## The PolyVision® Experience

- Division 10

PolyVision Corporation provides visual communication tools that transform everyday working and learning environments and inspire people to be more productive, effective, and creative when collaborating and communicating visually.

Whether developing *e<sup>3</sup> environmental ceramicsteel™*, the world's first and only environmentally-friendly marker and chalk board surface with MBDC Cradle to Cradle<sup>SM</sup> Certification, or

creating the industry's first walk-up-and-use interactive whiteboard, PolyVision continues to lead the visual communication market by developing products based on user observation and global responsibility. In fact, PolyVision is the only manufacturer in its industry to offer products with GREENGUARD Indoor Air Quality® and GREENGUARD for Children and Schools<sup>SM</sup> Certification.

### Product Line

The PolyVision range of products includes marker, chalk, and tack boards, tack walls, trophy, display, and bulletin cases, horizontal and vertical sliding markerboard systems, in-wall table and bench seating systems, high-quality casework, interactive presentation products, copyboards, and room scheduling systems.

### Brands

Familiar brands including Nelson Adams, Alliance, Greensteel, Peninsular Slate, American Chalkboard, Carolina Chalkboard, Ibid, Pixid, Softboard, Aubecq, and Pentagon now fall under the PolyVision brand.

### Warranties

PolyVision offers the industry's only Forever Warranty on *e<sup>3</sup> environmental ceramicsteel* surfaces and is the only company in the industry to offer a Ten-Year Workmanship Warranty on marker, chalk, and tack boards. With this unwavering commitment to uphold product quality and safety while continually improving efforts to reduce the impact of the product cycle on the environment, PolyVision challenges others in the industry to follow.

555 Series Markerboard  
Also available: Chalk and Tack Board

PolyVision's Contractor Series marker, chalk, and tack boards offer exceptional style at an affordable price. Boards are available in a multitude of sizes, styles, and finishes to support your needs, including anodized aluminum or solid oak trim styles. Custom stains are available for wood-trimmed boards. Standard marker, chalk, and tack board sizes are 4' and 5' widths, in lengths from 3' to 16'. Custom sizes are readily available. Mix and match trims and trays from this line to create a board specific to your needs. The *e<sup>3</sup> environmental ceramicsteel* surface will outperform all other available writing surfaces. Fused to steel

555 Series Cork Tackboard  
Also available: Marker and Chalk Board

at 1500°F, the surface is non-porous, colorfast, and impervious to day-to-day abuse. Anti-bacterial, fireproof, chemical-resistant, and graffiti-proof, the surface has been proven time and time again to withstand the harsh abuses in public spaces. The *e<sup>3</sup> environmental ceramicsteel* surface comes with PolyVision's Forever Warranty.

Contractor Series Tack Boards offer both sound absorption and noise reduction. Fabrics are made from 100% recycled polyester, and our premium grade, farmed natural cork is a perfect display vehicle for important notices and reminders. Colored cork

100 Series Vinyl Tackboard  
Also available: Marker and Chalk Board

is self-healing, colored throughout, and is available in a range of colors.

The Contractor Series includes the following products with *e<sup>3</sup> environmental ceramicsteel* writing surfaces, tackable surface, or a combination of your choosing: horizontal sliders, vertical sliders, universal sliding systems and teaching walls, combination marker and tack boards, roll-around boards, and full height marker walls.

### Accessories

A complete line of quality accessories such as dry-erase marker pens, erasers, map rails, and board cleaner is available to complete your visual display system.

PolyVision's in-wall table and bench systems allow maximum seating capacity with minimum storage space. Available in two distinct series and an assortment of colors, they exceed the needs of today's multi-purpose cafeterias. Designed for optimum safety and ease of operation, the lock system prevents food from entering the openings with a spring-loaded flush cover. Our table and bench systems deploy safely and smoothly by providing safety-assist springs to facilitate raising the units back into their pockets.

personnel. 14-gauge steel components ensure structural integrity of the undercarriage, and the anti-jackknife device prohibits the table from rising unexpectedly.

ADA-compliant seating. Easy-to-clean plastic laminate tops are available in various patterns and colors to match any environment, and the standard under-structure comes with a powder-coated finish. Optional finishes are also offered.

For ultimate safety, the lock box for the Knox Lock™ key ensures that the key is accessed and used only by authorized

PolyVision's in-wall table and bench systems will comfortably seat 20 children or 18 adults. Optional table and bench heights are available to meet your needs, as well as half-tables and

### Screenprint Options

Screenprint options are available for marker and chalk boards. Screenprinting is a process by which enamel inks are fused into the surface. This allows for customizing a finished marker or tack board system with special text, logos, maps, or gridlines.

# Value and Durability

## Manufactured Casework

- Division 12
- Master Format 12 30 00
- Booths, Tables, and Benches

PolyVision casework is manufactured in an AWI QCP certified facility and is also strength and durability certified. We offer decades of experience and exact standards of quality for custom or pre-designed

products. Factory-certified installers will complete your project to perfection. From educational environments to laboratory, corporate, and healthcare facilities, PolyVision works with you to solve even the most challenging design issues. Moreover, you can incorporate any of PolyVision's visual display products into your casework design. We offer four standard edge treatments that can be applied to any combination of cabinet body, doors, and drawer fronts. Finishes and

colors can be combined, allowing the designer to blend creativity and functionality.

PolyVision offers a variety of standard options for door and drawer fronts. Unique "Communication Doors" are available on tall and wall cases. These doors will allow posting and pushpin tacking of artwork, lessons, notices, or reminders. Tackable door surfaces can be produced with premium vinyls or colored cork and vertical or horizontal wood grains.

## Trophy, Display, and Directory Cases

- Division 10
- Master Format 10 12 00
- Cases

Show your team spirit with PolyVision's trophy and display cases. Attractively designed, yet durable enough to withstand a well-traveled public space or school hallway, these cases are constructed with tough satin anodized aluminum structural and trim extrusions and they provide a clean, safe exhibit area for trophies, models, artwork, or other valued

items you want to exhibit. All cases have sliding or hinged doors, tempered glass, and standard locks. Customized cases are available. Tackable back panels and lighting are available as options. If specified, the back panel tack surfaces are GREENGUARD Indoor Air Quality Certified.

Ideal for corridors and lobbies, PolyVision's attractive heavy-duty reinforced bulletin and directory cases permit full view of posted materials and are engineered to withstand high-use public environments. PolyVision bulletin and directory cases easily accommodate notices, posters, art displays,

awards, and plaques and are available in a variety of sizes. Tackable back panels are GREENGUARD for Children and Schools Certified. All cases are available with tempered glass and standard locks. Fluorescent lights and a 300-count letter and character set are available options.
