

AMERICAN SEATING

A History of Innovative > SOLUTIONS

For over 120 years, American Seating has set the standard for innovation. Whatever the venue, American Seating is a crowd pleaser. From office and classroom seating to professional sports stadiums and performing arts centers, we have proven solutions that provide quality, longevity and a great return on investment.

Stellar® offers the ultimate in flexibility for style and function. A variety of backstyles, from a contemporary round back to a traditional square profile, can be combined with an array of components from end standards and armrest choices, to fabrics

and finishes. It is available in five distinctive styles. By choosing from a variety of seats, backs, aisle treatments, armrests and options, architects and designers can create the ideal seating solution for virtually any installation.

Stellar Plastic Back
Plastic outer-back panel offers a slim profile and malleable strength. Models 220, 224, 224 Outdoor

Stellar Upholstered Back
Padded upholstered outer back for comfort and good looks. Model 217

Stellar Wood Back
Wood outer-back panel provides a rich, warm and elegant look. Models 216, 226, 270, 280, 286

Stellar Classic
Styling reminiscent of a bygone era. Models 206VR, 206

Stellar Planetarium
Headrest and elongated back for optimal celestial viewing. Models 306, 306A, 306B

***Stellar** is available with two tablet arm sizes.

Stellar® Plastic and Upholstered

Stellar establishes a unique fixed seating solution for auditoriums, theatres, fixed lecture environments, and sports venues.

Stellar offers a wide range of functions for any environment,

with styles choices from simple to elegant. The plastic outer-back provides added durability and a slim-line profile that is ideal for performing arts centers, fixed lecture halls and sporting venues.

Stellar 220
The back of the **Stellar 220** consists of 1¼" or 2" polyurethane foam over a compound-curved, steel inner panel. Shaped for comfort and full back support, it is ideal for many applications.

Stellar 224
The same features found in the **Stellar 220**, but offers a back that is 2" higher for increased comfort and support.

Stellar 220/224 Outdoor
The same features found in the **Stellar 220/224**, with e-coated metal parts and marine-grade vinyl upholstery for exceptional durability under all types of weather. The 224 also offers a back that is 2" higher for increased comfort and support. Special stitching is added to keep foam dry.

Stellar 230
The 230 incorporates the high rounded back of the **Spirit**® for an additional aesthetic choice. Constructed with high durability plastic inner-outer back.

Stellar 217
Offers a padded upholstered outer back. All fasteners are concealed for a clean appearance. Contour-cut dual-density foam padding provides a firm yet supportive solution. The plastic outer-back provides added durability and a slim-line profile that is ideal for performing arts centers, fixed lecture halls and sporting venues.

Stellar® Wood Back

Stellar's wood back enhances any venue with its natural elegance. Create a soft, welcoming space with one of these options. This seating solution is ideal

for auditoriums, arenas and suites in the education, sports, performing arts, and places of worship.

Stellar 216
Features a crisp, rectilinear wood outer back that provides a smooth, horizontal plane, and the appearance of one, continuous row of seating.

Stellar 226
Provides added support through its dual density foam along the top of the chair back. Foam is also shaped to provide lumbar support.

Stellar 270
Offers a 32" high tapered-profile back. The chair back is richly upholstered with 2" of polyurethane foam featuring a contemporary horizontal design line.

Stellar 280
Features a smooth, contoured radius that repeats softly along each row for a distinctive and sophisticated aesthetic. Concealed fasteners attach the 18" radius wood back panel enhancing the chair's elegance.

Stellar 286
Designed to add ambience to auditoriums, performing art centers and luxury suites. Available in a choice of a 2" or 3" thick back foam with a rounded appearance on a 34" radius wood back.

Stellar® Classics

Recapture the glory days of the silent movie era with a style that speaks volumes. The **Stellar** 206, 206VR (Victorian Style) and the **Majestic™** offer elegant

upholstery options and ornate aisle treatments to match any turn of the century décor. The contoured wood back with upholstered insert back panel provides 21st century comfort.

Stellar 206
Early 1900 design elements include ornate aisle treatments, contoured wood backs and elegant upholstery.

Stellar 206VR
Features a rich wood contoured Victorian reveal with an upholstered insert panel.

Majestic
Majestic is a reflection of original historical theatre chairs from the 1920's. Designed with graceful curves, plush upholstery, and fine craftsmanship.

Spirit®

Spirit is engineered for comfort and durability with a wide range of style options for theaters, sports and education venues.

