**CleanRiver**™  
RECYCLING SOLUTIONS  
A division of Midpoint International Inc.

# Environmental Stewardship

## Sustainability Principles

CleanRiver™ products are designed using environmentally responsible materials made with the highest percent recycled content available for the application. In keeping with our philosophy to reduce, reuse, recycle and repurpose, CleanRiver products can be recycled at the end of use to complete a cradle-to-cradle (C2C), waste free, life cycle. Our products exceed EPA guidelines for post consumer recycled content to support LEED Certification Credits and BOMA BEST initiatives.

## Lean Manufacturing and Continuous Improvement

CleanRiver's manufacturing processes follow manufacturing principles focused on continuous daily improvement. Through a disciplined approach called Kaizen, the Japanese word for improvement, we have been able to reduce our lead times while providing better quality at a lower overall cost.

## In-House Sustainability Efforts

The offices of CleanRiver support clean renewable electricity and we are proud to be a bullfrogpowered company. The CleanRiver Green Team works diligently to implement small and large step improvements. We reclaim, recycle and reuse the cut offs and plastic debris chips resulting from the manufacture of our plastic lumber products. These materials are routinely cycle shipped back to our supplier to be used in the manufacturing of new lumber resulting in a greater than 90% waste diversion rate for the entire facility. Mini Bins for trash and compost on every desk are supported by multi-stream collection centers in the plant, lunchroom, and meeting rooms. Special interest days like WWF's National Sweater Day and Litterless Lunches add a fun element to more fundamental initiatives like the Recycling Council of Ontario's Take Back the Light program.

## Supporting Community Projects

CleanRiver employees enjoy participating in community projects like the annual Aurora Community Arboretum Tree Planting project shown on the opposite page. Our popular and growing Project Nest Box – School Nest Watch Program is an interactive project that brings students from Kindergarten through Grade 12 in touch with nature in a way that aims to instill a lifelong appreciation for nature. Birds are leading indicators of the health of their environment and the information that is collected is valuable.

The nest boxes are constructed from our own plastic lumber in a design that will not swell, rot or require annual maintenance. Participating schools receive a donation of nesting boxes to be assembled by students, installed on their school grounds, monitored, and reported online.

Welcome to the 2011 CleanRiver™ Commercial Products Catalog!

Many of our valued customers have known us as Midpoint International. This year we celebrate our twentieth anniversary and our new name: CleanRiver™ Recycling Solutions.

The name CleanRiver was specifically chosen to reflect our ongoing commitment to reducing the amount of waste that ends up in landfill. While we have a new name, our commitment to supporting our customers' sustainability efforts remains and is supported by our proven track record as a leader in innovative, responsible recycling products and services.

CleanRiver manufactures recycling containers, bins and cabinets made from raw materials with the highest recycled content available. In addition, we support your recycling and sustainability efforts with a variety of programs to implement and maintain efficient and productive recycling of paper, plastic, metal, and compostable materials as well as e-waste, light bulbs, confidential materials, and more. These services include coordinating and tracking waste audits, interpreting waste stream regulations and guidelines, and ROI analysis.

Thanks for your continued support.

THE CLEANRIVER TEAM CELEBRATES THEIR NEW NAME AND 20TH ANNIVERSARY. NOVEMBER 2010

FOUNDER AND CEO BRUCE BUCHAN ACCEPTS THE 2009 BUSINESS OF THE YEAR AWARD FROM GEOFF DAWE

# Our Way

At CleanRiver™ we make it easy to do the right thing by creating smarter recycling solutions. Our client's success becomes our success because we pull together as one Team to constantly innovate.

As passionate, responsible people, we create an uplifting environment based on trust and respect, take initiative, and do the right thing.

---

## Imagine a world without waste

---

That's the ultimate goal of ambitious recycling programs and one the whole CleanRiver team is passionate about. Supported by our CEO and senior management team, the company's commitment to environmental stewardship is embedded in our business strategy and day-to-day operations. We're committed to making it easier to do the right thing beginning with innovative products and services designed to support our customers' sustainability efforts.

CleanRiver actively supports Earthwatch programs with full color posters and is a proud sponsor of Earth Day initiatives at the Pentagon.

As a recognized leader in recycling and waste stream solutions, CleanRiver is an active member of key organizations including The Executive Chairs (TEC) Canada, Global Green USA's Coalition for Resource Recovery (CORR), the US Government Services Administration (GSA), and the College and University Recycling Coalition (CURC).

CleanRiver also supports the initiatives of the Association for the Advancement of Sustainability in Higher Education (AASHE), the Sustainable Food Court Initiative and the National Restaurant Association (NRA).

CleanRiver employees participate in planting trees at the Aurora Community Arboretum (Spring 2010).

