

# **DURO-FLEECE® COLORS 50-MIL MEMBRANE**

## Advantages:

Duro-Last<sup>®</sup> Duro-Fleece<sup>®</sup> Colors 50-Mil (DFC50) membrane is an excellent choice for projects requiring a long lasting roofing membrane. The combination of fleece and the proven performance of Duro-Last roofing membrane results in an ideal product for use in adhered and mechanically attached applications over a wide variety of roof substrates. A complete line of custom prefabricated accessories is available for the DFC50 membrane.

## **Description:**

In addition to the fleece, DFC50 membrane incorporates a weft-inserted, knitted scrim within PVC films to provide exceptional strength and waterproofing.

## Duro-Fleece membranes must not be used with Duro-Last EV membranes.

**PVC Film** - Proprietary thermoplastic PVC formulation of resins, plasticizers, stabilizers, biocides, flame retardants, and U.V. absorbents.

• PVC film above weft-inserted scrim - 26 mil

**Weft-Inserted Scrim** - An 18 x 9 polyester fabric construction with weft insertion, composed of 840 x 1000 denier threads, provides superior tear and puncture resistance. The polyester thread is treated to prevent wicking.

**Fleece** - The 3.8-ounce per square yard needle-punched polypropylene fleece provides excellent properties for adhering to, or mechanically attaching over, a variety of substrates. Each roll of membrane has one selvage edge where the fleece is held back 3 inches to provide for hot-air welding to the underlying membrane.

**Total Membrane Thickness** – 50 mil, nominal. **Overall Thickness (with Fleece)** – 68 mil.

**Weight** – 0.33 lb. per square foot.

Colors - Same top and bottom surface color.

\* DFC50 is available in the following colors by special order. Contact sales department for more information.

**R-Value** – 0.1 ft<sup>2</sup>.°F·hr/Btu.

**Packaging** – DFC50 is supplied in the roll sizes shown below. A full pallet contains ten rolls.

#### Roll Dimensions:

| Dimensions       | Estimated Coverage | Roll Weight |  |
|------------------|--------------------|-------------|--|
| 10 ft. x 100 ft. | 975 sq. ft.        | 330 lb.     |  |
| 5 ft. x 100 ft.  | 475 sq. ft.        | 165 lb.     |  |

**Energy Efficiency:**

P<sup>1</sup> Results pending.

## Warranty:

The following warranties are available for projects utilizing DFC50 membrane. Contact Duro-Last for warranty details. **Consequential damage coverage is not available for Duro-Fleece installations.** 

|             | Available Warranties |                     |  |  |  |  |
|-------------|----------------------|---------------------|--|--|--|--|

#### **Codes and Standards:**

Underwriters Laboratories (US & Canada), FM Approvals, State of Florida, Miami-Dade County, Texas Department of Insurance.

## Storage:

Store rolls lengthwise on pallets. Use tarps to keep rolls dry.

#### **Membrane Attachment:**

**Adhered** – DFC50 membrane may be adhered to a variety of roof decks, walls, cover boards and insulations. It may be adhered directly to an existing built-up roof (BUR) by using Duro-Fleece Membrane Adhesive or splatter-applied Duro-Grip® CR-20. Prior written approval from the Duro-Last Engineering Services Department is required prior to adhering to BUR. Refer to the Adhered Duro-Fleece Roofing System Specification for substrate preparation, acceptable adhesives and system requirements.

**Mechanically Fastened** – DFC50 membrane may be mechanically attached to a variety of roof deck and wall materials. An appropriate slip sheet or cover board may be required. Refer to the Roll Good Mechanically Fastened Systems Specification for system requirements.

## **Physical Properties:**

DFC50 membrane has been subjected to the tests required by ASTM 4434 "Standard Specification for Poly (Vinyl Chloride) Sheet Roofing" and has been classified as a Type III, internally reinforced sheet with a fabric backing. The results of each test are listed below.

| Physical Property                  | Test Method                 | ASTM 4434 Requirement   | Result | Typical Value  |
|------------------------------------|-----------------------------|---|--------|--|
| Overall Thickness                  | ASTM D751                   | ≥ 0.045 in.   | PASS   | 0.050 in. (50 mil), nominal<br>(With fleece: 68 mil) |
| Thickness Over Scrim               | ASTM D7635                  | ≥ 0.016 in.   | PASS   | 0.026 in. (26 mil)                                   |
| Breaking Strength <sup>1</sup>     | ASTM D751 Grab Method       | ≥ 200 lbf./in.  | PASS   | 500 x 344 lbf./in.                                   |
| Elongation <sup>1</sup>            | ASTM D751 Grab Method       | ≥ 15%   | PASS   | 32% x 77%  |
| Seam Strength                      | ASTM D751 Grab Method       | ≥ 375 lbf.<br>(75% of Breaking Strength)  | PASS   | 405 lbf.   |
| Tear Strength <sup>1</sup>         | ASTM D751 Procedure B       | ≥ 45 lbf.   | PASS   | 67 x 160 lbf.  |
| Low Temp. Bend                     | ASTM D2136                  | Must pass at -40° F   | PASS   | PASS   |
| Heat Aging                         | ASTM D3045                  | Conditioned for 56 days in oven maintained at 176° F  | PASS   | PASS   |
| Accelerated Weathering             | ASTM G154<br>(formerly G53) | 5,000 hours total test time. Irradiance level of 0.68 W/m2-nm. Cycle: 8 hours at 145° F, 4 hours condensation at 122° F | PASS   | PASS   |
| Dimensional Stability <sup>1</sup> | ASTM D1204                  | Conditioned for 6 hours in oven maintained at 176° F. Allowable change: ≤ 0.5%  | PASS   | 0.10% x 0.10%  |
| Water Absorption                   | ASTM D570                   | Immersed in water at 158° F<br>for 168 hours.<br>Allowable weight change: ≤ 3%  | PASS   | 2.6%   |
| Static Puncture                    | ASTM D5602                  | ≥ 33 lbf.   | PASS   | ≥ 33 lbf.  |
| Dynamic Puncture                   | ASTM 5635                   | ≥ 14.7 ft-lbf.  | PASS   | ≥ 14.7 ft-lbf.                                       |

<sup>&</sup>lt;sup>1</sup> Typical values are shown for both machine and cross machine directions. The machine direction results are listed first.
