass alloy spouts are non-corrosive and have a rich finish. Solid-Brass Valve Systems. We use brass Fluehs lavatory systems, featuring German-made ceramic disc cartridges that ensure smooth operation and worry-free water delivery.

Low Lead Brass

All of our faucets and fittings are made from low-lead (3%) brass that is IAPMO (International Association of Plumbing & Mechanical Officials) approved.

Valve Systems

In line with many other high-end plumbing product suppliers, we use solid brass Fluehs lavatory valve systems, featuring German-made ceramic disc cartridges that ensure a smooth quarter-turn operation and worry-free water delivery.

Non-Corrosive Connecting Hoses

We use the industry's leading hoses that feature a liner and a non-corrosive nylon polymer braided hose cover.

Hand Assembled to Exact Engineering Standards

Hundreds of engineering hours are involved in the creation of our faucets and fittings. All our products are hand-assembled with the highest attention to detail.

Solid Brass Components

All our faucet and fitting components such as handles, escutcheons and trim pieces are engineered of solid and forged brass to exacting standards. Each component is mechanically and hand-tested for a solid feel, flawless performance and durability.

Plumbing Code Compliance

All of our faucets and fittings meet the ASME/ANSE A112.18.1, ANSI/ASME 1016, CSA International B125, IAPMO/UPC, NSF 61 plumbing codes and the Energy Policy Act of 1992.

SUSTAINABILITY

Our faucets and fittings collections use low-flow aerators.

CARE

Use a soft damp cloth to wipe bath hardware clean and avoid harsh abrasives as they can corrupt the finish. We recommend Restoration Hardware's Metal Fittings and Fixtures cleaner.

WARRANTY

Restoration Hardware bath faucet, fittings and hardware products are warranted for commercial use to be free of defects in materials and workmanship for one year from date of installation. Additionally, with respect to commercial purchasers, all implied warranties are excluded and disclaimed.

This warranty does not cover labor charges or associated costs for, or damages occurring during the removal, transportation, return or installation of products or replacement parts. This warranty does not cover damage or defects due to normal wear and tear, misuse, abuse, hard water, improper storage, improper handling, improper maintenance or improper installation.

Restoration Hardware will, at its election, repair, replace or make appropriate adjustment where Restoration Hardware inspection disclosed any such defect occurring in normal usage within one year after installation.

To obtain service under this warranty, please contact your Restoration Hardware Business development contact listed in the Contact section.

PRODUCT AVAILABILITY

Special Orders

All of our Residential multi-unit developers as well as our Hospitality and Commercial customers are encouraged to order in bulk. Minimum order quantities apply, and we determine our pricing on a project-by-project basis.

Express Program

While our standard Restoration Hardware Trade lead time for delivering most products is 90-120 days, we realize that Residential multi-unit developer, Hospitality, and Commercial customers often need products more urgently. Those products marked with (EXP.) throughout this book, can be delivered to your project within 2-3 weeks. Although not priced as aggressively as products that are special order, our Express products are priced more aggressively than our standard Trade discount.

Contract-only Promotions

We run many Contract-only promotions throughout the year. The options vary, but all products in our promotions are available for immediate shipment. The pricing is similar to our Quick Ship inventory, though promotional pricing is while supplies last only.

Samples and Model Products

We use stock set aside for our retail business to satisfy our Residential multi-unit developer, Hospitality and Commercial customer's requirements for samples and model room projects. These products are offered at a 20% discount from full retail pricing.

BATH INSTALLATIONS

ALBION CONTEMPORARY BATH HARDWARE COLLECTION

Spare and spectacular Albion features rich plating, mitered joints that seamlessly unite the round tubing and a variety of components to build a customizable shower system. Balance-pressure shower valves support a single water outlet, control water flow and monitor pressure between hot and cold for an even temperature. Thermostatic shower valve options that support simultaneous use of multiple water outlets are also available.
