# ACCORDION FOLDING FIRE & SMOKE RATED DOOR SYSTEMS

## AC8000 SERIES

**Product Description:** The AC8000 Series Fire Door Systems is comprised of seven accordion folding fire door variations. The AC8000 Series is available in both manual or motor operated designs and with or without emergency egress doors. These units are available with either 7" panels for a 9" pocket width or with 14" panels for a 15½" pocket width.

**Product Advantages:**

- The AC8000 Series Accordion Fire Door Systems are easy to test and can be automatically reset.
- The AC8000 Series Accordion Fire Door Systems require only 6" of head room.
- The AC8000 Series Accordion Fire Door Systems are completely undetectable when in the stored and fire ready position.
- Most AC8000 Series Fire Door Systems do not require floor tracks.
- The AC8000 Series Fire Door Systems can navigate around contoured openings. Without egress doors they can navigate around a radius as small as 1'-6", with egress doors they only require a 5'-0" radius.

**Design Alternatives:** The AC8000 Series Accordion Fire Door Systems eliminate the need for conventional construction which utilizes unsightly permanent door frames and swinging doors. The conventional method significantly reduces overall opening size and obstructs desired sight lines.

**Applications:** Safescape® models AC8400, AC8500, AC8700, AC8800 & AC8900 are ideal for any applications where fire protection and emergency egress are required. Models AC8200 & AC8600 are ideal for any applications where only fire protection is required and egress is not an issue.

Model	Operation	Egress
AC8200	Manual	N/A
AC8400	Manual	1 Door
AC8500	Manual	2 Doors
AC8600	Motor	N/A
AC8700	Motor	1 Door
AC8800	Motor	Paddles
AC8900	Motor	2 Doors
