

SWFcontract™

SWFCONTRACT CORDLESS PRODUCTS

Cordless blinds and shades from SWFcontract feature an internal lift system that eliminates exposed lift cords and cord loops. The innovative cordless design offers a clean, sleek esthetic while providing a high quality product that exceeds current safety standards for the workplace.

The cordless blind is operated by gently raising and lowering a hand grip positioned on the bottomrail. SWFcontract offers the manual cordless system as an option on a wide variety of window treatments. Additionally, many products are available with optional motorization.

- Aluminum blinds
- Vertical blinds
- Roman shades
- Wood, Composite and Faux Wood blinds
- Cellular and pleated shades
- Solar shades

SWFcontract offers Wood and Faux Shutters and Sliding Panels that are manually operated without the need for cords.

SWFCONTRACT CORDLESS PRODUCTS

Cordless window treatments provide a clean, sleek appearance that is ideally suited to modern interiors. They also promote safety in the workplace, eliminating exposed lift cords and cord loops.

Cordless window coverings are particularly well-suited to facilities where safety of occupants or the public is a concern, such as:

- Schools
- Child care centers
- Community centers
- Medical facilities
- Elder care facilities
- Restaurants
- Performing arts centers
- Museums/attractions