## About the New CleanRiver™ Commercial Products Catalog

CleanRiver Recycling Solutions is committed to providing innovative products and services that support our customers' sustainability efforts at all stages of development. The CleanRiver Commercial Products Catalog is the first release in a series of CleanRiver resources designed to provide a broad range of products and services. We're proud of our in-house graphics department, CleanSort™ Graphics, which offers sustainable HDPE labeling options that can be recycled at the end of use.

### Green Marketing

In keeping with responsible marketing principles, all CleanRiver resources are available for download in PDF format from our website. CleanRiver.com features the most up-to-date and complete product information available including new and featured products.

As an additional service to our valued customers, we are offering a CleanRiver Products and Services Guide binder complete with preprinted tabs to house your CleanRiver product and program material for easy reference.

To order a printed copy of this catalog and/or the new CleanRiver 2011 Products and Services Guide binder call 1-888-646-4246 or order online at [cleanriver.com/catalog.aspx](http://cleanriver.com/catalog.aspx)

## CleanRiver™ Recycling Programs & Education

Welcome to the CleanRiver commercial products and services offering. The need to reduce, reuse, repurpose, and recycle has never been more urgent than it is today. We've made it our business to help our customers launch, maintain, and grow their own successful recycling programs.

With twenty plus years of learning what works and what doesn't to draw from, we are committed to staying abreast of recycling trends and are delighted to share our knowledge to help you to reduce the amount of waste that ends up in landfill. Aside from being the responsible thing to do, reducing solid waste can result in cost savings in hauler fees and taxes as well as increased revenues when valuable commodities are sold as raw materials. In other words, recycling makes sense for the planet and for your bottom line.

Whatever stage you are at in your recycling efforts, we are here to help with tips on how to set up a successful program and how to avoid stumbles along the way so that your whole company can take pride in a program that works.

### *Recycling Slogans & Catch-Phrases*

Recycling slogans and catch-phrases create a buzz around your office and will generate interest in your recycling program. Recycling messages and facts will back up your program and encourage people to participate. Fun slogans will increase awareness and promote participation. Here are a few samples:

- For Every Earthy Reason, Don't Waste It
- Clear Your Conscience - Cultivate Our Creation
- Get Into the Green Scene
- Don't Waste It - Respect It
- Go Green! Go Green!
- Why Waste a Cool Planet?
- Wipe Out Waste
- It's Easy Being Green - Reduce, Reuse, Recycle
- Keep It Green
- Keep Your Earth Clean and Green
- Show Appreciation for Future Generations
- The Choice is Yours - Save It or Waste It
- You are the Difference - Reduce, Reuse, Recycle

# CleanRiver™ Recycling Programs & Education

## Launch, Maintain & Grow Your Recycling Program

- 1. Plan & Budget:** Identify your recyclable waste streams, develop a plan & goals, estimate costs, solicit employee input, and get senior management buy-in.
- 2. Identify Requirements:** Conduct an internal audit to set a baseline and map out equipment needs including the volume estimated per stream throughout the building:
  - consolidation areas
  - lunchrooms & kitchens
  - copy stations & mailrooms
  - meeting rooms, entrances, and corridors
  - capacity per stream taking into account volume and bulk
  - anticipated or possible future changes
  - confidentiality or security needs
- 3. Communicate:** Be a Green Team champion - promote program details throughout the company at all levels with colorful posters and signage, and advertise to your customers and visitors.
- 4. Implement:** Negotiate contracts, select your recycling equipment complete with effective posters and labels, then promote the launch date and kick-off your program with enthusiasm and style.
- 5. Measure & Review:** After one week, walk the building to assess results and buy-in. Encourage feedback, acknowledge concerns, and rectify promptly.
- 6. Celebrate:** Publish the program results to senior management, in company newsletters, bulletin boards and online news pages, and customer mailings. Consider environmental certification (ie. LEEDS).
- 7. Continuous Improvement:** There's always room for more improvement. Take the program through the whole building, review purchasing policies, and consider ways to reduce paper and other resources.

*Give your Recycling Program a name to bring it to life.*

# CleanSort™ Graphics

## In-House Graphic Design & Print Services

Twenty years of experience has made it clear that effective communication is key to clean streams and, ultimately, a clean planet. In recognition of this and the positive effect on ROI, CleanRiver™ offers full-service graphic design and print services.

By working closely with our customers, we have integrated what we've learned to provide effective, powerful, flexible, and fully customized labels and posters that can be replaced easily in the field. Working in tandem with you and your program objectives, CleanSort Graphics Specialists take the guesswork out of selecting effective signage to ensure your program works in the short term and, as importantly, over time as you progress towards a zero waste environment.

\*CleanSort Graphic Posters can be changed easily onsite without any special tools.

- **Sustainable HDPE or Adhesive Vinyl Label & Poster Options:** Select the best option to support your sustainability goals.
- **Guide Users to Ensure Clean Streams & Increase ROI:** Graphics coordinate with opening to increase the value of your recyclables.
- **Increase Morale. Build Your Brand Image. Advertise Your Program:** Sustainability builds goodwill!
- **Protect Users and Cleaning Staff:** Hygienic, smooth surfaces minimize exposure to bacteria.
- **Resist Vandalism:** May be reinforced with tamperproof posters to protect from vandalism.

