### 1. Make Ladder Choices

Check all boxes that apply.

#### Specify Ladder

**Rolling Ladder (S-100)**

Ladder includes upper roller assembly or hook assembly, track and lower wheel assembly. Also pivots against wall when not in use.

**Pivotal Ladder (S-200)**

No lower wheels. Ladder pivots from wall with pivotal bracket assembly.

**Fixed Ladder (S-300)**

Fixed ladder that neither pivots nor rolls.

#### Specify Material

**Material:**

Wood  Aluminum

**Wood Type:**

Birch  Cherry  Mahogany  
 Maple  Red Oak  White Oak  
 Walnut  Alder  Specify Other: \_\_\_\_\_

**Wood Finish:**

Unfinished  Clear Finish  Gloss  Satin  
 Specify Minwax Stain: \_\_\_\_\_

**Aluminum Ladder:**

Aluminum loft ladders come standard with no finish. Ladders can be powdercoated in the following standard colors. Optional colors are also available.

Matte Black  Gloss Black  Beige Metallic

(wood only)

**2. Make Track & Bracket Choices**

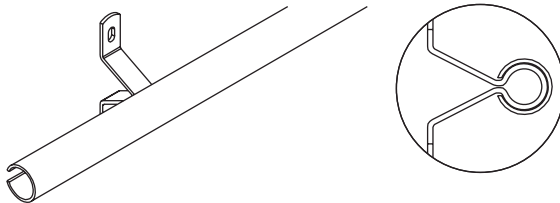

Check the box that applies.  
See Step 3 for specifying Curved Tracks.

***For Steel Tracks***

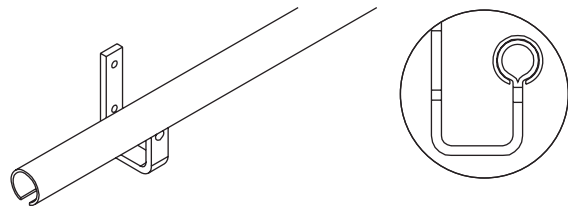

*S•100 Rolling Only.*

Track and brackets to match specified hardware finish.  
Brackets must be mounted no more than every 48”.

- Vertical Brackets for Ladders  
with Roller Assembly**

- Vertical Brackets for Ladders  
with J Hook Assembly**

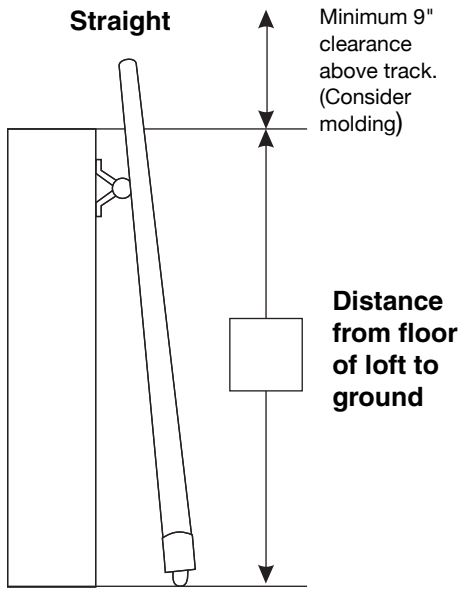

### 3. Provide Dimensions

Fill in all dimensions that apply.

#### Loft Ladder Dimensions

Number of brackets supplied will be based on 30" spacing.

- Check here if mounting surfaces require more brackets.
- If you would like ALACO to assist you in figuring your dimensions, please check this box and fax us a separate sketch of your room or floor plans.

#### Track Dimensions
