- How many members are in the House of Representatives?
- How are members of the House and Senate elected?
- What are the powers of the President?

Only the Best Will Do™

Writanium® Writing Surfaces

A Writing Surface for a Lifetime

Platinum Visual Systems™ Writanium is a superior writing surface that has brilliant image clarity, optimum glare control and clean erasure. The non-porous nature of porcelain-on-steel process results in a durable, scratch resistant surface that holds up to harsh cleaning. A popular option is Permafuse™, which is custom fused imprinting such as music staff lines, guidelines, graphs or logos.

Writanium MarkerBoard

Unlike vinyl dry-erase or melamine, our MarkerBoard will not leave residual "ghosting." The sharp color definition and high contrast provide a superb surface for visual presentation and display.

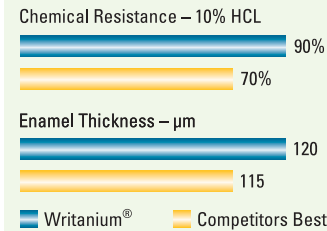

Writanium ChalkBoard

ChalkBoard will stand up to rough treatment and constant use. The controlled matte finish allows for precise writing with no glare and no "ghosting." For durability and performance, there is no better surface than a Platinum Visual Systems Writanium ChalkBoard.

Writanium Features and Benefits

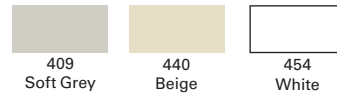

- Use any marker, pen or crayons without damage to the surface.
- Maximum color contrast and minimized glare and random light reflection.
- Dry erase ink wipes off easily with cloth or standard eraser. Other inks removed by appropriate cleaning agent or solvent based cleaner.
- High resistance to impacts, abrasions, scratching and fading.
- Magnetic aids hold and reposition easily.
- Flame resistant—100% non-combustible.
- Lifetime warranty!

Lifetime Warranty

Platinum Visual Systems warrants Porcelain-on-Steel finish for the lifetime of the original installation.

See our published statement for full warranty details at www.pvsusa.com

Tackable Surfaces

Tack it Up

A variety of tackable surfaces are available to complement any classroom or office setting and are manufactured to the highest standards, using only the highest quality materials. A wide range of color choices completes the picture.

Natural CorkBoards

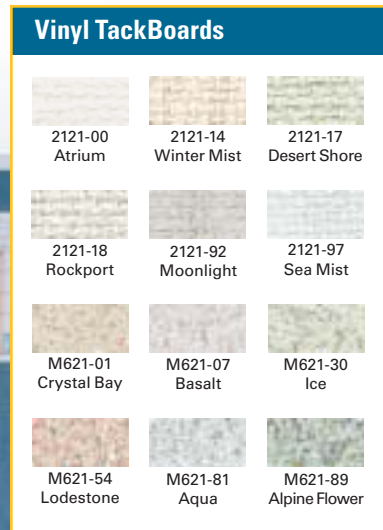

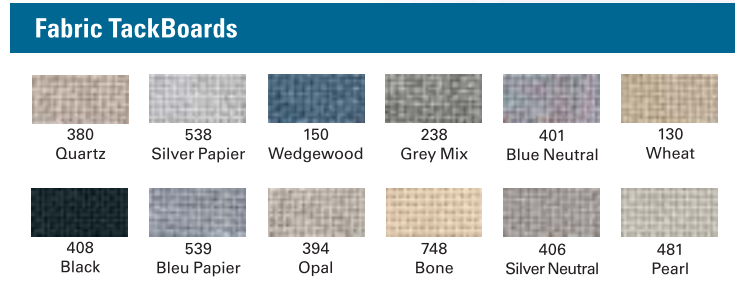

The finely ground cork provides a smooth resilient surface that remains pliable for years of use. CorkBoards are available with 1/8" Cork laminated to 3/8" fiberboard or 1/4" cork laminated to 1/4" hardboard.