## In-House Graphic Design & Print Services

### Sustainable Printing Practices

In line with our commitment to innovate and expand industry standards, CleanRiver is proud to offer state-of-the-art sustainable label and poster options. Leading the way in sustainable printing practices, we offer the option to print on long-lasting and completely recyclable, high density polyethylene (HDPE). As with our plastic lumber, any scrap we generate in-house is returned to our supplier completing a cradle-to-cradle (C2C) and virtually waste-free life-cycle. Our UV cured inks ensure your graphics will remain vibrant whether they are displayed in direct sunlight indoors or outdoors.

### Label and Poster Specifications

	Model	Description	Visible Size

## CleanRiver™ Recycled Recycler™ Series Indoor & Outdoor Recycling and Waste Stream Containers

Finding ways to repurpose recycled materials is as important as collecting them. The Recycled Recycler Series was the first recycling container to be manufactured from long lasting, 98% post consumer recycled high density polyethylene (HDPE) plastic lumber.

The use of plastic lumber helps to preserve our natural forests while our high impact, full color graphics guide users to ensure clean streams and a successful recycling program.

We incorporate classic hand-craftsmanship with new technologies to achieve aesthetic, durable and highly effective products. Utilizing state-of-the-art computerized CNC equipment, each container is assembled, tongue and groove, for maximum strength.

### Features and Benefits

- **Long-lasting 98% Post Consumer HDPE Plastic Lumber:** Will not chip, rust, absorb moisture, delaminate or fade.
- **Cradle-to-Cradle (C2C):** Made from recycled plastic that can be recycled at the end of utility.
- **Integrated Quick-Change Color Labels & Graphic Posters:** Full-color and customized to ensure clean streams & increase ROI.
- **Eleven Standard Colors:** Mix and match to complement existing décor (other colors available).
- **Color Differentiated Compartments:** Guide users to ensure clean streams.
- **Front or Top Deposit Restrictive Openings:** Select to suit your specific location.
- **Partitions Between Openings:** Reduce cross contamination and overflow between streams.
- **Marine Grade Stainless Steel Hardware:** Will not corrode (used where possible – some exceptions apply).
- **Front Service Door Designs:** Complete with heavy duty liners for easy change outs and cleaning.
- **Hinged Lids with Retention Chains:** For easy change-outs on all Indoor Top Deposit Stations.
- **Designed to Minimize Crevices:** Minimize the collection of food and debris for easier cleaning.
- **Bag Retention Clips:** Prevent unsightly bag overhang.
- **Magnetic Clasps:** Hold lids open for easy change-outs on all Indoor Top Deposit Stations with backboards.
- **Casters or Leg Levelers:** Adapt to uneven surfaces and make moving easy.
- **Optional Accessories:** Tray Holders, Utility Doors, Locking Devices and more.
- **Optional Drainage Holes in Excel Series:** Prevent build-up of liquids from spills or weather.
- **Program Consultation:** Twenty years of supporting successful customer initiatives.
- **Environmentally Responsible:** Exceeds EPA guidelines for post consumer recycled content to support LEED certification credits and BOMA BEST initiatives.
- **GSA Approved Vendor:** Contract GS-07F-0093N.
- **ADA Compliant Where Noted:** 2010 ADA Standards for accessible design, D.O.J. 09/15/20.

## Recycled Recycler™ Front Service Recycling Station Top Deposit, Front Service

Multi-stream recycling stations for high volume collection areas with maintenance-friendly front service doors. May be ordered with high impact, full-color, custom graphics to ensure clean streams and increase ROI. Ideal for all indoor locations including office buildings, schools, and conference centers.

- Front service doors for easy change-outs and cleaning.
- Rigid liners included.
- Optional graphic backboards complete with posters and oval header.
- Heavy-duty ball bearing casters for easy moves (leg levelers for single stream).
- Optional adjustable leg levelers adapt to uneven surfaces.
- Your choice of restrictive openings.
- Individual compartments can be different colors to ensure clean streams.
- Designed to minimize crevices and the collection of food and debris for easier cleaning.
- Complete with one 1.5" x 10.125" interchangeable color label per compartment.
- Optional integrated Graphic Posters to enhance or brand your message.
- HDPE plastic lumber exceeds EPA guidelines for post consumer recycled content to support LEED certification credits and BOMA BEST initiatives.
- GSA Approved Vendor (Contract GS-07F-0093N).

