

Designing the future: Global 3

Marmoleum Global 3 is the perfect answer to today's ecological concerns. As a product made from natural and renewable raw materials, Marmoleum has always been kind to the environment. Now, in combination with the fantastic new design possibilities contained within our Global 3 collection, it really is possible to design the future: with ecologically sound floor coverings that offer a high design quotient and which are optimized for economical installation and maintenance. Forbo creates better environments in every sense: in terms of design and architectural vision, environmentally, and with regards to the total cost of ownership. To us, that's what "designing the future" is all about.

Each of Dual's colors has been carefully selected for its balance and ability to enhance different tile combinations with color accents and patterns. Available in tile sizes of 13"x13" and 20"x20".

The standard for sustainable living™

With its classic marbled structure, Real is an all around, reliable solution for all floor covering needs. Real comes in a wide choice of neutral, vivid and daring colors, with each shade built up from two to five colors that are calendered together to create a marbled structure. The popular colors of Real Authentic (denoted below with an asterisk) continue to provide a solid foundation for the collection, and are guaranteed to be produced until 2016.

Marmoleum Real welding rods are available in both solid and multi-color.

marmoleum®

surface solutions

Marmoleum is ideal for all types of furniture applications, including office, restaurant, and retail.

Performance benefits of Marmoleum Surface Solutions include a no-glare matte finish, natural anti-static properties, ease of cleaning and maintenance, availability in large sheets for seamless applications, and cost effective installation.

Choose from any color of Marmoleum Real, Dual, Fresco, Vivace, Piano, Striato, Mineral, Prisma, or Graphic. Contact Forbo Flooring at 1-800-842-7839 for more information.

Please contact Forbo Flooring for information on our Sample Recycling Program at 1-800-842-7839.

A rich, vividly marbled structure offering powerful, colorful contrasts delivered by mixing eight elegant colors yet retaining a predominant hue. The result is a colorful and lively design that adapts well to a multitude of interiors. Vivace is available in 12 colors, from multifaceted neutrals to contrasting, daring colors.

Multi-color and solid welding rods are available for all colors of Vivace.

Forbo Flooring Systems recently was awarded the Sustainable Materials Rating Technology[®] (SMaRT[®]) Sustainable Platinum Certification as a building product for Marmoleum and Bulletin Board Products. The SMaRT[®] Consensus Sustainable Product Standards (CSPS) were developed by The Institute for Market Transformation to Sustainability (MTS) to evaluate the environmental performance of a building product over its life. CSPS is important in combating today's climate of greenwashing, as it is an independently done, peer reviewed, consensus based standard that allows for transparent communication.

Forbo's Marmoleum and Bulletin Board products achieved credit towards Sustainable Platinum level certification in the following categories:

- Safe for Public Health & Environment
- Renewable Energy and Energy Efficiency
- Biobased or Recycled Materials
- Innovation in Manufacturing
- Facility or Company Based Manufacturing
- Reclamation, Sustainable Reuse or End of Life Management

The standard for sustainable living®

Combining an almost solid color structure with a subtle, harmonious, two-tone speckle effect, Piano is in an elegant pattern that is ideal for areas that demand both a natural look and sophisticated elegance. Piano is available in a balanced palette of 8 colors, ranging from bright colors, through neutral greys to muted tones.

New and a breakthrough in linoleum design, Striato is a one-of-a-kind, retro yet modern design with no resemblance to the "classic" look of linoleum. Striato is available in nature-derived and bright colors, and is designed with large, tall and open spaces in mind.

Cirrus, designed to complement the Uni Waltons, brings a slight marbling effect into play. Available in 6 pronounced accent colors, Cirrus works perfectly with any color of Marmoleum.

Uni is a simple, pure collection of 6 single, solid tones which provides the perfect base on which to create striking combinations with other interior colors.

Crocodiles' 4 natural, leather-like colors convey an exclusive look and feel to any space, and work extremely well as a transition from floor to wall.
