# Asphalt Shingles

Selection Guide

## The Roof as Foundation.

For a typical home, a roof comprises 40% of the visible exterior. That's why a roof can easily be considered as a foundation from which your design vision can flow.

### Which Shingle Should I Choose?

Fifteen or twenty years ago, choices were limited to a few shingles with little variation between them. But today, with an abundance of styles, colors and materials, there are virtually no limits on your options.

In fact, CertainTeed is responsible for this roofing revolution. We pioneered the first asphalt architectural alternative to the standard three-tab shingle. More importantly, our full lineup of shingles now includes luxury, designer and traditional styles.

With the innovation we've brought to working with asphalt—in combination with other roofing materials and manufacturing technologies—our

shingles excel in replicating the grace of slate and the authenticity of wood. This holds true in both dimension and color.

As for colors, CertainTeed offers you the broadest palette in the industry. Among the options, you'll find everything from traditional blacks and dark grays to Burnt Sienna and Driftwood.

Asphalt is also extremely durable. Many of our shingles are made of multiple laminated layers, and select shingles have an added fiber glass backing for enhanced impact resistance. No matter which shingle you choose, you have the assurance it surpasses industry standards.

### The Ultimate Roofing Resource

At [www.certainteed.com](http://www.certainteed.com), you'll find a resource for construction professionals. Thoroughly organized and easy to use, the site includes photos, technical data sheets, installation instructions and more.

## Integrity Roof System.™ Give your home the best protection.

### WinterGuard™

Waterproofing underlayment prevents leaks caused by ice dams and wind-driven rain in vulnerable areas.

### Roofers' Select™

High-performance underlayment is a secondary barrier against leaks for the entire roof.

### Shingles and Accessories

High-quality shingles are covered by one of the best warranties in the business. Accessory products—starter course, and hip and ridge cap shingles—complete your roof from start to finish.

### Ventilation

Proper attic ventilation improves air circulation.

### Professional Education Series

For your convenience: CertainTeed makes it easy to access our continuing education courses by offering them online at [www.certainteed.com/continuinged](http://www.certainteed.com/continuinged).

## Why CertainTeed?

Building professionals across America know certain things to be true of CertainTeed. We've been in the building materials business for over 100 years by constantly improving upon the quality, design and durability of our products. Our broad lineup includes everything from the roofing and siding that protect a home to the fence and deck that surrounds it.

CertainTeed offers UL 2218 Class 4 products including: Landmark™ Special, Landmark™ TL (Impact Resistant) and Presidential Shake™ (Impact Resistant). Please visit [www.certainteed.com](http://www.certainteed.com) for details.
