Firestone UltraPly™ TPO Accessories

As a leader in TPO roofing systems, Firestone has expanded its line of UltraPly accessories to meet the needs of this fast-growing market segment. Firestone's full selection of TPO options offer total system solutions from a name synonymous with innovation and quality. It's one more way only Firestone can say: "Nobody covers you better."

NEW

UltraPly TPO Accessory Offerings from Firestone for faster installs and lower system costs

UltraPly TPO 8" Reinforced Cover Strip

Features:

- Constructed of 60 mil thick UltraPly TPO
- Can be used as a reinforced, weldable coverstrip for intermediate mechanical attachment on TPO systems or to strip in TPO XR end laps

Benefits:

- Pre-cut and ready-to-roll 50' length
- Allows quicker installation
- Reduced labor time permits lower installed system cost

UltraPly TPO Reinforced Curb Corners

Features:

- Fabricated from 45 mil thick UltraPly TPO
- 6" flange to ensure adequate curb flashing coverage onto UltraPly TPO

Benefits:

- Allows quicker installation
- Reduced labor time permits lower installed system cost
- Available in six sizes to allow application to multiple size curbs

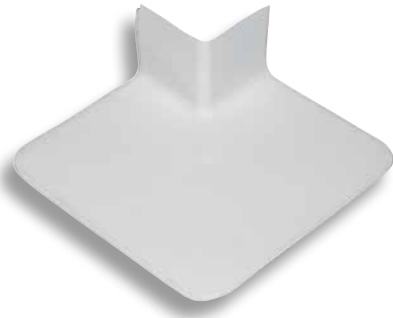

UltraPly TPO QuickSeam 9 1/2" Flashing

Features:

- Laminated 9.5" TPO flashing membrane combined with Firestone Non-Staining QuickSeam pressure sensitive tape technology
- Can be used as a coverstrip for intermediate mechanical attachment on UltraPly TPO systems
- Can be used on approved roof edge details

Benefits:

- Pre-applied QuickSeam tape technology ensures consistency of attachment
- Ease of application that helps to reduce welding time during installation of membrane or flashing details

UltraPly™ QuickSeam™ Outside Corner

Features:

- Molded from UltraPly TPO compound and combined with Firestone Non-Staining QuickSeam pressure sensitive tape technology
- Extra wide flange to ensure adequate corner coverage
- No heat welding required

Benefits:

- Pre-applied QuickSeam tape technology ensures consistency of attachment
- Ease of application when adding additional new or curb flashing
- No heat welding equipment needed

UltraPly QuickSeam Reinforced Mechanically Attached Strip

Features:

- Constructed of UltraPly TPO and Non-Staining White QuickSeam pressure sensitive tape
- Installed using conventional UltraPly TPO HD Seam Plates, metal or polymer batten strip

Benefits:

- Non-penetrating intermediate attachment for roof perimeters
- Allows the use of membranes up to 12' for perimeter installations
- Reduced in-seam attachment and welding

TPO QuickSeam Flashing

Features:

- Laminated 5.5" TPO flashing membrane combined with Firestone Non-Staining QuickSeam pressure sensitive tape technology

Benefits:

- Pre-applied QuickSeam tape technology ensures consistency of attachment
- Ease of application that helps to reduce welding time during installation of membrane or flashing details

UltraPly QuickSeam Reinforced Perimeter Fastening Strip

Features:

- Constructed of UltraPly TPO and Non-Staining White QuickSeam pressure sensitive tape
- Installed using conventional UltraPly TPO HD Seam Plates

Benefits:

- Non-penetrating membrane attachment for securement at angle changes
- Reduces in-seam attachment and welding

UltraPly™ QuickSeam™ Pipe Boot

Features:

- Molded from UltraPly TPO compound and combined with Firestone Non-Staining QuickSeam pressure sensitive tape technology
- Covers pipes ranging from 1" to 6" in diameter
- No heat welding required

Benefits:

- Pre-applied QuickSeam tape technology ensures consistency of attachment
- Ease of application when adding additional pipe penetrations to an existing roof. No heat welding equipment needed.

UltraPly QuickSeam T-Joint Covers

Features:

- Molded from UltraPly TPO compound and combined with Firestone Non-Staining QuickSeam pressure sensitive tape technology

Benefits:

- Pre-applied QuickSeam tape technology ensures consistency of attachment
- Ease of application that helps to reduce welding time during installation of membrane or flashing details