Fine Grain CorkBoards

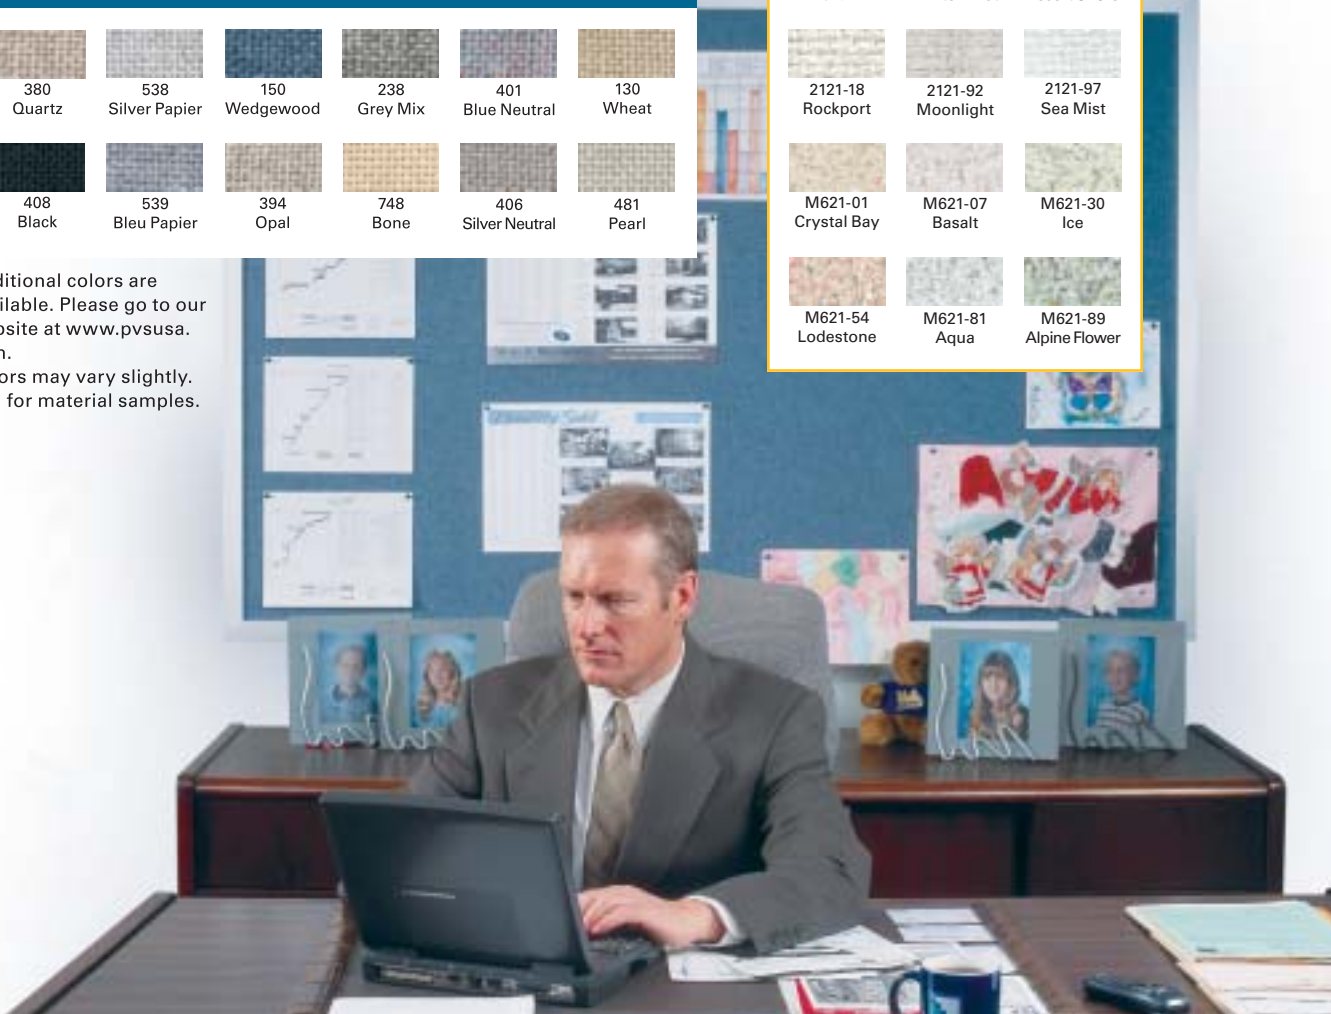

Our Fine Grain Color CorkBoards are constructed of 1/4" Fine Grain Cork which is burlap backed and laminated to 1/4" hardboard. A natural, environmentally friendly material, cork is dimensionally stable in all directions and is self healing as well as fade and soil resistant.

Fabric and Vinyl TackBoards

For versatile tacking solutions, any of our Fabrics and Vinyls can be laminated to 1/8" cork on 3/8" fiberboard, 1/4" cork on 1/4" hardboard or 1/2" fiberboard.

Additional colors are available. Please go to our website at www.pvsusa.com. Colors may vary slightly. Call for material samples.

Trim Systems

Fit any Style or Need

With eight basic designs as a foundation, finding the perfect display solution is as easy as A-B-C. All of our Systems can be configured with a variety of rail, tray and board combinations to suit any application.

All aluminum extrusions are made to our exacting specifications with high quality 6063-T5 aluminum alloy. Extrusions come standard in Clear Satin Anodized, with optional Dark Bronze Anodized and choice of Powder Coated finishes.

Next, combine the perfect trim system with a broad range of surface styles and color options. You have just specified the perfect visual display product for any professional environment. We can also custom design and manufacture trim systems to fit any need.

Sliding Units

Save Space, Gain Flexibility

Horizontal Sliding Units

A Horizontal Sliding Unit is the ideal solution for maximizing visual communication effectiveness. This flexible unit will double or triple the amount of usable surface, with a minimum of wall space. Units can be designed with any combination of writing or tackable surfaces and colors.

BHS		SHS		THS		WHS	
Standard Sizes Available 4'x8', 4'x10', 4'x12', 4'x16', 4'x20', 4'x24' and Custom Single, Double or Triple Track. View full details and specifications at www.pvsusa.com							

Vertical Sliding Units

With the same space-saving, workspace-maximizing qualities as our Horizontal systems, the Vertical Sliding Units are a convenient way to make the most of your visual display system. Perfectly counter-balanced weights provide for a smooth, easy motion in raising or lowering one or more sliding panels.

FVS		WVS	
Standard Sizes Available 6'x8', 6'x10', 6'x12', 8'x8', 8'x10', 8'x12' and Custom		Standard Sizes Available 8'x8', 8'x10', 8'x12', 10'x8', 10'x10', 10'x12' and Custom	
Single, Double or Triple Track. View full details and specifications at www.pvsusa.com			

Cabinets and Wall Systems

Maximize Visual Communication

Floor to Ceiling MarkerBoard Systems

This system was perfected by manufacturing panels that join together using a concealed stabilizing spline, creating a smooth transition from panel to panel. Sizes range from 6' high by 8' wide, up to the massive 12' high by 24' wide wall system. These markerboards can also be designed to perfectly fit any size room.

FCS

Standard Sizes Available
 Height and Width Choices
 Height: 6', 8', 9', 10', 12'
 Width: 8', 12', 16', 20', 24'