A range of finishes, fabrics and accessories allow **Spirit** to be custom styled for any venue.

Spirit Plastic Back
An economical solution that emphasizes style and comfort.

Spirit Wood Back
Elegant styling with a selection of rich wood finishes.

Spirit Outdoor
Marine grade vinyl and E-coating withstand weather and maintain chair's appearance.

***Spirit** is available with two tablet arm sizes.

Features and Options

Spirit's® beauty is more than skin deep. Beneath **Spirit's** softly curved surface are sturdy, honeycombed seat and back panels that offer superior strength. Thick, molded foam reflects the graceful contours of the seat and back to maximize comfort, while cast iron standards ensure a solid foundation. This combination of intelligent engineering and advanced materials delivers a seat that is comfortable, cost effective, virtually maintenance free and built to last.

Three-dimensional, contoured inner back provides back comfort and ergonomic support

Wrap-around hard surface protects upholstery

Contour-molded seat and back foam provide enhanced lumbar support and comfort

Spirit's engineered copolymer surfaces are easy to clean

Lower back flexes to absorb foot pressure and abuse

Cast iron standards dampen vibration

Spirit can manage curved rows down to a 10' radius

Back angle can be fixed at 13° to 21° low, 16° to 24° high, and synchronizes with seat, keeping the user in an optimum ergonomic position

Two back heights, 33½" and 35½", provide alternatives for general and luxury seating

Reinforced engineered copolymer seat and back inner structure adds strength and durability

Spherical bearings compensate for irregularities in floors and risers

Available for both floor and riser mount applications

Six chair widths from 19" to 24" offer application versatility

Powder coated cast iron armrests are integrated into the standards for a cost-effective and durable solution.

Row identification plates are either inset to end standard or applied to aisle end treatments.

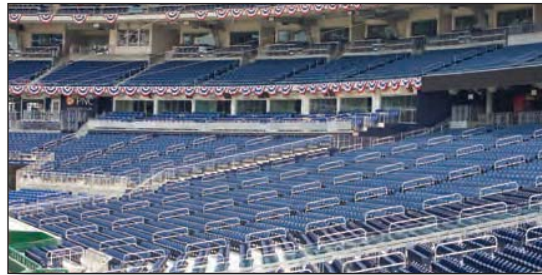

End standard aisle lights direct soft glow downward for aesthetics and safety.

Spirit seats align with the end standard when in the full-fold vertical position.

Sports Seating

American Seating sets the standard for quality sports seating solutions. Since 1912, with the first installation at Boston's Fenway Park, American Seating's presence

has expanded with installations in over half of all major league baseball parks, and a multitude of other sports venues.

406

A stadium or arena chair that sets the standard for comfort, durability and value.

- Full back 30" high; 18" to 22" wide
- Optional padded seat and back onsets
- Riser or floor mount

408

An ergonomic stadium or arena chair that allows for custom-molded logo application, providing a unique look for any venue.

- 32" high; 18" to 22" wide
- Optional padded seat and back onsets
- Full back available with custom-molded logo designs
- Riser or floor mount

505

Traditional three-slat design evokes the nostalgia of turn-of-the-century ballpark seating.

- Three slat-back design
- 30" high; 18" to 22" wide
- Optional padded seat insert
- Available as Visually Redirected Seating
- Riser or floor mount

507

A distinctive ballpark style featuring a four-slat high-back design for a classic look.

- Four slat-back design
- Two back shapes available
- 32" high; 18" to 22" wide
- Extra back support to maximize comfort
- Optional padded onsets
- Available as Visually Redirected Seating
- Riser or floor mount
- Two seat tag options

Custom Comfort Solutions

For your general, club and suite seating needs, all of our sports seating solutions can be matched up with luxurious seat options from our **Spirit**® and **Stellar**® lines.

Choose from one of our four back styles and pair it with your choice of the **Stellar** or **Spirit** seat for a more comfortable, padded premium seating section.

Premium Seating Solutions

For your general, club and suite seating needs, American Seating has luxurious, outdoor seating options that can be customized with end standards, cupholders,

logos and colors to match your organization's personality. This seating is designed to withstand the elements as well as look fantastic and be comfortable.

Spirit®
Contour-molded foam seat and back cushions enhance the styling and superior comfort of *Spirit*, creating a contemporary solution for outdoor club and suite seating.

