

pinnacle plus basemates

PINNACLE PLUS

The architectural lines of Pinnacle PLUS reveal Roppe's keen attention to detail. Formulated with all of the same features and benefits that make Pinnacle Rubber Base the professional's choice, Pinnacle PLUS gives the industry unique profiles and new options in design.

BASEMATES

Make ordinary wall base, extraordinary! Roppe's new patent-pending wall base system allows you to create your own designs using as few or as many of the 15 components as you choose, or simply extend the life of existing wall base by adding a top trim to hide unsightly paint lines.

RUBBER BASE: PINNACLE | ALPHABASE

VINYL BASE: VISUELLÉ | 700 SERIES | VINYL BASE

| RUBBER WALL BASE |

PINNACLE RUBBER BASE

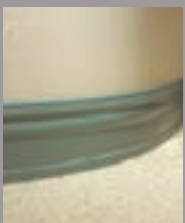

Pinnacle is the professional's choice, because this 100% rubber base is highly durable and extremely flexible, allowing for easy installation around columns, corners and architectural curves.

ALPHABASE

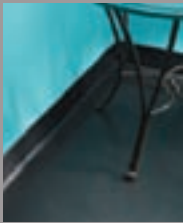

Ideal for safety applications, such as hallways and stairwells – anywhere clearly marked signage is a necessity – AlphaBase is an ideal choice for schools, hospitals, dorms and public buildings. Safety signage is standard, but custom signage is also available.

| VINYL WALL BASE |

VISUELLÉ

Visuellé Wall Base Solutions System includes two corner options to eliminate time wasted at the job site making challenging cuts on corners, plus two heights of the same popular design to complement any space.

700 SERIES

Easier to work with and providing more flexibility than vinyl base products, Roppe's unique blend of thermoplastic rubber and vinyl makes the 700 Series an attractive and economical choice for a variety of applications.

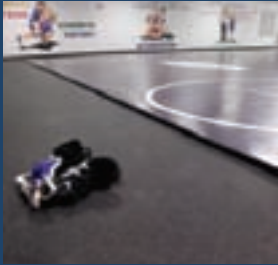

VINYL

Roppe's Type TV thermoplastic vinyl base. It's extremely durable without sacrificing attractiveness, and very economical because it's made from PVC vinyl.

specialty flooring

RECOIL | ROP-CORD | SPIKE SKATE | METAL TREAD

RECOIL

Multi-functional rubber flooring designed for use in residential, commercial or industrial applications where added comfort under foot is needed.

ROP-CORD

With a built-in anti-slip feature, Rop-Cord is practical for a variety of areas, including damp or wet spaces, ramps, walk-off mats, concourses and foyers.

SPIKE SKATE

An ideal flooring for sporting and recreational areas, that stands up to wear and heavy use. Use it anywhere damage from skates, spikes or cleats is a concern.

METAL STAIR TREADS

Constructed of heat-treated exterior-grade aluminum (6063T3), Roppe Metal Stair Treads are ideal for installation over both commercial and residential steps and landings.

RUBBER: RAISED DESIGN TREADS | SPECIALTY RUBBER TREADS | VINYL: VINYL TREADS

RUBBER TREADS

Our line of PVC free rubber stair treads is the perfect complement to flooring projects in shopping malls, retail settings, government centers, hospitals and airports. Most styles offer ADA nose-compliant features. Better yet, they coordinate with our other tile designs and colors.

VINYL TREADS

Our new vinyl stair tread designs combine the best of two worlds – affordability and durability – without sacrificing the good looks and quality you’ve come to expect from Roppe products. With many colors and designer styles to pick from, you’ll find the perfect complement for your stair tread project.

| RUBBER AND VINYL RISERS |

Risers cover the rear edge of tread to eliminate labor-intensive hand trimming. They are sized to fit most stair risers, but can be trimmed to fit any height (7" or less) or length.

| RUBBER LANDING MATS/TILES |

Note: Rubber warning tiles also can be used to alert the visually impaired to approaching stairways. Size: 1/8" gauge, 12" x 12". In addition, all Roppe tiles can be used on landings.

| RUBBER AND VINYL STRINGERS |

Stringers are available in 10" vinyl or 10" and 12" rubber, and in all of the colors in coordinating tread lines at a Single Price Point.