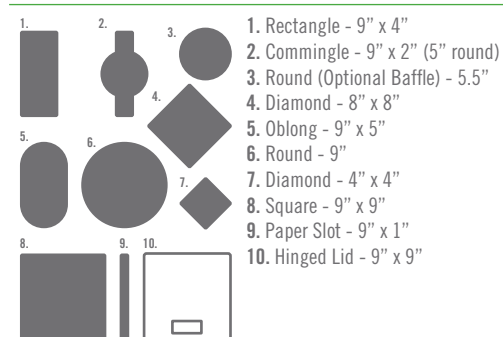

Shown with integrated Quick-Change Posters (optional) and Labels (included).

Plastic Lumber - Indoor Only

## Recycled Recycler™ Pedestal Recycling Station

### Top Deposit, Top Service

Multi-stream recycling centers provide clear labeling and easy access from all sides. Full-color labeling on all sides to ensure clean streams and increase ROI. Ideal for island placement in high traffic areas in all indoor locations including office buildings, schools, and conference centers.

- Heavy-duty ball bearing casters for easy moves.
- Optional adjustable leg levelers adapt to uneven surfaces.
- Your choice of restrictive openings.
- Hinged lid with retention chain.
- Individual compartments can be different colors to ensure clean streams.
- Bag retention clips prevent unsightly bag overhang.
- Designed to minimize crevices and the collection of food and debris for easier cleaning.
- Complete with integrated 1.5" x 10.125" Quick Change Labels; 10 for 3 stream, 12 for 4 stream.
- Optional integrated Graphic Posters to enhance or brand your message.
- HDPE plastic lumber exceeds EPA guidelines for post consumer recycled content to support LEED certification credits and BOMA BEST initiatives.
- End compartments meet 2010 ADA Standards for accessible design, D.O.J. 09/15/20.
- GSA Approved Vendor (Contract GS-07F-0093N).

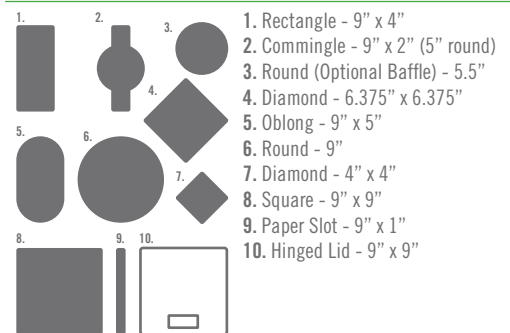

Shown with integrated Quick-Change Posters (small, optional) and Labels (included).

## Recycled Recycler™ Modular Square Top Deposit, Top Service

Modular Squares provide an attractive, affordable, and compact recycling and waste collection system that can stand alone or be clustered together. Labels on all four sides ensure clean streams and increase ROI. Ideal for start-up programs in all indoor locations including office buildings, schools, and conference centers.

- Adjustable leg levelers adapt to uneven surfaces.
- Your choice of restrictive openings.
- Compact size is ideal for compost or e-waste with appropriate opening.
- Hinged lid with retention chain.
- Individual compartments can be different colors to ensure clean streams.
- Bag retention clips prevent unsightly bag overhang.
- Designed to minimize crevices and the collection of food and debris for easier cleaning.
- Complete with four integrated 1.5" x 10.125" Quick-Change Labels per compartment.
- Optional integrated Graphic Posters to enhance or brand your message.
- HDPE plastic lumber exceeds EPA guidelines for post consumer recycled content to support LEED certification credits and BOMA BEST initiatives.
- 900-RRIS-31 and 900-RRIS-34 meet 2010 ADA standards for accessible design, D.O.J.09/15/20.
- GSA Approved Vendor (Contract GS-07F-0093N).

Plastic Lumber - Indoor Only

## Recycled Recycler™ Small Top Loading Recycling Station Top Deposit, Top Service

The Small Top Loading Recycling Station offers a narrow 12"x 16" footprint (per stream) for medium to high volume collection areas. May be ordered with high impact, full-color, custom graphics to ensure clean streams and increase ROI. Ideal for all indoor locations including office buildings, schools, and conference centers.

- Aesthetically pleasing angled top surface.
- Optional backboards for multi-stream stations.
- Heavy-duty ball bearing casters for easy moves (leg levelers for single stream).
- Optional adjustable leg levelers adapt to uneven surfaces.
- Your choice of restrictive openings.
- Hinged lid with retention chain for compartments without backboards.
- Magnets in lid and backboard hold lids open during cleaning.
- Individual compartments can be different colors to ensure clean streams.
- Bag retention clips prevent unsightly bag overhang.
- Designed to minimize crevices and the collection of food and debris for easier cleaning.
- Complete with one integrated 1.5" x 10.125" Quick-Change Label per compartment.
- Optional integrated Graphic Posters to enhance or brand your message.
- HDPE plastic lumber exceeds EPA guidelines for post consumer recycled content to support LEED certification credits and BOMA BEST initiatives.
- GSA Approved Vendor (Contract GS-07F-0093N).

Shown with Graphic Backboard and Labels (included).

