

*It's all about performance.*

# Speedhide® Interior & Exterior Paints

Whether your interior or exterior job requires a primer or topcoat, a latex or an alkyd, the *Speedhide* line has a product available to address all of your commercial coating needs. Durability, affordability and long lasting performance make *Speedhide* the product of choice.

- Pittsburgh® Paint's most extensive line of products to meet even the most demanding commercial coating needs
- Widely specified on commercial jobs from coast to coast
- Several *Speedhide* products are approved for listing in Section 01 35 00 of the Collaborative for High Performance Schools (CHPS) program
- Broad range of Masterspec/MPI (Master Painter's Institute) approvals
- Many products to choose from that can help earn LEED credits
- Wide color selection from the noted *Voice of Color*® palette

# Perma-Crete® Masonry Coatings

PPG *Perma-Crete* Masonry Coatings provide a complete line of extremely durable and visually appealing protective coatings for a variety of interior and exterior concrete. Offers individual products or recommended systems to solve every masonry protection and beautification challenge:

- **Fillers, Primers & Sealers**  
Includes both premium and economical products that serve as excellent block fillers, primers, sealers and water repellents for new or previously painted concrete and masonry substrates.
- **Elastomeric Topcoats**  
100% acrylic elastomerics designed to create a protective layer on concrete and masonry substrates providing waterproofing and flexibility to bridge gaps and cracks.
- **Texture Topcoats**  
100% acrylic textured coatings designed for high traffic, interior and exterior areas where a stain-resistant, textured finish is desired to hide surface imperfections
- **Topcoats, Vertical Above-Grade**  
Designed for high performance protection in harsh conditions, this line includes a high build topcoat and a fast drying vertical concrete stain.
- **Topcoats, Horizontal Capable**  
Protective and decorative coatings for use on interior and exterior, above-grade, vertical and horizontal surfaces providing superior protection with aesthetic appeal.

PPG Pure Performance Coatings were used in the restoration of Frank Lloyd Wright's Fallingwater in 2001.

Environmentally preferred paint that delivers superior performance.

- Exceeds even the most stringent air quality requirements nationwide
- Can help earn LEED credits
- Approved for listing in Section 01 35 00 of the Collaborative for High Performance Schools (CHPS) program
- Excellent washability and durability
- Available in over 1,800 clean, vibrant colors
- Ideal for schools, hotels, hospitals, office buildings, retail spaces, health care facilities, residences and more

## Pittsburgh® Paints Dry Fog Offerings

Pittsburgh Paints offers a wide variety of water based, epoxy ester and alkyd dry fogs with the performance attributes critical to commercial construction.

- Fast-drying, low VOC WB products designed for interior ceilings and overhead surfaces
- Excellent adhesion to a variety of substrates and epoxy esters may be used direct-to-metal as a single coat finish
- Provides excellent flash rust resistance, eliminating rust bleed
- Higher hiding white finish has high light reflectance
- Tolerates overbuild at 20 wet mils minimizing the risk of mud cracking
- Premium WB and epoxy ester dry fogs are self-priming on a variety of substrates
- WB dry fogs can earn LEED NC Version 2.2 Credits

Where can you find the architectural glass, coatings, and paint choices you want, together with technical tools, support and expertise of one of the world's most experienced and innovative building products manufacturers?

There's only one answer: **PPG IdeaScapes**. Look around and you'll discover that **PPG IdeaScapes** stands alone in its ability to fulfill your complete color and design vision. Glass, coatings and paint solutions for the exterior surfaces of your building, together with a virtually limitless palette of coatings and paint options for the interior.

**PPG IdeaScapes** has a personal side, too. Knowledgeable personnel with the experience and training to address your surface design and protection needs, backed by an exceptional array of tools, product selectors and online resources.

When you want to get the most out of aesthetics and performance—and do it in the most economic and environmentally sustainable way possible—look to **PPG IdeaScapes**.

## EcoLogical Building Solutions

PPG Glass, Coatings and Paint for Sustainable Design

Green Building Alliance  
Gold Sponsor

Environmental sustainability is the most powerful trend to influence the design and specification of buildings in a generation.

PPG has developed **EcoLogical Building Solutions**, an exclusive collection of select products designed to help architects and specifiers construct “greener” buildings.

PPG is committed to more than making environmentally progressive products. We actively pursue company-wide initiatives that support regional sourcing, reduce the environmental impact of our packaging, make our products easier to recycle or dispose, encourage the use of alternative energy and cut overall greenhouse gas and VOC emissions.

If your goal is to earn LEED certification for your project, or simply to reduce your building's overall operating costs and environmental impact, **EcoLogical Building Solutions** has the glass, coatings and paint products you need, all from a proven, innovative company you can trust.

To learn more, or to order our **EcoLogical Building Solutions** brochure or LEED White Paper, call **1.888.774.4332** or visit [www.ppgideascales.com](http://www.ppgideascales.com).