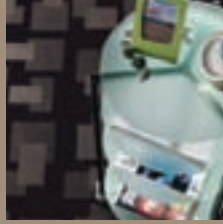

rubber tile

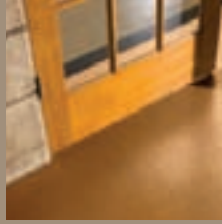

RAISED DESIGN | DIMENSIONS

983 | dimensions | stripe

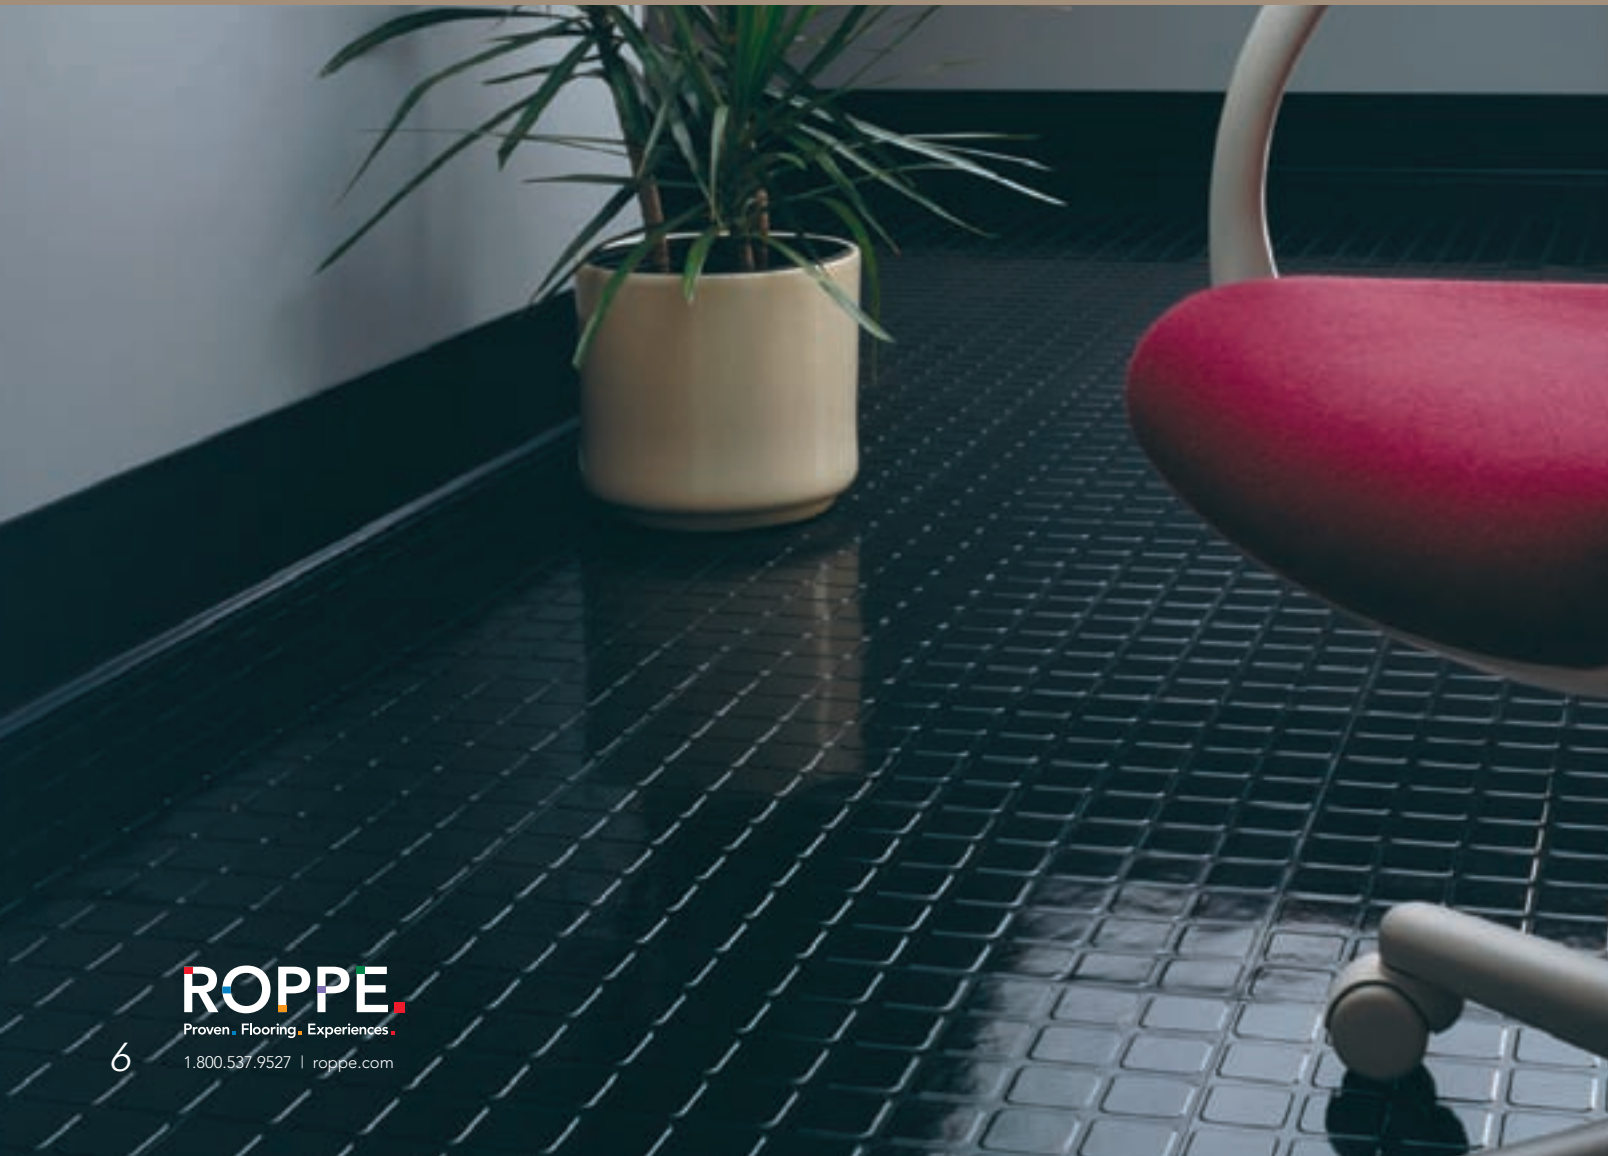

984 | dimensions | random

982 | dimensions | crackle

All Roppe rubber tiles combine functionality and good looks. It's naturally slip resistant and provides outstanding underfoot comfort and noise reduction. Better yet, it's easy to install and maintain. Plus, it's PVC free.

safeTcork tile & tread

SAFETCORK RUBBER TILE | SAFETCORK RUBBER TREAD | SAFETCORK VINYL TILE

SAFETCORK VINYL TILE

Durable, versatile and easy to maintain, SafeTcork Vinyl Tile offers the added benefit of increased slip resistance and the aesthetic appeal of a cork infused vinyl tile product! Colorful and stylish, SafeTcork Vinyl Tile is great for installations that require minimal maintenance requirements as it easily buffs to a shine with no finishes required.

The natural slip resistance of rubber combined with cork – a renewable resource – makes it an ideal choice for education settings, churches, assisted living facilities and multipurpose rooms.

technical specs adhesives

special safety applications and code compliance

Roppe products meet today's stringent code requirements. Look for these symbols throughout this brochure for product compliance information.

earning LEED® credits

LEED is the cutting-edge system for certifying the world's greenest buildings. EcoEffects™ brand products can contribute to certification credits for three LEED programs: NC (new construction), EB (existing buildings) and CI (commercial interiors).

the collaborative for high performance schools

The Collaborative for High Performance Schools (CHPS) believes that healthy, energy-efficient learning environments promote positive educational experiences. Because Roppe shares this philosophy, we've become a participating member in the CHPS program, submitting our product line for emissions testing in accordance with their guidelines.

roppe adhesives

No matter what the application, we have an adhesive right for the job, each specially formulated to be used with Roppe flooring products. In fact, our adhesives must be used for Roppe warranties to apply.