- Upholstered weather-resistant suite chair
- E-coated cast iron and steel parts
- Marine-grade vinyl upholstery
- Riser or floor mount
- Non-corrosive hardware
- Copolymer seat and back

Stellar®
Classic styling and comfort, outfitted with weather-resistant materials, provide the ideal solution for outdoor club and suite seating.

- Upholstered, weather-resistant suite chair
- E-coated cast iron and steel parts
- Marine-grade vinyl upholstery
- Riser or floor mount
- Non-corrosive hardware

Suite Seating

American Seating offers distinctive and upscale aesthetics that are ideally suited for fixed sports suite seating applications.

Sovereign™ has supreme ergonomics that offer exceptional support and comfort. It can be tailored to your specific needs – whether indoor or outdoor. Enhance your suite and club areas with a variety of finish and upholstery needs.

Avant™ is ergonomically-sculpted to provide maximum comfort, even during extended performances.

Slim Profile & Pedestal Seating

The ergonomic **Dimension**[®] chair provides solutions that allow for more clearance space and increased accessibility behind

unoccupied seats; an ideal product for environments that desire greater seating capacity within limited space.

Dimension 674
Double-wall molded plastic seats and backs.

Dimension 675
Doubled-wall plastic seat and back shells with padded fabric seat and back inserts.

Dimension 677
Fully upholstered seats and backs.

workz[™]
When mounted on a fixed swivel base, the **workz** chair provides 360° movement with a self-centering feature that keeps all chairs facing forward when unoccupied.

Acton[®]
When mounted on a fixed swivel base, the **Acton** chair provides 360° movement with a self-centering feature that keeps all chairs facing forward when unoccupied.

Fixed Seating

Focus™ fixed lecture is engineered to provide comfort and durability in the classroom. These innovative solutions offer a range of aesthetic choices, including contemporary or traditional work surfaces, and three chair models that return

to center and height-adjust to maintain level rows. The variety of options offer flexibility for different teaching styles, and accommodate technology for up-to-date classrooms.

Focus Acton® Swing-Away integrates award-winning design and an ergonomic solution for active classrooms. It combines a contemporary aesthetic with rugged durability.

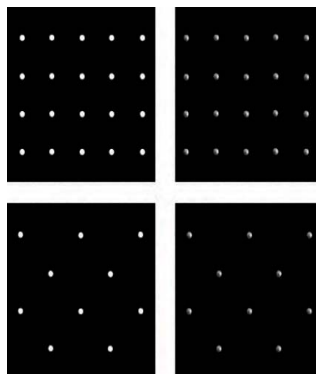

Focus Cachet® Swing-Away is a popular solution for today's classrooms. The slotted chair, with ergonomic curves is a comfortable fit for a variety of learning environments.

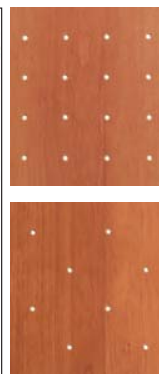

Focus workz™ Swing-Away offers an upscale and unique look for learning environments. The distinctive square back design features a mesh back for comfort and style.

Options

Contemporary offering

Ideal for a progressive high-tech environment, the contemporary fixed lecture solution is designed with ten table-top edge options, a metal privacy screen and a modesty panel that is finished with straight or staggered patterns. The aesthetic details range from holes, to raised or dimpled circular impressions.

Traditional offering

This high-end fixed lecture solution features a wood veneer or laminate modesty panel, ten table-top wood edge options, a solid wood privacy screen and a wood wrap-around aisle end treatment. Laminated, semi-perforated modesty panels are offered in straight or staggered patterns.

Table Solutions

Focus™ Fixed Table Solutions are ideal for lecture halls, computer labs or small classroom environments.

Sled or caster-based seating can be used. Table height is A.D.A. compliant.

Modular power and data system

Our technology solutions offer an easy access, 2 circuit/4 wire electrical system and data routing with port adaptor kit. This system interface is conveniently housed just below the front edge of the work surface and next to the user. Horizontal and vertical wires are safely and neatly contained below the work surface.

American Seating has been committed to environmental stewardship for years, and has taken a proactive approach to minimize our environmental impact. We arm all of our employees with the knowledge and tools to reuse, reduce and recycle. We also constantly examine new ways to implement the latest methodologies that will help us care for our planet from our own front yard.

Since 1886, American Seating has set the standard for product design, durability and comfort. Today, we remain committed to exceeding the expectations of our customers. Our achievements serve as the platform for new and innovative products that continue to be the benchmark of our industry.
