

Detail & Submittal Sheet

DC Steel Defibrillator Cabinet Non Rated choice of surface mount, semi-recessed or recessed models. Cabinets have continuous hinge, roller catch, and chrome handle. Tank is 20 ga. steel. Stainless steel is a #4 polished finish. Semi-recessed and recessed cabinets are ADA compliant. Cabinets can be ordered without alarm, or you can add a strobe with the alarm. All MMP alarmed AED cabinets feature the most versatile alarm in the industry. Cabinet alarm system's plastic housing is secured within the AED cabinet with two push on hex nuts. This allows the alarm to be secured to the cabinet and easily removable to change batteries or adjust settings.

Project: _____
