But a real KitchenAid® differentiator is the breadth of individual products we offer for indoors and out. Add to that new induction cooktops, abundant choices in ENERGY STAR® qualified appliances, plus the ability to download 3D digital models of all KitchenAid® products directly into your CAD designs via the Google® 3D Warehouse.

Architect® Series II.
Quality time in the kitchen redefined.

More contoured and refined looks. More seamless and simple control. Expect all that you always have from the prominent Architect® Series, but now reimagined more thoughtfully according to cooks' very specific wishes. (And yes, we asked.)

Our renowned suite has evolved so that caring cooks can prepare meals as meticulously as they wish to, even when their kitchen's shared with family, friends or party guests.

Larger oven windows are an aid to keeping an eye on dishes. Handles are easier to grip, even with an oven mitt. Intuitive displays and control graphics help ensure that these high-performance appliances are user-friendly throughout.

From built-in ovens and warming drawers, to free-standing and slide-in ranges, to convection and high-speed cooking, the Architect® Series II has something for every kitchen and every client.

Built-in Ovens
Classic KitchenAid® style. Advanced cooking performance.

KitchenAid® offers a variety of built-in ovens to meet your clients' culinary needs. The Architect® Series II includes single, double and combination ovens with convection and high-speed cooking.

Single Oven – Dual-Fan Convection with Steam-Assist
- 4.3 cu. ft. oven capacity
- Dual-fan convection with steam assist technology
- EasyConvect™ time and temperature conversion system
- Glass-touch menu-driven LCD display
- Stainless Steel (SS)
- 30" width

Model shown: KEBU107SSS

Single Oven
- Even-Heat™ True Convection System
- EasyConvect™ time and temperature conversion system
- Glass-touch oven display
- White (WH), Black (BL) or Stainless Steel (SS)
- 27" and 30" widths

Model shown: KEBS107S

Double Oven – Dual-Fan Convection with Steam-Assist
- 4.3 cu. ft. upper oven /4.1 cu. ft. lower oven capacity
- Dual-fan convection with steam assist technology
- EasyConvect™ time and temperature conversion system
- Glass-touch menu-driven LCD display
- 30" width
- Stainless Steel (SS)

Model shown: KEBU208SSS

Double Oven
- 4.3 cu. ft. upper and lower oven capacity
- Thermal ovens
- Glass-touch oven display
- White (WH), Black (BL) or Stainless Steel (SS)
- 27" and 30" widths

Model shown: KEBK206S

Double Oven
- 4.3 cu. ft. upper and lower oven capacity
- Even-Heat™ True Convection System upper and lower ovens
- EasyConvect™ time and temperature conversion system
- Glass-touch oven display
- White (WH), Black (BL) or Stainless Steel (SS)
- 27" and 30" widths

Model shown: KEBS208S

Microwave/Combination Oven
- 1.4 cu. ft. microwave capacity/4.3 cu.ft. oven capacity
- Microwave, convection cooking with custom defrost, reheat, soft & melt cycles and steam cook cycle with steam container
- Oven, Even-Heat™ True Convection System
- Glass-touch oven display
- White (WH), Black (BL) or Stainless Steel (SS)
- 27" and 30" widths

Model shown: KEMS308S

Built-in Microwave Oven with Trims
- Fits 24", 27" and 30" with cutouts
- 1.4 cu. ft. capacity
- 1000 watts
- 10-level variable cooking power/multiple sensor cycles
- White (WH), Black (BL) or Stainless Steel (SS)
- 27" and 30" trim kits included

Model shown: KBSS1454S with 27" trim

Warming Drawers
- Slow cook function
- Custom-control technology
- Sensor temperature control, humidity slide control
- Blue exterior power indicator light
- Stainless Steel (SS)
- 30", 27" and 24" widths

Model shown: KEWS105S

Cooktops
Powerful options to satisfy cooks' many preferences.

A combination of exceptional performance and smart design makes KitchenAid the cooks' choice for cooktops. Whether you choose gas, electric—or new, energy- and time-saving induction technology—the design of KitchenAid® cooktops creates a pleasing, integrated appearance with kitchen countertops. Plus, many burner configurations with special griddle/grill options make it easy to design in a cooktop that meets specific lifestyle requirements.

