

BLUEGATE

Floating Glass Shelves

No tracks, no hardware, all you see is glass floating through the wall. Bluegate is happy to offer this new line of floating glass shelves. This patented shelving uses a tongue and groove system that allows the shelves to be installed directly into your corners. The shelves have a superb load capacity and are available in many different shapes and sizes. Adding a shelf support to your design allows for an “away-from-the-corner” application such as wall units, displays, storage and entertainment centers to name a few.

Our floating glass shelves are available in 4 different shapes and 42 different sizes. They are easily installed into the corners. We also offer shelf supports for “away-from-the corner” applications.

These floating glass shelves are made of tempered glass for strength, the glass is clear to match any décor and their edges are rounded for safety.

Our shelves are considered “green” product. They don’t require any maintenance and can be reused and/or recycled.
