# GAFGLAS® ENERGYCAP™ BUR MINERAL SURFACED CAP SHEET

## Description

GAFGLAS® EnergyCap™ BUR is a mineral surfaced cap sheet surfaced with extra fine mineral granules and a factory applied layer of TOPCOAT® EnergyCote™ elastomeric coating.

## Uses

GAFGLAS® EnergyCap™ BUR mineral surfaced cap sheet is used as the surfacing ply in the application of hot applied built-up roofs and as a top ply in base flashing construction.

## Advantages

- Cost effective—ENERGY STAR® qualified, Title 24 compliant cap sheet, without the added expense of installing a reflective coating after the roof is installed.
- Systems guarantees up to 20 years available.
- Durability—glass base resists the effects of moisture on the roof system.
- Code approvals—UL Class A, B, or C membrane constructions are available.

## Applicable Standards

Meets ASTM D3909, ASTM E903, ASTM E408
ICC Evaluation Report Pending
Title 24 Compliant
ENERGY STAR® Qualified
UL/ULc Listed

## Products Specifications (nominal)

Roll Size	1 square (106.9 gross sq.ft.) (9.9m <sup>2</sup> )
Roll Length	32.6' (9.9m)
Roll Width	39.4" (1.0m)
Approx. Roll Weight	73 lbs (33.1kg)
Emissivity	0.90
Reflectivity	0.80
SRI (Solar Reflective Index) 100	

**Note:** The emittance and reflectance values published are those required for Title 24 compliance as listed by CRR. For certification or other reflectance and emittance code requirements, different calculations may be used resulting different values. All EnergyCap products meet LEED requirements. Please contact technical services at 1-800-766-3411 for assistance and submittal information.
