

DECKSCAPES™

DECKSCAPES DECK FINISHING SYSTEM.
FOR A LOOK THAT STANDS THE TEST OF TIME.
AND JOBS THAT TAKE LESS TIME.

FASTER APPLICATION. IMPRESSIVE RESULTS.

DeckScapes is the most complete line of deck finishing products available and includes a waterborne solid color stain that can be used on composite decks.

- + Faster
- + Easier
- + Longer lasting

→ COMPETITIVE ANALYSIS

After being exposed to exterior weathering, DeckScapes held its finish longer than over twenty leading competitors.

Quality, quickly. That's the DeckScapes Advantage.

Imagine completing an entire deck job – from stripping to cleaning to staining – in a single day. There are product options in the DeckScapes Deck Finishing System that make it possible. DeckScapes is the most complete line for finishing wood and composite decks. And because DeckScapes is designed to let you work fast without sacrificing quality, you can cut job time and improve the bottom line. All while expanding your referral base.

OUR PRODUCT INNOVATION RAISES THE BAR

Thanks to Sherwin-Williams' superior technology, DeckScapes ensures results that no competitor can match. And with our Coating Life Extender, Waterborne Semi-Transparent Stain, and Waterborne Solid Color Stain, we're setting a new industry standard.

Our new Coating Life Extender binds together loose fibers to improve stain adhesion on deck surfaces. Plus, it penetrates deeply to enhance the look of the wood grain, and provide UV and weathering protection.

Our Waterborne Semi-Transparent and Solid Color Deck Stains give you beautiful and durable results quickly. These innovative coatings offer a wide range of colors and outstanding protection against weathering, chipping and cracking. And their excellent color retention ensures the look won't fade over time. Also, both of these stains dry and clean up fast, which will improve your productivity.

GET THE JOB DONE RIGHT FROM START TO FINISH

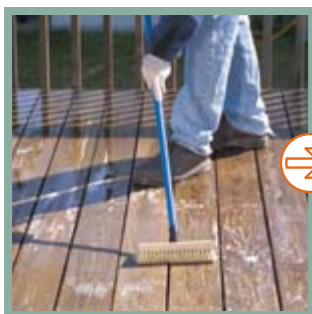

The DeckScapes line takes the guesswork out of deciding which finish to use or what steps to take. DeckScapes also includes prep and care products for proper pre-treatment, cleaning and surface preparation.

CLEANING AND RESTORING THE DECK

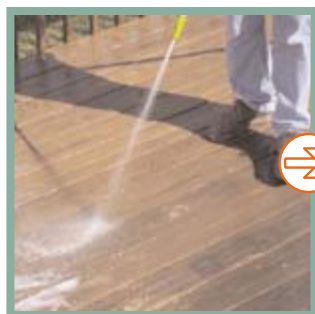

To select your pre-treatment options, first determine if the deck has been previously stained or sealed. If it has not been stained, determine if the deck is cedar or redwood, pressure treated wood, or composite. Look to the chart below to find which pre-treatment solution is right for you.

Apply the appropriate DeckScapes surface prep or cleaning product

Scrub in

Hose off

NEW

COATING LIFE EXTENDER

Ensures the best possible protection and adds longevity to your finish when used with DeckScapes Semi-Transparent or Solid Color Waterborne Stains

- + Unique technology binds loose fibers to improve topcoat adhesion
- + Enhances the look of the wood grain
- + Delivers great penetration and temperature tolerance, especially in hot weather
- + Protects against UV and water damage
- + VOC compliant
- + Ideal for seriously weathered wood, cedar, redwood or new construction

STAIN AND SEALER REMOVER

Great first step for previously coated decks

- + Removes weathered latex stains, oil-based stains, toners, and clear finishes
- + Removes some solid color stains
- + Provides a more uniform final finish coat
- + Must be followed with an application of Revive

