BASYS[™] At-a-Glance

	Low	Low Integrated Base	Mid	High	Wall
	A modest profile minimizes vandalism potential, making the Low ideal for high-use, low-security environments. Capacitance provides extra assurance with components protected below-deck.	Ideal for the most demanding high-use environments. The integrated base offers added durability via two attachment points. The capacitance model is especially robust.	This model provides optimal height and proportions for effective hand washing, making it well-suited for most restroom environments. EFX-2	The tall profile offers a distinct aesthetic as well as an optimized delivery angle that permits a greater wash area. Users can scrub past their forearms if desired.	Elimination of the deck translates into uninterrupted clearance and a striking appearance. The spout attaches directly to a valve box in the wall, making this body type easy to install and secure. EFX-8
Ideal for	High-use environments	Demanding environments (intense use, high traffic, low security)	Basic use Moderate traffic	Environments with professional hygiene requirements	Medium-use environments

Plate Options	4" 8"		4" 8"	4" 8"	
Drain Pop-up	No	No	Optional	Optional	No

UNIVERSAL SPECIFICATIONS

Flow Rates	0.50 gpm Multi-laminar Spray • 1.5 gpm Full Stream Aerated • 1.5 gpm Full Stream Laminar	
Voltage Adapters	US Plug • UK Plug • EU Plug • Box-style • None	
Finishes	Standard: Bright Chrome • Special Finish: Satin Chrome	
Warranty	Three-year Limited Warranty	

₩ Hardwired 📋 Battery Operated 💢 Solar 😘 Turbine
