

CERTIFIED FSC® RECYCLED 100% TEAK FLOORING

## ROYAL WOOD

With natural beauty, durability and strength, Teak has the distinction of being revered as the “royal” wood. IndoTeak’s reclaimed teak (*Tectona grandis*) is the highest quality and greenest floor on the market. Reclaimed by hand from historic buildings slated for demolition throughout Indonesia and then handcrafted from the 100% reclaimed teak, our tightly controlled process is third-party certified to Forest Stewardship Council (FSC®) standards. IndoTeak strives to achieve a nearly zero-waste operation by utilizing nearly every part of its precious reclaimed harvest for the production of our engineered floors. We don’t cut living trees, preserving our natural forests for future generations.

Our hand-selected historic reclaimed teak displays beauty, magic and a rich history in each unique piece. Stunning color variations from warm honey to rich mocha are the result of natural forest growth and decades of air drying.

IndoTeak engineered floors have remarkable stability due to the unique all teak construction and the long seasoning time. The dense grain and rich natural oils of our reclaimed teak ensure a floor that will remain beautiful for generations.

## ENGINEERED RECLAIMED TEAK FLOOR

IndoTeak engineered floors are composed entirely of the highest quality reclaimed teak. We utilize every part of the teak we reclaim, incorporating smaller pieces into the substrate of our engineered flooring. All three layers of IndoTeak engineered floors are 100% reclaimed teak, which means we have almost zero wood waste. Floors are T&G, end matched, and have a substantial wear layer for enduring value. Available in several dimensions and a variety of textures and finishes.

## SOLID RECLAIMED TEAK FLOOR

Durable and timeless, solid teak flooring is recognized for its beauty, rich grain, and stability. Highly prized and limited in availability, our solid teak floors are salvaged from the beams and posts of historic buildings slated for demolition and are made entirely of FSC® Recycled 100% Teak.

The mark of  
responsible forestry

## INDOTEAK

INDOTEAK CAN PRODUCE  
CUSTOM DIMENSIONS  
OF WIDTH AND LENGTH  
IN BOTH SOLID AND  
ENGINEERED FLOORS  
TO MEET YOUR PROJECT  
SPECIFICATION.

## UNFINISHED | ENGINEERED

### SMOOTH

Precision milled and smooth sanded with a square edge face, to showcase the subtle beauty of the wood grain. Ready for installation and site sanding and finishing. Available sizes:

**9/16" x 3 1/2" • 9/16" x 5 1/4" • nested bundles • lengths 2' - 7'**  
**3/4" x 7" • random length bundles • lengths 2 1/2' - 8'**  
**3/4" x 10" • random length bundles • lengths 3 1/2' - 8'**

### WIRE BRUSHED

IndoTeak wirebrush texturing naturally removes the softest parts of the hardwood, aging the appearance and leaving a naturally distressed and incredibly durable surface. Available sizes:

**9/16" x 3 1/2" • 9/16" x 5 1/4" • nested bundles • lengths 2' - 7'**  
**3/4" x 7" • random length bundles • lengths 2 1/2' - 8'**  
**3/4" x 10" • random length bundles • lengths 3 1/2' - 8'**

### NATURAL PATINA

Our exclusive flooring offers the authentic beauty of 18th and 19th century planks reclaimed into the most unique engineered flooring on the market. With an incredibly durable surface from years of weathering, natural patina is available unfinished or prefinished. Available sizes:

**3/4" x 8" • random length bundles • lengths 2' - 7'**

## UNFINISHED | SOLID

### SOLID

Traditional solid teak flooring is the ultimate specification for enduring value. Our appealing classic teak floors are milled from certified FSC® Recycled 100% Teak to exacting industry standards for nail down installation and site finishing. Available sizes:

**3/4" x 5 1/4" • random length bundles • lengths 2' - 7'**

DOORS • FURNITURE**

Limited only by your imagination, IndoTeak manufactures custom products made of 100% reclaimed teak to your specification for both residential and commercial applications.

## SOURCE

Reclaimed teak from structures slated for demolition throughout Indonesia

## SPECIES

Tectona grandis

## JANKA

Teak 1078

Reclaimed teak is sourced from decades old structures originally built with dense grain, old growth wood and naturally exhibits exceptional strength and durability.

## MOISTURE CONTENT

8-10%

## GRADE

Certified FSC® Recycled 100% Teak.  
Colors range from warm honey to rich golden brown. Natural features of age, nails holes etc. are inherent in the floor.

## INSTALLATION

IndoTeak flooring is a quality flooring product. For best results install following the NWFA guidelines. Installation by a professional wood flooring contractor is recommended. Engineered flooring may be glued, nailed or floated over an approved subfloor in accordance with our instructions. Solid flooring must be nailed to a wood subfloor.

## WARRANTY

IndoTeak engineered flooring is warranted against defects in lamination, milling and assembly for 25 years, provided it is installed and maintained in accordance with our instructions. Please see our IndoTeak Limited Warranty for specifics, including our replacement and refund policy.

## DISCLAIMER

The photos pictured in this brochure are representative of the flooring color and grade. As with any natural product this can vary.
