

For over 25 years TWF has consistently provided quality metal finishing to customers who trust us to deliver...

GOOD PARTS FAST

The following selection of **Architectural** colors are popular and used in higher volume. As a result, they are generally on hand – either in our facility or at the paint manufacturer – helping to shorten lead times even further.

TWF **ARCHITECTURAL** TRINAR STOCK COLORS

PAINT MANUFACTURER ARCHITECTURAL TRINAR STOCK COLORS

^{*} Virtually unlimited nonstock colors also available as well as the ability to color match.

TRINAR is a high-performance fluoropolymer coating containing 70% polyvinylidene (PVDF) resin. This two-coat system is perfectly suited for institutional and commercial applications. TRINAR meets or exceeds all the requirements of AAMA 2605 specifications.

An ISO 9001:2008 Certified Company

^{*} Actual colors will vary from those shown due to printing variances and do not show gloss appearance.

^{*} For a more exact representation, request a FREE color chip sample.