## Recycled Recycler™ Large Top Loading Recycling Station Top Deposit, Top Service

The Large Top Loading Recycling Station offers a shallow, 15.5" x 15.5" footprint, ideal for narrow spaces. May be ordered with high impact, full-color, custom graphics to ensure clean streams and increase ROI. Ideal for all indoor locations including office buildings, schools, and conference centers.

- Optional backboards for multi-stream stations.
- Heavy-duty ball bearing casters for easy moves (leg levelers for single stream).
- Optional adjustable leg levelers adapt to uneven surfaces.
- Your choice of restrictive openings.
- Hinged lid with retention chain for compartments without backboards.
- Magnets in lid and backboard hold lids open during cleaning.
- Individual compartments can be different colors to ensure clean streams.
- Bag retention clips prevent unsightly bag overhang.
- Designed to minimize crevices and the collection of food and debris for easier cleaning.
- Complete with one integrated 1.5" x 10.125" Quick-Change Color Label per compartment.
- Optional integrated Graphic Posters to enhance or brand your message.
- HDPE plastic lumber exceeds EPA guidelines for post consumer recycled content to support LEED certification credits and BOMA BEST initiatives.
- GSA Approved Vendor (Contract GS-07F-0093N).

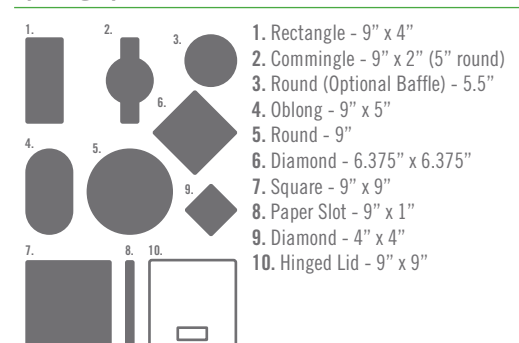

Shown with integrated Quick-Change Posters (small, optional) and Labels (included).

Plastic Lumber - Indoor Only

## Recycled Recycler™ Excel Slant Top Recycling Station Front Deposit, Front Service

Designed to withstand heavy use in high traffic areas, indoors or outdoors. Offered with front or optional rear service doors, front deposit openings and slant top styling. May be ordered with high impact, full-color, custom graphics to ensure clean streams and increase ROI. Ideal for front entrances, centralized areas, parks, and parking lots.

- Front service doors for easy change-outs and cleaning – optional rear doors available.
- Slanted roof design avoids buildup of dirt and debris and self cleans with rainfall.
- Rigid liners included.
- Optional drainage holes inside prevent the buildup of liquid from spills, leaks or weather.
- Your choice of restrictive openings.
- Individual compartments can be different colors to ensure clean streams.
- Complete with one 10.5" x 3.5" interchangeable color label per compartment.
- Add integrated Quick-Change Posters to enhance or brand your message (front or side).
- HDPE plastic lumber exceeds EPA guidelines for post consumer recycled content to support LEED certification credits and BOMA BEST initiatives.
- Meet 2010 ADA Standards for accessible design, D.O.J. 09/15/20.
- GSA Approved Vendor (Contract GS-07F-0093N).

Shown with integrated Quick-Change Posters (optional) and Labels (included).

Plastic Lumber - Outdoor / Indoor

## Recycled Recycler™ Excel Catch-All Recycling Station Top Deposit, Front Service with Angled Backboard

Specifically designed with wide funnel openings and an angled backboard for high traffic, high speed areas like drive-through fast food applications, entrances to stadiums, and any area where waste may be tossed over a distance. May be ordered with high impact, full-color, custom graphics to ensure clean streams and increase ROI. Front service doors for easy change-outs and cleaning – optional rear doors available.

**Anchor kits strongly recommended.**

- Full-color graphic backboards support streams for maximum impact.
- Large funneled deposit openings separated by partitions to ensure clean streams.
- Optional rain hood to protect against rain and snow buildup.
- Rigid liners included.
- Optional drainage holes inside prevent the buildup of liquid from spills, leaks or weather.
- Individual compartments can be different colors to ensure clean streams – rain hoods and angled backboards one color only.
- Add integrated Quick-Change Posters to enhance or brand your message (front or side).
- HDPE plastic lumber exceeds EPA guidelines for post consumer recycled content to support LEED certification credits and BOMA BEST initiatives.
- GSA Approved Vendor (Contract GS-07F-0093N).

Shown with integrated Quick-Change Posters on the front (optional) and Angled Backboard (included).

Plastic Lumber - Outdoor / Indoor

# Recycled Recycler™ Accessories & Options

In addition to the many built-in features, all of our recycling and waste containers and stations are available with a variety of options and accessories. Customize your selected recycling station with options to provide security, mobility or anchoring, enhanced messaging, leak prevention or utility doors.

## Security    Mobility    Maintenance

### Quick-Change Graphic Posters

Optional integrated Quick-Change Posters support your recycling program by providing stream specific images to guide users. They can also be used to promote your brand image or message. For more information on CleanSort™ graphics see pages 3 and 4.

