# Firestone Quality

The Firestone name is synonymous with quality, innovation and leadership. Through annual investments in research and development, we remain at the forefront of advances in roofing technology.

## QuickSeam™ Splice Tape

Firestone QuickSeam Flashing provides redundancy and increased strength.

Firestone QuickSeam Splice Tape provides proven waterproofing on billions of square feet of Firestone RubberGard roofs.

Millions of square feet of Firestone RubberGard EPDM have been in service since 1987. Incredibly, not a single seam-related warranty repair payout has been made to date, due to the remarkable strength of the Firestone QuickSeam System. The QuickSeam Tape Seam System is the most advanced method of field seaming RubberGard EPDM membrane available in the industry. Firestone offers a complete family of QuickSeam products to assure that your RubberGard Platinum EPDM roof is installed with the highest standards of quality and durability.
