Indoor/Outdoor
Modular Solution
for Commercial
Applications

# THEULTIMATE FLOOD

flood light that makes all others quiver, the Vega TM can replace 1000W MH with a breeze. Attached to a sturdy trunnion bracket, put the light where you need it most utilizing our multiple optics lens including Asymmetric and

Symmetric. From 30W to 300W CREE LED power, the Vega TM floods brighter than the rest.

#### Vega TM Series Features:

The Vega Modular LED Lens System features a durable and abrasion resistent polycarbonate lens housed within a modular design. With a high color rendering index of 75 or greater, all original colors are realized. Vega fixtures demonstrate first class quality within a beautiful, modern appearance. They are national listing lab tested with LM-79 reports to IESNA standards.

Designed with a purpose, the Vega features unprecedented lighting-class brightness, efficacy, lifetime and quality of light. These lighting-class features enable the XPG LED to replace many traditional light sources and save money with energy-efficient light and long lifetimes. Cree's advantage is in the materials they use. CREE® LEDS combine highly efficient InGaN materials with proprietary G•SIC® substrates to deliver superior price/performance for high-intensity LEDS. Typical features of CREE® LEDS include a single wire-bond connection, low forward voltage, exceptional thinness, low heat generation, high electrostatic discharge (ESD) tolerance/ resistance and long life. This, coupled with a high performance power supply and extremely durable housing, puts the Vega at the top of its class.

Conforming to ISO9001:2000 Quality Management System, the Vega Area Light products maintain CE, RoHs, UL and cUL Certifications. Utilizing CREE LEDS, Philips drivers, and a frame built to withstand extreme weather, you will be confident with your purchase for years to come. Start saving up to 80% system energy over your existing HID fixture. Utilize Vega's dimming capabilities for even greater results. The Vega shines bright above the rest.

#### Housing & Finish:

- Patented modular structure to realize power serialization by changing module quantity
- · Aerodynamic styling
- · Separable installation method
- Complies with Dark Sky requirements when mounted horizontally to the ground
- Heavy grade die-cast aluminum alloy construction built for extreme weather and durability
- Corrosion resistant polyester powder coat finish with 70-90 micrometer thickness
- · Available in standard and custom housing colors
- Easy access power door assembly for quick installation and maintenance
- Open air modular heatsink ventilation design for best possible heat dissipation and optimum efficiency
- High shock and vibration resistance approved 2G vibration test IEC 60598-1
- · Flexible drive allocation options for different regions
- Spaces between modules prevent debris build-up by water-flow self-cleaning

#### LED & Lens Assembly:

- High efficacy CREE XPG LEDS >85 Lm/W
- · Glare reducing optical lens design
- Precise, non-image optics system, improves lumen output ratio with uniform distribution
- Lens reflector built directly over the LEDS for accurate beam angle and photometrics
- Durable and abrasion resistant polycarbonate lens with modular design
- · Instant on or off without delay or re-strike
- High CRI RA>75 enhances original colors
- · Contains no Mercury or Lead
- No infrared or UV radiation resulting in insect reduction
- National listing lab tested with LM-79 reports to IESNA standards
- · Lumen depreciation is L70 at 60,500 hours

#### TM Mounting:

- · Heavy duty trunnion bracket, base rotatable
- · Stainless steel, SAE, heavy gauge adjusting screws
- · Available in many different IES lens types
- Dimming and electrical cable included, pre-wired, extended outside the unit for quick installation
- · Terminal block and guick wire disconnects pre-wired
- · External motion sensor and photocell capable

#### Certifications & Warranty:

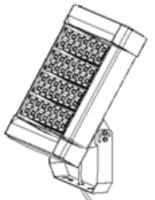

- · CE, UL, cUL, suitable for wet locations per UL 1598
- All components are IP66 rated according to IEC60598
- · RoHS compliant
- · Operating temperature: -40 to 55 C
- Operating humidity: 10% to 95%
- 5 year limited system warranty

#### Electrical:

- Philips Advance Xitanium Class I dimmable drivers for ultimate quality and long life
- Optimized life expectancy of driver is 50,000 hours
- 0-10V and programmable dimming options with a network-ready DALI interface. Zigbee capable
- Lead-wires are 18AWG 105C/600V solid copper
- Voltage ranges from 100-277 VAC, 347-480 VAC, 12 VDC and 24 VDC for solar
- · Class "A" sound rating
- Max surge protection of 10kv. IEEE/ANSE C62412
- System power factor is >99% and THD <20%</li>
- Thermal protection reduces the LED output if case temperature exceeds 185 degrees fahrenheit
- EMI/RFI: Title 47 CFR part 15 Class A
- LED driver complies with UL standard UL1012

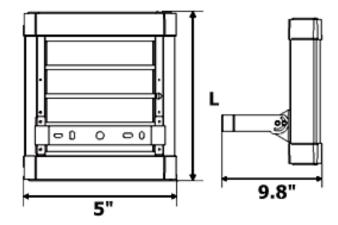

#### **Available Models:**

- VVDTM014: 6.6" (L) 10.8 lbs
- VVDTM028: 9.2" (L) 12.3 lbs
- VVDTM042: 11.8 (L) 13.8 lbs
- VVDTM056: 14.3" (L) 15.5 lbs
- VVDTM070: 16.8" (L) 16.8 lbs
- VVDTM076: 10:0 (E) = 10:0 lbs
   VVDTM084: 19.2" (L) 20.4 lbs
- VVDTM098: 21.7" (L) 21.8 Lbs
- VVDTM112: 24.1" (L) 23.4 Lbs
- VVDTM126: 26.5" (L) 25.6 Lbs
- VVDTM40: 28.9" (L) 30.2 Lbs

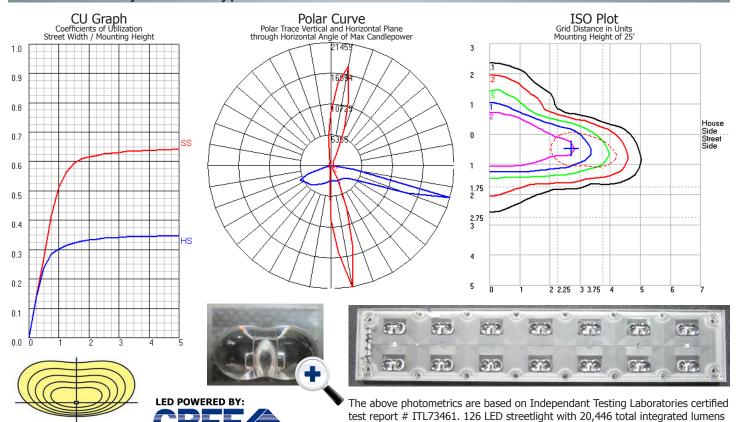

The Vega TM illuminates a stadium ceiling producing amazing indirect light.
