Whirlpool® Home Appliances Helping your clients get more done.

Today's homebuyers are busy, active people who appreciate help in accomplishing their tasks and managing their homes. They desire appliances that are easy to use, reflect their individual tastes and help them be incredibly productive. They also appreciate appliances that help them be environmentally responsible. Whirlpool brand responds with products that unite style, performance as well as eco-efficiency—helping to facilitate everyday chores with less effort, while saving time and resources.

In the kitchen, Whirlpool offers the PowerScour™ option that enhances dishwasher performance. Several Whirlpool refrigerator models help your busy clients with unique features like the In-Door-Ice® and Fast Fill dispensing systems. Similarly, many Whirlpool ranges and ovens feature the AccuBake® Temperature Management system that helps your clients achieve consistent, uniform baking performance with balanced heat. For a unified appearance,

pair up a Whirlpool freestanding range with a complementary microwave oven to create a PowerPair™ Cooking Center. **In the laundry room,** the new Whirlpool brand Duet® Steam laundry pair offers your clients a whole new way to care for laundry from start to finish, with the pure power of steam. Duet® washers and dryers also offer new design possibilities with an exciting new color—Aspen Green. You can count on Whirlpool brand for productivity-enhancing laundry solutions for single-family, multi-family and commercial applications. Whirlpool® is committed to developing products that are energy- and water-efficient.

And now, 3D digital models of Whirlpool products are immediately available via The Google® 3D Warehouse and may be downloaded directly into your CAD designs.

Built-in Ovens

Nothing sparks the passions of busy homeowners more than productivity and saving time in their kitchens. The variety and versatility of Whirlpool® all-electric large-capacity ovens will keep those passions cooking. You'll find built-in single ovens, double ovens and combination ovens, all with advanced features. Non-convection ovens are available 24", 27" and 30" wide, while convection ovens are 27" and 30" wide.

The Whirlpool® Velos™ Oven with Speedcook Technology is the largest capacity speedcook appliance in the market with its interior cavity measuring two cubic feet. It leverages speedcook and convection technology to substantially reduce cooking times. Homeowners can use four primary working methods: True Convection, Speedcook technology, microwave cooking and steam cooking for excellent results. Combine with a complementary freestanding range to create a PowerPair™ Cooking Center.

Whirlpool Gold®

- GZ7930XH
Identical to GZ7936XH in 30" width

Refrigerators

Fast Fill Dispensing System with measured fill option, rotating dispenser and slide-out tray.

The In-Door-Ice® ice dispensing system moves the ice bin from inside the freezer compartment to the door.

From style to storage, Whirlpool refrigerators deliver the features that help homeowners be more productive in the kitchen. For example, the Fast Fill and In-Door-Ice® dispensing systems, featured on Whirlpool Gold® side-by-side refrigerators, allow homeowners to quickly fill large containers, and make more room in the freezer, respectively. New contoured door side-by-sides open new design possibilities.

Whirlpool Gold® Automatic Ice Maker

- 50 Lbs. of Ice per 24 Hours
- 25-Lb. Capacity Storage
- Self-Cleaning
- Optional Drain Pump
- White, Black, Biscuit and Stainless Steel

Whirlpool® Fabric Care Suite

Designed To Make Every Home More Productive.

The Fabric Care Suite is the next generation in fabric care, combining high-performance products with your design for an efficient laundry area. A concept conceived to make every day more productive as your clients clean and care for all of their fabrics. Combinations of our innovative Laundry Pairs, Laundry Towers, Pedestals, Worksurfaces and the Fabric Freshener can create the modular solution to best fit your clients needs.

Whirlpool® Duet HT® laundry pair shown with Laundry 123™ Worksurface and Tower (page 14).

Fabric Freshener LRF4001RY

- Removes Odors, Relaxes Wrinkles
- Uses distilled water only
- 3 Steam Cycles
- Collapsible and Portable
- For Laundry Room, Bedroom or Closet

The Whirlpool® Fabric Freshener has been recognized with an Industrial Design Excellence Award (IDEA) in 2005.

15.5" storage pedestal shown holds full-size bottles of detergent and includes a folding platform.

For front-loading fabric care, Whirlpool brand sets the industry standard with the Duet® Fabric Care System. Today, there are even more laundry solutions to maximize your design flexibility like the new Duet® Steam Laundry Pair. The Duet® Steam Washer naturally steams out tough stains while the dryer steams out wrinkles and odors. Accessories open up design options while enhancing productivity. Whirlpool™ Laundry 123™ custom laundry worksurface optimizes the top of front-loading laundry pairs for organizing, treating and folding laundry. Additionally, 10 and 15.5 inch pedestals are available to increase accessibility and create a universal design-oriented solution in the laundry space.

Together we can make a sustainable difference.

At Whirlpool Corporation, we're committed to being the building and design

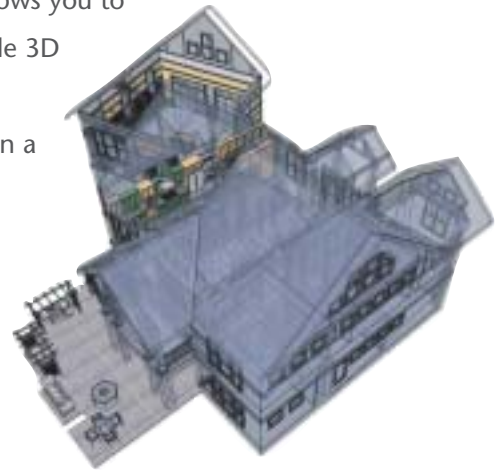

professionals' go-to source for eco-efficient appliances needed to design, construct, operate and maintain green homes. We want to partner with you in developing designs that can make a sustainable difference.

Serving the design professional.

Whirlpool offers a number of complimentary services that benefit the design community. Our new

offering of 3D digital models for Google SketchUp allows you to download Whirlpool® product models from the Google 3D Warehouse right into your CAD designs. You can also connect with Google Earth to place your 3D design on a jobsite to share with clients.

You can also access **online continuing education, CSI three-part specifications and**

CAD details at
Sweets.com.

Professional courtesy
appliance discounts for AIA,
AIBD, NKBA and IIDA members' personal use
are also available.