Gas Classic Commercial-Style Cooktops
4-burner with grill and griddle
• Three 15,000 BTU Professional and one 6,000 BTU Simmer burner
• 15,000 BTU griddle
• 18,000 BTU grill with wave plate
• Porcelain-on-Steel cooktop surface
• Full-surface, cast-iron grates
• Stainless Steel
• 48" width

Model shown: KGCP484KSS

Gas Classic Commercial-Style Cooktop
8-burner
• Six 15,000 BTU Professional and two 6,000 BTU Simmer burners
• Porcelain-on-Steel cooktop surface
• Removable drip pan with Stainless finish
• Full-surface, cast-iron grates
• Stainless Steel
• 48" width

Model shown: KGCP487JSS

Also available: 36" width 6-burner KGCP467JTL

Gas Classic Commercial-Style Cooktop
4-burner with grill
• Two 15,000 BTU professional and two 6,000 BTU simmer burners
• 18,000 BTU grill with wave plate
• Full-surface, cast-iron grates
• Stainless Steel
• 36" width

Model shown: KGCP462KSS

Also available: 36" width 4-burner with griddle KGCP463KSS

Gas Cooktop
• Stainless Steel cooktop surface with clear coat protective finish
• Laser etched graphics
• Five burners: one 17,000 BTU, one 12,500 BTU, one 9,000 BTU, two 6,000 BTU
• Full-surface, cast-Iron grates
• Infinite-heat controls
• Electronic ignition
• 36" width

Model shown: KGCC766RSS

Also available: 30" width KGCC706SS

Induction Cooktop
• Induction offers incredible speed, control and energy efficiency
• Touch-activated controls
• 9 heat-level settings for precise temperature control
• Performance boost function for rapid boiling
• Keep warm function
• Elements: 36"—11"/7" dual-zone, plus 8", 6" and two 7" single; 30"—11", 6" and two 7" single
• Pan size detection indicates if pan is suitable for element
• 30" and 36" widths

Model shown: KICU568SBL

Electric Cooktop
• Touch-activated controls
• Custom Control Temperature Management System—Melt & Hold, Keep Warm, and 3 simmer settings on all elements
• Elements: one bridge 1800W/700W/1800W, one 10" triple-ring 2500W/1600W/800W, one 7" 1500W, one 6-1/2" 1200W
• Premium cooktop surface with subtle watermark pattern
• Pure White (PW), Pure Biscuit (PT), Pure Black (PB), 5.228"and Pure Black with Stainless Steel Trim (PS)
• 36" width

Model shown: KECC568RPS

Also available: 30" KECC508RPS

Ranges
Heightened professional appeal meets home cooking comfort.

KitchenAid® offers a complete line of electric and gas ranges that meet your clients' cooking preferences. Freestanding and slide-in models support your kitchen designs, as does the professional appeal of a dual fuel range that combines the power and performance of a gas cooktop with a true convection electric oven. With thoughtful redesigns of cooking controls, knobs and handles, our Architect® Series II ranges enhance the experience of being in the kitchen.

KitchenAid® Architect® Series II Slide-In Dual Fuel Range
- 4.1 cu. ft. oven capacity
- Even-Heat™ True Convection System
- EasyConvect™ Time and Temperature Conversion System
- TripleTier® 600–15,000 BTU burner with InstaWok™ reversible grate
- 12,500 BTU Power™ burner
- Two 6,000 BTU Simmer burners
- Self-cleaning system with soil level/time selection
- Full-width cast-iron grates with sealed burners
- Warming Drawer
- Stainless Steel finish
- 30" width

Model shown: KDSS907SSS

KitchenAid® Architect® Series II Slide-In Gas Range
- 4.1 cu. ft. oven capacity
- Even-Heat™ Gas True Convection System
- EasyConvect™ Time and Temperature Conversion System
- TripleTier® 600–15,000 BTU burner with InstaWok™ reversible grate
- 12,500 BTU Power™ burner
- Two 6,000 BTU Simmer burners
- Full-width cast-iron grates with sealed burners
- Self-cleaning system with soil level/time selection
- Warming Drawer
- White, Biscuit, Black, and Stainless Steel finish
- 30" width

Model shown: KGSS907SBL

KitchenAid® Architect® Series II Slide-In Gas Range
- Thermal oven, 4.1 cu. ft. capacity
- 14,000 BTU Ultra Power™ burner
- 12,500 BTU Power™ burner
- Two 6,000 BTU Simmer burners
- Enhanced broil element and full and center settings
- Full-width cast-iron grates with sealed burners
- Storage Drawer
- Variable time self-clean
- White, Black, and Stainless Steel finish
- 30" width

