WOODFOLD Custom Accordion Doors

CRAFTING VALUE FOR MORE THAN 50 YEARS

Woodfold combines more than 50 years of craftsmanship with today's most advanced computers and machinery for an unsurpassed level of quality, efficiency and precision. Which means serious benefits for our customers in the form of product selection, development, design and value.

WOODFOLD SERIES 140

Commercial-Grade Residential Closet Doors.

Routinely specified in single-family homes, college dormitories, retirement and assisted living facilities and healthcare applications. The Series 140 series is a durable, lightweight, space-saving option for close-quarters. Finished on one side and available in vinyl and hardwood panel options.

WOODFOLD SERIES 220

Residential Room Dividers And Doors.

The Series 220 is as attractive and durable as the 140 Series, but offers a finish on both sides. Ideal for efficiency-style housing units, basement or family room recreation areas and galley-style kitchens. Available in a variety of durable vinyl and hardwood panel options.

WOODFOLD SERIES 240

Commercial To Residential. Institutional To Industrial.

The Industry-Leading Accordion Door.

The Series 240 door combines the merits of durability and function with natural beauty. It is routinely specified for institutional, commercial and industrial projects, offering you choices like curvable track, locks, latches, and multiple meeting posts to further expand the design capabilities of the accordion concept.

WOODFOLD SERIES 540 & 440

Visifold, See-Though Commercial And Retail Security Doors.

The Series 540 combines the smooth, flawless operation of the Woodfold hardware hinge system with enhanced security between panels thanks to a ridged PVC hinge over a steel pin, offering protection and an unobstructed view of what's inside. The Series 440 uses the same construction, yet features a flexible vinyl PVC panel connector in place of the knuckle hinge and steel rods. Also available with multiple latch and locking options. The Visifold line can be customized by combining acrylic panels with hardwood or vinyl lams.

WOODFOLD SERIES 640 & 740

Alumifold Security Doors.

Lockable doors with our exclusive hardware hinge system and solid aluminum side channels. The Series 640 & 740 features single-piece, solid extruded aluminum body panels (solid or perforated) in anodized aluminum available in clear (silver), bronze or gold, for a streamlined, modern look. Suitable for a variety of installations including store enclosures and corridor dividers.

WOODFOLD SERIES 2100

Single-Wall Doors For Moderate Sound Reduction.

Delivering sound reduction in an attractive, reasonably priced, single-wall door, the Series 2100 is ideal wherever moderate sound reduction is needed, such as restaurants, offices and churches. Also minimizes heat loss or air exchange between rooms.

WOODFOLD SERIES 3300

Dual-Wall Doors For Enhanced Sound Reduction.

An attractive way to draw the line between loud and quiet, the Series 3300 is perimeter-sealed and acoustic-lined for exceptional sound insulation. Matching dual-wall construction with the proven durability of our exclusive hardware hinge system and rigid body panels, it conveniently allows the selection of alternate finish materials on each door face.

The Nuts And Bolts Of Our Nuts And Bolts.

Our exclusive steel hardware hinge system is designed to keep doors operating smoothly and lends fantastic strength and durability. It also means the doors stay solidly in place while both open and closed, ensuring our doors operate flawlessly throughout the life of the investment.

Architectural Specifications

Woodfold doors shall be accordion-type with panels connected continuously along the top and bottom by a steel hardware hinge system. Individual hinges are riveted to those adjoining, and contain stops to maintain a uniform extended position. Extruded vinyl seals securely connect all adjoining panels top to bottom (excluding Series 540 & 740). Doors shall be suspended by nylon wheels from aluminum overhead track. All necessary hardware and mouldings shall be included for normal installation.

Available Finishes

Natural hardwoods, woodgrain vinyls, solid vinyls, textured vinyls, custom paint finishes, custom stain finishes, high pressure decorative laminate finishes, aluminum and applied murals.

The Woodfold Guarantee

All Woodfold doors are custom made to fit each opening and warranted against failure due to defective materials or workmanship.

ADA Compatible

The Series 140, 220, 240, 440, and 540 were tested for ADA compliance for opening load force per ADA/BOMA SEC 4.1311. Tests conducted by MEI Charlton, Inc., Portland, OR.

Employee-Owned

You're assured a precise level of workmanship, service and long-term value with each order because every Woodfold employee shares in the success of a job well done.