REVIVE™

Restores the natural beauty and color of the wood

- + Removes stains from dirt, mildew, algae, weathered wood, tannin extracts, nail bleed, and mill glaze
- + Recommended for use on redwood, cedar, and other resinous woods
- + Use on new or uncoated cedar, redwood or pressure-treated lumber and surfaces treated with Stain and Sealer Remover

DECKWASH

Best for use on new or uncoated pressure-treated lumber or composite decking

- + Removes stains caused by dirt, mildew, and algae
- + Cleans and renews weathered, pressure-treated, and composite decking

SEALING AND STAINING THE DECK

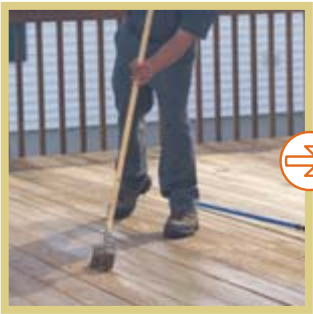

To select your sealing and staining options, first determine your desired finished appearance. Then consult the chart below to find the solution that's right for you. Keep in mind that protection and durability increases as opacity increases.

Begin with prepped deck

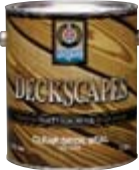

Roll on stain

Work stain in by back-brushing

Finished project

*Final appearance is dependent upon wood type and color selected

DECKSCAPES WILL HELP BUILD YOUR BUSINESS

Sherwin-Williams is your source for the products, service and support that will help you grow your business. DeckScapes Deck Finishing System's comprehensive approach is designed to fit all of your needs.

MOST COMPREHENSIVE SELECTION OF PRODUCTS

From surface prep to cleaner, clear to solid color, oil-based to waterborne, DeckScapes is a complete, premium deck finishing system.

SET THE STAGE FOR A FINISH YOUR COMPETITION CAN'T MATCH

With exclusive DeckScapes Coating Life Extender, you'll be able to prepare severely weathered or new decks for better stain adhesion. Plus, you'll add a layer of UV and water damage protection to ensure your great look will last. This product offers better penetration and highlighting of the wood grain.

MAXIMIZE PRODUCTION WITH ONE-DAY TURNAROUND

Semi-transparent and solid color waterborne formulations perform equally well on damp or dry wood. This wet-on-wet application characteristic and the single-coat coverage means you can clean a deck and apply stain on the same day.

A SOLUTION TO FINISHING COMPOSITE BOARDS

Many decks in new homes are made of composite materials. DeckScapes Solid Color Stain has been tested for use on both wood and composite deck materials with excellent results. One reliable product can satisfy both builders and homeowners.

FORMULATED FOR BETTER PERFORMANCE

DeckScapes gives you long-lasting results that will get your great job noticed – which means more business for you. DeckScapes provides better durability and adhesion than other leading brands and the waterborne formulas provide better color retention.

TOOLS TO HELP YOU SELL

We can provide you with access to literature, yard signs and postcards to help you sell DeckScapes to your customers and prospects. See your store manager or rep for details.

NO LIMIT TO EXTERIOR STAINING OPTIONS

DeckScapes is the perfect complement to our WoodScapes™ line of house stains. WoodScapes is a proven top quality choice for siding. This revolutionary product has guaranteed durability and color retention. Both DeckScapes and WoodScapes are available in the same wide range of colors. There is virtually no limit to the exterior stain options and colors you can deliver to your customers.

GET THE HELP YOU NEED WHEN YOU NEED IT

Professionals have relied on Sherwin-Williams experience and customer service for 140 years. Your Sherwin-Williams sales representative or store sales staff can assist you in selecting the right DeckScapes prep and stain products. Plus, our in-store display helps to take the guesswork out of choosing the right products and determining the right steps to take for the look and level of protection desired. And our in-store samples show the various finishes on the most popular types of wood used for decks, including treated lumber, cedar and redwood.