Model shown: KGSK901S

KitchenAid® Architect® Series II Slide-In Electric Range
- 4.1 cu. ft. oven capacity
- Even-Heat™ True Convection System
- EasyConvect™ Time and Temperature Conversion System
- Custom Control Temperature Management System
- 8"/7"/5" triple-ring round element, 8"/5" double-ring round element, 10"/6" double-ring oval element and 6" round element
- Self-cleaning system with soil level/time selection
- Warming Drawer
- Premium White, Premium Black, and Stainless Steel finish
- 30" width

Model shown: KESS908SSS

KitchenAid® Architect® Series II Slide-In Electric Range
- 4.1 cu. ft. oven capacity
- Even-Heat™ True Convection System
- EasyConvect™ Time and Temperature Conversion System
- Custom Control Temperature Management System
- Two 9"/5"double-ring round elements, one 10"/6" double-ring oval element, one 7" round element
- Self-cleaning system with soil level/time selection
- Warming Drawer
- White, Biscuit, Black, and Stainless Steel finish
- 30" width

Model shown: KESS907SSS

KitchenAid® Architect® Series II Slide-In Electric Range
- Thermal oven, 4.1 cu. ft. capacity
- 9"/5" Double-ring round element
- 8", 7" and 6" single elements
- Variable time self-cleaning systems
- Closed-door broil
- Storage Drawer
- White, Black, and Stainless Steel finish
- 30" width

Model shown: KESK901SBL

KitchenAid® Architect® Series II Freestanding Dual Fuel Range
- 4.1 cu. ft. oven capacity
- Even-Heat™ True Convection System
- EasyConvect™ Time and Temperature Conversion System
- Closed door convection broil with full and center setting
- TripleTier® 600–15,000 BTU burner with InstaWok™ reversible grate
- 12,500 BTU Power™ burner
- Two 6,000 BTU Simmer burners
- Full-width cast-iron grates with sealed burners
- Warming Drawer
- Stainless Steel finish
- 30" width

Model shown: KDRS807SSS

KitchenAid® Architect® Series II Freestanding Gas Range
- 4.1 cu. ft. oven capacity
- Even-Heat™ Gas True Convection System
- EasyConvect™ Time and Temperature Conversion System
- TripleTier® 600–15,000 BTU burner with InstaWok™ reversible grate
- 12,500 BTU Power™ burner
- Two 6,000 BTU Simmer burners

Dual Fuel Ranges with Steam-Assist

The Dual Fuel Convection Oven Range with Steam-Assist, which relies on the same steam technology used by professional chefs, is just one of the many thoughtful features that takes home cooking to the next level.

Steam-Assist technology enhances the flavor of everything your clients create and eliminates the need for manual water baths, spritzing and basting.

36" Dual Fuel Commercial-Style Range with Steam-Assist
- True Convection oven T.H.E.™ Convection Oven Element
- Convection plus Steam-Assist technology
- Balanced two-element baking and roasting
- Four 15,000 BTU professional burners, two 6,000 BTU Simmer burners, one 600 BTU simmer plate
- Porcelain-coated cast-iron grates

Model shown: KDRP767RSS

30" Dual Fuel Commercial-Style Range with Steam-Assist
- True Convection oven T.H.E.™ Convection Oven Element
- Convection plus Steam-Assist technology
- Balanced two-element baking and roasting
- Four 15,000 BTU professional burners, one 600 BTU simmer plate
- Porcelain-coated cast-iron grates

Model shown: KDRP707RSS

Ventilation
When a must-have must also be eye-catching.

Ventilation is a key component to any kitchen design. KitchenAid® offers several options in commercial-style hoods, including island-mount and wall-mount, to give you design flexibility. Over the range microwaves combine ventilation with microwave cooking to achieve a more efficient use of space.

