UW Model Washer-Extractors

UW60 Shown

UW Features:

- Industry's most advanced control – UniLinc™
- Industry-leading large capacities
- Super high 300 G-Force extraction
- Energy-saving drive
- 4 Fast-fill inlet valves
- Rapid Jetspray Rinse
- Chemical supply dispenser
- Delayed start capable
- Temperature controlled fill
- Thermal cool down
- Overflow rinse
- Overnight soak
- Ultrasoft wash (2 wash speeds)
- 5-year limited warranty on mainframe, cylinder and bearings
- 3-year limited warranty on all other parts

UW Model Washer-Extractors: Our best selling model selected by medium and high volume laundries placing emphasis on lowering operating costs.

Flatwork Finishers

Many variables complicate the selection of flatwork finishers. Options include roll heated and chest heated models, both available with gas, electric or steam heat. For professional assistance in choosing the proper flatwork finisher, contact your UniMac distributor.

UD063 Shown

Laundry Planning and Engineering Handbook

This is an essential tool for anyone designing on-premises laundries. It is available in binder format or CD-ROM. For your **FREE** copy, call 1-800-587-5458 or visit the Architects Guide section at www.unimac.com/sweets for downloads of bid specifications and installation manuals.

Information includes samples of laundry room layouts, sizing calculations for equipment and ancillary items. Also included are 3-part bid specifications, machine dimensional drawings and installation details.

Designing for the Future

Per your request, a Dimensional Drawing Package can be forwarded to you in just a few days. This blueprint-style drawing will detail layout and placement of equipment, utility requirements, and location information for the equipment. During the planning of your laundry facility, you also may question your operating costs or projected payback of the investment. UniMac offers answers to your questions and supplies you with a Laundry Sizing Analysis and Operating Cost Estimate. This analysis is based on data from your company and can provide valuable information as you plan your laundry facility.

UX Washer-Extractors

UX55 Shown

UX Features:

- Softmount construction
- No foundation required
- Direct V-Belt drive
- Stainless steel construction
- Automatic supply dispenser
- Programmable control
- 5-year limited warranty on mainframe, cylinder and bearings
- 3-year limited warranty on all other parts

Industry-Leading Warranties

Washer-Extractors

UniMac offers a 5-year limited warranty on mainframe, cylinder, shaft assembly and bearings. A 3-year limited warranty is included for all other parts.

Tumble Dryers

UniMac offers a 3-year limited parts warranty for all components against defects in workmanship.

Flatwork Finishers

UniMac offers a 1-year limited parts warranty for all components except wearable items such as ribbons and pads.