Model	Description	Dimensions
900-RR-QP-SF	Small - front display, all indoor, all outdoor	8" x 10.5"
900-RR-QP-SS	Small - side display, Modular Square, Pedestal, Compact II and all outdoor	8" x 10.5"
900-RR-QP-LF	Large - front display, Modular Square, Pedestal, Compact II and Excel 35	12.5 x 19.25"
900-RR-QP-XLF	Extra Large - front display, Excel 50	16" x 25"

### Quick-Change Graphic Poster Labels

When space is tight, this hybrid option may be selected to replace the text labels with a small graphic poster.

Model	Description	Dimensions
900-RR-QPL-LF	Poster Label (replaces label), Excel 25, 35 Flat & Slant w/o backboard	12.8" x 9.5"
900-RR-QPL-XLF	Poster Label (replaces label), Excel 50 Flat & Slant w/o backboard	16" x 12.3"

### Rubber Baffle

Rubber baffles partially restrict deposit openings to deter pests and minimize potential harm from broken glass, indoors or outdoors.

Model	Description	Dimensions
900-RR-RB	Rubber baffle for 5.5" round openings. Indoor and outdoor applications.	5.5"

### Plastic Drip Tray

A plastic insert for Recycled Recycler™ indoor top service units. This insert is designed to catch any spills due to bag tears.

Model	Description	Dimensions
900-RR-PIS	Drip Tray for Small Top Service	10" x 13.5" x 3.5"
900-RR-PIL	Drip Tray for Large Top Service	13.5" x 13.5" x 3.5"

### Mini Bin Liner Dispenser

Keep your Mini Bin liners tidily stored away in this liner dispenser. Can be mounted on the wall or on any of the Recycled Recycler brand of recycling and waste containers. Made with high density polyethylene. Comes in eleven colors.

Model	Description	Dimensions
900-RR-MBLD	Mini Bin Liner Dispenser for use on Recycled Recycler Stations	11" x 6.75" x 9"

Accessories & Options

# Recycled Recycler™ Accessories & Options

## Rear Utility Door

A 9" x 14" rear access door for indoor Recycled Recycler top deposit, top service single and multi-stream recycling stations which makes cleaning the interior of the unit fast and easy.

Model	Description	Dimensions
900-RR-UD	Rear Utility Door, Indoor	9" x 14"

## Locking Device

Locking devices help secure your valuable commodities as well as preventing theft and vandalism.

Model	Description	Dimensions
900-RR-LD	Lock for indoor and outdoor Recycled Recycler containers	N/A

## Bags & Rigid Liners

Replacement hard plastic liners and bags for Front Service Recycling Stations.

Model	Description	Dimensions
800-BAG-B3038CL	Clear Plastic Bags for use in all Recycled Recycler containers	30" x 38"
800-RP-RL76	Replacement Liner for 900-X20 and 900-RRMF	10.5" x 21" x 30.5"
800-RP-RL87	Replacement Liner for 900-X25	16.5" x 16.5" x 27"
800-RP-RL99	Replacement Liner for 900-X35	16.5" x 16.5" x 31.5"
800-RP-RL159	Replacement Liner for 900-X50	19" x 19" x 34"

## Mobility / Immobility

Locking casters allow you to easily move your recycling station when you need to and keep it in place when you don't. Anchor kits to secure the recycling station to the ground to prevent theft and tipping due to vandalism or inclement weather. Each kit comes with all required mounting hardware.

Model	Description	Dimensions
900-RR-LC	Locking casters allow you to move your recycling station or keep it in place.	N/A
900-RR-AK1	Anchor Kit for Solid Surface Mounting (concrete, asphalt, etc.)	N/A
900-RR-AK2	Anchor Kit for Soft Surface Mounting (earth, sand, gravel, etc.)	N/A

900-RR-AK1 shown

## Smoker Station

Keep your outdoor areas clean and butt free. Made from fire safe, 18 gauge stainless steel. Complete with vent tempering and keyed cam locking mechanism. Interior liner restricts oxygen and prevents fire.

Model	Description	Dimensions
900-RR-SSS	Smoker Station, Small	7" x 3" x 9"
900-RR-SSL	Smoker Station, Large	9" x 5" x 12"

## Planter Box

Designed to coordinate with the Recycled Recycler Series recycling stations, these attractive planter boxes are made with the same long lasting plastic lumber. With eleven colors to choose from, the planter can be customized to match your décor.

Model	Description	Dimensions
900-RR-PLS	Planter	19.13" x 19.13" x 23"

# CleanRiver™ Mini Bin

## Inspired by a Vision of Zero Waste

A successful recycling program requires a change in behavior. Most people know that recycling makes sense and they want to do the right thing, given the opportunity and some guidance. The Mini Bin was introduced in North America in 1992 to make people think before they toss. It challenges users to reduce the amount of garbage they generate at their desks by moving their trash container out from under the desk and reducing it to the size of a large soft drink container. The phrase “This is all the GARBAGE I make!” encourages users to reduce the amount of waste sent to landfill by doing their part to recycle. In many companies, employees are responsible for emptying their own Mini Bin into a central collection center, making janitorial upkeep more efficient.