Island-Mount Canopy Hood
- Slim canopy profile
- 600 CFM Pro Motor
- 4-speed electronic control with blue light
- 4 halogen cooktop lights
- Convertible to recirculating installations (optional recirculation kit is required)
- Chimney extension kit
- Seamless canopy design with beveled edges
- White (WH), Black (BL) or Stainless Steel (SS)
- 36" width

Model shown: KICU465S

Classic Commercial Style Hood
- Exhausts 1200 CFM with 3-1/4" x 10" rectangular duct
- 3-speed control
- Top or direct rear venting
- 4 halogen lights
- Stainless Steel (SS)
- 48" width

Model shown: KWCU380JSS

Also available: 42" width KWCU320JSS, 36" width KWCU360JSS, 30" width KWCU300LSS

Commercial-Style Under-the-Cabinet Hoods
- Exhausts 600 CFM with 6" round duct
- Top or direct rear venting
- 30" width

Model shown: KHTU105RSS

Also available: 36" width with 600 CFM KHTU165RSS

Commercial-Style Ventilator
- Internal blower
- 600 CFM
- Suitable for custom applications
- Can be vented or recirculating
- 36" width

Model shown: KHVU761RSS

Also available 48" width KHVU781R

Microwaves & Microwave/Hood

Wall-Mount Canopy Hood
- Slim canopy profile
- 600 CFM Pro Motor
- 4-speed electronic control with blue light
- 3 halogen cooktop lights
- Convertible to recirculating installations (optional recirculation kit is required)
- Chimney extension kit
- Seamless canopy design with beveled edges
- White (WH), Black (BL) or Stainless Steel (SS)
- 36", 30" widths

Model shown: KWCU465S

KitchenAid® Architect® Series II Under-The-Cabinet Hood
- Exhausts up to 600 CFM
- 3-speed ventilation control
- Top or direct rear venting with 6" round duct
- 2 halogen lights
- Convertible to recirculating installations (optional recirculation kit is required)
- Heavy-duty dishwasher safe grease filters
- Stainless Steel finish
- Optional Interchangeable color front trim (White, Biscuit, and Black)

Model shown: KHTU705SSS

Also available: 36" width KHTU765SSS
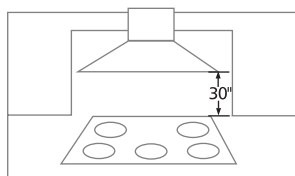

Design consideration
Hoods must be installed no higher than 30" above the cooking surface. Recommend using a ventilation system with a minimum of 600 CFMs over Classic Commercial or Professional cooktops.

KitchenAid® Architect® Series II Microwave Hood Combination Oven
- Convection Cooking
- TruCapture® Ventilation System
- Exhausts 300 CMF
- 1200 watts microwave power
- 2.0 cu. ft. oven capacity
- Soften and melt cycles
- Auto cook, auto reheat, and auto defrost functions
- Menu-driven LCD display with sleek, glass display
- Convertible for direct exterior venting
- 30" width
- Stainless Steel (SS)

Model shown: KHHC2090SSS

KitchenAid® Architect® Series II Microwave Hood Combination Oven
- Optimawave™ Technology with true 10-level power control
- TruCapture™ Ventilation System
- Exhausts 300 CMF
- 1200 watts microwave power
- 2.0 cu. ft. oven capacity
- Soften and melt cycles
- Auto cook, auto reheat and auto defrost cycles
- Two halogen cooktop lights, halogen interior light
- Convertible for direct exterior venting
- 36", 30" widths
- White,* Biscuit, Black,* and Stainless Steel*
* 36" model only

Model shown: KHMS2050S

KitchenAid® Architect® Series II Microwave Hood Combination Oven
- 1.8 cu. ft. capacity
- 1000 watts microwave power
- 4-speed fan exhausts 200 CFM
- 30" width
- White (WH), Black (BL), and Stainless Steel (SS)

Model shown: KHMS1850S

Countertop Microwave Oven
- 1.5 cu. ft. capacity
- 1200 watts
- Multiple sensor cycles including cook, reheat and popcorn
- 22" width
- Trim kit available for built-in installation
- White (WH), Black (BL), and Stainless Steel (SS)

Model shown: KCMS1555RSS

Built-In Refrigerators
An integration of beauty, function and freedom.

KitchenAid® Built-in Refrigerators offer more of what your clients are looking for. For instance, the 42" Built-In French Door Bottom Freezer Refrigerator provides exceptional refrigeration room without taking up additional cabinet space. Its narrow door swing creates smooth traffic flow in the kitchen, particularly in those with an island. Other highlights of the KitchenAid® Built-in Refrigeration include our AquaSense™ In-Door-Ice® ice dispensing system that places the ice bucket in the freezer door, generating more usable capacity (Available in the Built-in Dispensing Side-By-Side Refrigerator).

