# Concrete Coatings

Glidden Professional™ Concrete Coatings is a complete line of products developed for horizontal and vertical masonry surfaces. Whether you need concrete stains, sealers, floor enamels or anti-slip additives, we have the products your job requires. Our comprehensive system for the repair, restoration and protection of concrete will help you overcome the obstacles associated with difficult masonry surfaces, and prevent on-site issues. For more information, contact your local Glidden Professional sales representative, or go to [www.gliddenprofessional.com](http://www.gliddenprofessional.com).

## Anti-Slip Products

For added safety, Glidden Professional™ Concrete Coatings offers two anti-slip products. For a safe, yet smooth and comfortable surface, the Slip Resistant Additive is the perfect product. When you need a more aggressive texture, try the Acrylic Anti-Skid formula.

### Acrylic Anti-Skid 3011

- Provides aggressive texture for increased traction
- Provides water resistant finish
- Designed to be colored by adding Concrete Stain 3610
- Available in 10 lb. and 40 lb. kits

### Slip Resistant Additive 3001

- Finely ground polymer material for increased traction
- Provides a barefoot-comfortable slip resistant surface
- Long lasting, uniform suspension in thin bodied materials
- Can be added to water and solvent-based stains, paints, and clear sealers

## Primers and Block Fillers

To ensure the best end result on both vertical and horizontal surfaces, prepare the surface properly. Refer to individual technical data sheets for more information.

### Bond-Prep Pigmented Bonding Primer 3030

- Excellent penetration and adhesion over chalky surfaces
- Highly alkali resistant (up to a pH of 13.5)
- Seals and strengthens masonry surfaces
- Meets MPI #3

### Block Filler 3010

- Heavy bodied vinyl acrylic filler for filling interior or exterior open textured concrete block or masonry units (CMU)
- Excellent holdout and uniformity
- Accepts wide variety of topcoats, including epoxies
- Low odor/Low VOC
- Meets MPI #4

### Bond Enhancer 3111

- Epoxy ester multi-purpose bonding coat prepares steel troweled smooth concrete surfaces for coating with water-based stains or paints
- Seals previously painted chalky surfaces
- Provides excellent bonding to difficult to adhere to surfaces
- Prepares smooth concrete surfaces to receive water-based enamels or stains

# Imagine your business tomorrow.™

## Floor Enamel

Formulated for use on interior or exterior concrete and wood floors, our floor enamels are ideal for basements, porches, patios, and steps.

### Acrylic Floor Enamel 3018

- Fast drying 100% Acrylic formula
- Meets MPI #60
- Excellent adhesion and color retention
- Good abrasion resistance

### Polyurethane Floor Enamel 3118

- Hard wearing alkyd formula
- Excellent abrasion and scuff resistance
- Meets MPI #48
- Good color and gloss retention

## Concrete Stains & Sealers

Our concrete stains and sealers are specially developed for horizontal and vertical painted or unpainted concrete or asphalt surfaces such as concrete masonry units, driveways, garage floors, patios, walkways, decks, pool decks and sidewalks.

### Concrete Stain 3610

- For interior or exterior use
- Contains a tough acrylic binder
- Resistant to hot automobile tires, oil and gas
- Meets MPI #58

### Alkyd Sealer 3710

- Provides water repellancy, alkali and pollution resistance
- Highly resistant to automobile, forklift, and foot traffic
- Lasting color retention
- Meets MPI #58

## Clear Sealers

Our superior clear sealers provide a protective coating against chemical spills, UV rays, gas, oil, and most solvents. These products are washable and non-yellowing, for long-lasting protection. Refer to individual technical data sheets for more information.

### Clear Acrylic Sealer 3214

- Provides a hard water resistant satin finish
- Good resistance to water, gas, oil, most solvents, and some chemicals
- Meets MPI #99

### Alkyd Clear Siliconized Acrylic Sealer 3708

- Impact and abrasion resistant in a semi-gloss finish
- Excellent penetration and durability
- Alkali, pollution & oil resistant
- Meets MPI #104

### Clear Urethane Acrylic Sealer 3218

- Impact and abrasion resistant in a high gloss finish
- Excellent resistance to water, gas, oil, most solvents, and some chemicals

Samples of this product were independently evaluated by The Master Painters Institute, Inc. and meet MPI Green Performance™ Standards [GPS-1-08]. Akzo Nobel Paints LLC certifies that this conforms to the specifications originally evaluated by the Master Painters Institute, Inc. for MPI Green Performance™ Standards [GPS-1-08].

## Who we are:

### We've built our business upon four key building blocks:

#### **Collaborative Business Building**

This is all about listening to our customers and reacting in the most productive way to help grow our customers' businesses.

#### **Commercial Service Experience**

We are focused 100% on the needs of the professional market. If there is a way to deliver better, more responsive service to our professional customers, we'll find it.

#### **Best-for-Task Products**

This is the promise we make to supply our customers with the most appropriate assortment of products, tailored to their specific needs.

#### **Eco Leadership**

Our Think Impact program sets goals to minimize the environmental impact throughout the entire product lifecycle – and we are committed to putting those goals into action, with measurable results.

### About Glidden Professional Paint Centers

AkzoNobel's portfolio of Glidden Professional™ branded paints are sold through Glidden Professional Paint Centers and authorized independent dealers across the United States. We also offer our customers access to AkzoNobel's protective coatings brands, Devoe® High Performance Coatings and International® Paint, as well as our woodcare brand, Flood®. In addition to paints and related products, Glidden Professional Paint Centers offer contractors expert advice to simplify the product selection, delivery and job site clean up of any residential, commercial or industrial project. To learn more, visit [www.gliddenprofessional.com](http://www.gliddenprofessional.com).