To learn how to set up your own Mini Bin program visit: [www.cleanriver.com/minibin.aspx](http://www.cleanriver.com/minibin.aspx)

### Mini Bins in Action!

Brewer Science, Inc. introduced the Mini Bin as a pilot program in January 2003 and it was adopted by the entire company by the end of the year.

The amount of recyclable material found in their trash dropped from 34% to 11%. Waste diverted from the landfill increased from a monthly average of 1,400 pounds to 8,000 pounds. Since inception, Brewer Science employees have recycled over 460 tons of material, which translates into a significant cost avoidance for waste disposal. Within the first three years, the annual disposal cost per employee dropped by an average of 12%.

Brewer Science, Inc. was awarded a \$6,350 grant in 2003 and a \$5,000 grant in 2004 from the Ozark Rivers Solid Waste District due to the success of the Mini Bin program. This money was used to purchase recycling centers made from 98% recycled plastic, Mini Bins, and desk-side recycle bins.

## CleanRiver™ Plastic Molded Recycling and Waste / Landfill Containers and Bins

Every bit of waste that is diverted from landfill counts. Our selection of bins and containers provide a variety of options to support your sustainability goals at the beginning stages of implementing a waste reduction initiative.

- Designed for high and low traffic areas in most indoor and some outdoor applications.
- Add high impact, full-color labels and/or posters to ensure clean streams - may be customized with your own message.
- Individual compartments and lids can be different colors to ensure clean streams.
- Affordable, high-end quality containers and bins.
- Conveniently sized and light weight for easy handling.
- Options to collect compost, batteries, e-waste, and more.
- Durable polyethylene meets and/or exceeds 25% recycled materials standard.
- GSA Approved Vendor (Contract GS-07F-0093N).

### Mini Bin Waste / Landfill, Battery & Compost Bins

Most of the waste generated in an office building is recyclable and the Mini Bin is designed to make users think before they toss. By removing the standard size waste receptacle and replacing it with a 1.5L (0.4 USG) Mini Bin, users develop pride in reducing the amount of waste they generate and they get to brag about it too.

Mini Bins can be ordered with a “This is all the GARBAGE I make!” silk screened label. The result is a much more environmentally friendly office and, often, a significantly increased ROI as savings in hauling, tipping fees, janitorial servicing, and more are realized, as waste is diverted from landfill and redirected to appropriate vendors.

Model	Description	Dimensions (WxDxH)	Capacity	
			USG	Litres

## Deskside Office Containers & Bins

### Deskslider / Desksider

Conveniently designed to fit under desks in a variety of sizes to suit small or large offices. Movable divider option on BC-1000 separates two streams. Standard imprint, Mobius Loop and “We Recycle” on two sides. Custom imprints and colors available. Soft grip handles allow containers to be picked up from any side.

Model	Description	Dimensions (WxDxH)	Capacity	
			USG	Litres
BC-1000	Deskslider, blue bin “WE RECYCLE”	15” x 12” x 8”	6	23
BC-1200	Divider for Deskslider	15.5” x 1” x 8”	N/A	N/A

Shown with optional label

### Office Recycler

Sturdy free-standing design with a slanted front to allow for stacking containers to create a recycling station. Built to fit into small spaces, this bin is lightweight and easy to carry. Smooth edges and rounded corner wipe clean. Standard imprinting may be enhanced or replaced with optional adhesive vinyl labels featuring your own message.

Model	Description	Dimensions (WxDxH)	Capacity	
			USG	Litres
NLP-215	Office Recycler, blue, WE RECYCLE	14.9” x 11.6” x 12.5”	6	23

### Side Saddle

This hanging waste basket is designed to hook onto existing waste or recycling bins (round or square) to create a complete deskside recycling system. Like the Mini Bin, its small size encourages users to empty, reducing janitorial costs. Standard imprinting may be enhanced or replaced with optional adhesive vinyl labels featuring your own message.

Model	Description	Dimensions (WxDxH)	Capacity	
			USG	Litres

## Compost & Battery Bins

Compost is a key component of any serious waste reduction program. All of our compost bins offer a compact size for handling and storage, wide openings for unrestricted scraping and emptying of food waste, and easy-clean surfaces.

The battery bin addresses an environmental concern: batteries in the garbage. This unit comes with a lid and is sized to hold an adequate amount of batteries while still being light enough to move.