Built-In French Door Bottom Freezer
- 22.6 cu. ft. capacity
- Widest refrigerated space available
- Extend Fresh™ Plus Temperature Management System
- 42" width
- Stainless Steel (S) and Overlay models available

Model shown: KBFC42FTS

Built-In Dispensing Side-by-Side
- 29.7 cu. ft. capacity
- Extend Fresh™ Plus Temperature Management System
- AquaSense™ In-Door-Ice® Ice Dispensing System
- ENERGY STAR® qualified
- 36", 42" and 48" widths
- Stainless Steel (S) and Overlay models available

Model shown: KSSC42QT

Built-In Non-Dispensing Side-by-Side
- 29.8 cu. ft. capacity
- Extend Fresh™ Plus Temperature Management System
- AquaSense™ Base-Grille Filtration System
- ENERGY STAR® qualified
- 36", 42" and 48" widths
- Stainless Steel (S) and Overlay models available

Model shown: KSSC42FT

Built-In Bottom Freezer
- 20.5 cu. ft. capacity
- Extend Fresh™ Plus Temperature Management System
- Left and right door hinge options
- ENERGY STAR® qualified
- 36" width

Model shown: KBRC36FT

ENERGY STAR® is a U.S. Registered Mark.

Freestanding Refrigerators
Form. Function. And efficiency.

KitchenAid® offers an exciting line of freestanding refrigerators for your kitchen designs—all of which are ENERGY STAR® qualified. Choose from 24" deep counter-depth (flush-to-cabinet) models, as well as standard size top- and bottom-freezer and side-by-side models. New Architect® Series II refrigerators provide easily adjustable shelves for large or uniquely shaped items, like hors d'oeuvre platters. These new models also feature the ExtendFresh™ temperature management system to maintain the taste and texture of cooking ingredients.
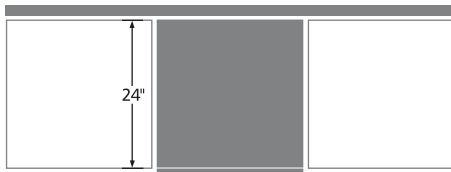

Aside from the door, counter depth refrigerators are 24" deep so they are ideal for those clients who aspire to a built-in look but prefer a price that's closer to a freestanding refrigerator.

Interior water dispenser.

Architect® Series II Dispensing Counter-Depth Side-By-Side
• 25 cu. ft. and 23 cu. ft. available
• Advanced Electronic Through-the-Door Ice & Water Dispenser
• AquaSense™ Base-Grille Filtration System
• Flat, Smooth Doors
• 36" width
• ENERGY STAR® Qualified
• White (WH), Biscuit (BT), Black (BL), Stainless Steel (SS) or Monochromatic Stainless Steel

Model shown: KSCS25FTSS

Architect® Series II French Door Bottom Freezer Counter-Depth
• 20 cu. ft. capacity
• Interior Water Dispenser
• Fresh Chill™ Temperature Management System
• Flat, Smooth Doors
• 36" width
• ENERGY STAR® Qualified
• White (WH), Black (BL) or Stainless Steel (SS)

Model shown: KBFL25ETSS

ENERGY STAR® is a U.S. Registered Mark.

Dishwashers & Trash Compactors
The hardest working dishwashers.

With our Architect® Series II dishwashers, you can spec the quietest, hardest working dishwashers KitchenAid has ever built. A built-in disposer grinds up food particles and removes them eliminating the need for filter maintenance. Four stainless steel spray arms maximize water coverage to every item. Whisper Quiet sound insulation allows your clients to enjoy laughter and conversation while their dishwasher does its job. Plus, all of our standard-size and drawer dishwashers are ENERGY STAR® qualified.

briva® in-sink dishwasher

The stainless steel briva® in-sink dishwasher offers your clients a dishwasher option for a space-constrained, metropolitan or condominium installation. They can use it as a dishwasher, fully functional double sink, or as food prep area with a cutting board placed on top. It's a great addition to any kitchen design, and because there's no bending to load or unload, it meets ADA requirements, too.

briva® IN-SINK DISHWASHER
- For base cabinet installation, minimum 36" width required
- Direct-feed wash system
- 4 cycle solution
- Sani Rinse option
- FlashDry® instant drying
- Fully-functional as a double sink
- Can place the cutting board on top for a food prep area
- Ideal for small kitchens or for second dishwasher
- Stainless Steel
- Accessory water heater available
- 36" and 42" widths

Model shown: KIDS42EPSS

Closed position for maximum counter and food preparation area.
