

Designing the future

Marmoleum Global 3 is the perfect answer to today's ecological concerns. As a product made from natural and renewable raw materials, Marmoleum has always been kind to the environment. Now, in combination with the fantastic new design possibilities contained within our Global 3 collection, it really is possible to design the future: with ecologically sound floor coverings that offer a high design quotient and which are optimized for economical installation and maintenance. Forbo creates better environments in every sense: in terms of design and architectural vision, environmentally, and with regards to the total cost of ownership. To us, that's what "designing the future" is all about.

marmoleum® dual tile *new!*

Each of Dual Tile's colors has been carefully selected for its balance and ability to enhance different tile combinations with color accents and patterns. Available in tile sizes of 13"x13" and 20"x20".

The standard for sustainable living®

Forbo Flooring Systems recently was awarded the Sustainable Materials Rating Technology® (SMaRT™) Sustainable Platinum Certification as a building product for Marmoleum and Bulletin Board Products. The SMART™ Consensus Sustainable Product Standards (CSPS) were developed by The Institute for Market Transformation to Sustainability (MTS) to evaluate the environmental performance of a building product over its life. CSPS is important in combating today's climate of greenwashing, as it is an independently done, peer reviewed, consensus based standard that allows for transparent communication.

marmoleum® fresco *new!*

Fresco has a 16-strong palette of tone-on-tone colors, each of which creates a warm, friendly, homey atmosphere. * authentic color available until 2016

marmoleum® striato *new!*

Striato is available in nature-derived and bright colors, and is designed with large, tall and open spaces in mind. Thanks to its warm, friendly design, Striato is easy to combine with other colors and materials.

marmoleum® vivace *new!*

A rich, vividly marbled structure offering powerful, colorful contrasts delivered by mixing eight elegant colors yet retaining a predominant hue.