Model	Description	Dimensions (WxDxH)	Capacity	
			USG	Litres
COMBIN	Compost bin with solid lid & handle, white	10" x 8" x 10"	2	7.6
BATBIN	Battery bin with solid lid & handle, white	10" x 8" x 10"	2	7.6
MB-GN-Compost	Mini Bin, green, "COMPOST" - See page 20	5.5" x 5.5"	0.4	1.5
MB-BK-Battery	Mini Bin, black, "USED BATTERIES" - See page 20	5.5" x 5.5"	0.4	1.5

Note: The compact size of Recycled Recycler™ Modular Squares is ideal for compost, batteries or e-waste with the appropriate restricted opening plate. The compost lid is hinged for maximum convenience. See page 8 for details.

## Metal Recycling & Waste / Landfill Containers and Stations

We offer a selection of heavy-duty steel recycling units for commercial, industrial, and institutional use both indoors and outdoors. These recycling stations are made from 20 gauge steel making them durable and fire resistant for high traffic areas in public spaces. They feature maintenance friendly front or side door access and top deposit openings for maximum convenience. Customize with full-color graphics to enhance your brand or program message. Ideal for universities, shopping malls, hospitals, government agencies, and other institutions.

# Committed to Reducing Waste in Landfill

## CleanRiver™ Recycling Solutions

Adopting the name CleanRiver in 2010, the company celebrates twenty years of supporting our customers' sustainability efforts with innovative, forward-thinking products and services that deliver proven results.

## Midpoint International Inc.

Founded in 1990, the company has supported the recycling initiatives and environmental stewardship efforts of a diverse range of companies and organizations including more than 300 college and university campuses across North America, 3000 federal, state, provincial and municipal buildings, as well as 100 plus military installations around the world including the Pentagon.

## Project Nest Box

*Project Nest Box - School Nest Watch Program* is a not-for-profit program developed by Midpoint International Inc. and the Aurora Naturalization and Wildlife Working Group in 2009. It is an extension of, and partnership with, a nest box program initiated in 2004 by Landscape Architect Emeritus and Ornithologist David Tomlinson, Aurora's 2009 Citizen of the Year, who has also been awarded the Lieutenant-Governor's Heritage Award for Lifetime Achievement. Tomlinson pointed out the nest box program as being one of the key programs that sticks out in his mind when asked about highlights in his esteemed career.

## CleanRiver™ – Recycled Recycler™ WARRANTY AND RETURN POLICY

CleanRiver™, A division of Midpoint International Inc. warrants the plastic panel component only to the original purchaser for a period of three years based on a pro-rated warranty from the date of purchase. This pro-rated warranty is limited to physical defects such as dry rot, termite and insect infestation, splitting, delaminating, or cracking and defects in the product due to manufacturing errors. This warranty will replace or refund, at the manufacturer's option, the material only in question provided the original purchaser supplies CleanRiver with a copy of the original bill of sale along with a photo illustrating the damage and a sample of the damaged product. The warranty is pro-rated as follows: First Year - 100% of original sale, Second Year - 80% of original sale and Third Year - 60% of original sale.

Product refunds will total the pro-rated percentage as stated in the warranty. Cash refunds, if deemed necessary by the manufacturer, will be the pro-rated percentage of the original bill of sale. If failure of the product has resulted from misuse, abuse, accident, neglect, improper installation, or mishandling, CleanRiver shall have no responsibility to replace or refund the product.

This warranty is made in lieu of all other warranties, express or implied, and excludes any and all implied warranties of merchantability or fitness for a particular purpose. There are no warranties, which extend beyond the description on the face hereof. All warranties made by a reselling merchant, whether express or implied are invalid.

Neither CleanRiver, nor anyone else involved in the sale or delivery of this product, shall be liable for any direct, indirect, incidental, special or consequential damages (including damages for loss of use, revenues, time and the like) in any way related to the product. The forgoing language cannot be waived, modified, or supplemented in any manner whatsoever, except by a written agreement signed by an officer of CleanRiver.

CleanRiver will solely determine the extent of the warranty replacement. All questions and disputes about the warranty policy should be sent in writing to:

**CleanRiver**  
**A division of Midpoint International Inc.**  
**189 Earl Stewart Drive**  
**Unit 1**  
**Aurora, ON L4G 6V5**

For CleanRiver catalogue products not covered by this Warranty, the Return Policy will apply.

### RETURN POLICY

A restocking fee of 25% will be charged on all returned CleanRiver catalogue products.

Product must be returned within 30 days of delivery, providing that they are in new and unused condition, with all original packaging, accessories, instructions, etc. Coordination of shipping and any charges thereof is the customer's responsibility. Items not featured in the CleanRiver catalogue are non-returnable due to the custom nature of the design.

Products that were purchased through CleanRiver may be returned by following the steps below.

1. Contact CleanRiver at 1-888-646-4246 to obtain an RMA number.
2. Fill out the RMA form in its entirety.
3. Return the authorized items and include the RMA form with the shipment as per shipping instructions.
4. Please ensure all goods are returned clean and free of debris. Goods will not be accepted if this condition has not been met and CleanRiver will return the goods and charge back any shipping and handling.
