For more than 16 years **Peachtree Protective Covers** has been the leading supplier of extruded aluminum walkway covers. Our willingness to work with owners and architects to create innovative and cost effective designs sets us apart from others within the industry.

Our design engineering capabilities and our attention to quality installations have helped to position us as the premier provider of both functional walkway covers and architecturally appealing one-of-a-kind canopy systems. From our five-acre production and material storage facility located just outside of Atlanta, Georgia, we are able to service a full spectrum of projects, ranging from large and complex to small and simple. At Peachtree we take pride in being responsive to our customer's needs. To ensure that project schedules are met, we employ our own team of factory trained installers and dedicated PPC material carriers.

Peachtree Protective Covers

provides a single source of responsibility – from planning through project completion. In addition to the finest products available, Peachtree Protective Covers offers the following services to architectural professionals:

Conceptual Design

Using AutoCAD®, Peachtree Protective Covers consults with architects to provide layout and detail drawings to suit each project's specific requirements. Peachtree Protective Covers provides these details on hard copy or magnetic media.

Value Engineering

Using computerized estimating programs, Peachtree Protective Covers provides budget pricing for a variety of configurations and finishes. Peachtree Protective Covers aggressively value-engineers projects to achieve the architect's intent while minimizing cost.

Structural Design

Peachtree Protective Covers completes the design phase by providing detailed structural calculations, signed and sealed by their in-house registered Professional Engineers.
