

Imagine your business tomorrow.™

DRY FALL - Solventborne & Waterborne Paints

Dry falls are coatings designed to dry rapidly so that the overspray can be easily removed from the surfaces below. This minimizes both project prep and cleanup. **Glidden Professional™ Dry Falls** are self-priming, non-yellowing, moisture resistant coatings that dry to a non-adhering dust in an approximate 10-foot fall, under conditions of moderate humidity and temperature. Ideal for use in offices, warehouses, industrial and commercial applications.

BENEFITS

- Self-priming, so you save on material costs
- One-coat hide means less time and money spent on project
- Bright white, with long-lasting color retention
- Creates bright, safe, productive environment
- Minimizes downtime
- Sweep away overspray
- Available in direct-to-galvanized formula
- Meets MPI # 49, 55, 89 & 118

Samples of this product were independently evaluated by The Master Painter Institute, Inc. and meet MPI Green Performance™ Standards (GPS-1-08). Akzo Nobel Paints LLC certifies that this conforms to the specifications originally evaluated by The Master Painters Institute, Inc. for MPI Green Performance™ Standards (GPS-1-08)

Imagine your business tomorrow.™
