

# Reynolux®

## Metal Wall Panels, Flat Sheet and Coil

**Create striking design  
elements with Reynolux®  
metal wall panels.**

In the architecture and building market, nothing's more important than the successful implementation of strong ideas. That's why we're dedicated to meeting your requirements, reacting quickly with flexibility and working with passion to make your ideas a reality – by providing the products and services you need to achieve success. Alcoa Architectural Products makes design, specification and installation as easy, as fast and as affordable as possible. Centered on providing comprehensive architectural solutions, we offer a wide range of support services such as comprehensive CAD drawings, custom design solutions, on-site consultation and more. The people of Alcoa Architectural Products work to ensure that every project is a success.

### **Metal wall panels are available in\*:**

#### **Aluminum**

- 3000 Series Alloy
- Smooth or Stucco Embossed
- Alloy 3004 Alclad® available
- Diamond embossed is standard on Rainlock® Rib and Thrifty-Rib®

#### **Custom Metals**

- Galvanized Steel
- Stainless Steel
- GALVALUME® Steel
- Copper
- Zinc

\*Not all profiles are available in all metals. Consult your Alcoa representative or visit [www.alcoaarchitecturalproducts.com](http://www.alcoaarchitecturalproducts.com) for a complete technical overview of all profile metal wall panels.

Visit the new [reynolux.com](http://reynolux.com) for full product specifications, technical information, comprehensive CAD drawings and more.

***Dedicated to your Success***

# Performance and Personality

## Enduring Strength

Available in a variety of substrates. Flat sheet and coil products are also offered to meet application and performance needs.

## Enhanced Production

A more economical, higher-quality product delivered even faster.

## Refreshing Practicality

Ideal for enclosing or meeting thermal, acoustical, fire-rated or explosion performance requirements.

## Exposed Fasteners

Offered in eight profiles and a range of gauges. Can be crimp-curved for radius corners and design features.

## Concealed Fasteners

Available in five different profiles and several different gauges to meet your budget requirements.

## Dynamic Looks

Install horizontally or vertically for dramatic visual effects. Delivered unpainted or with premium Colorweld® coatings.

## Perfect Combination

Easily combined with Reynobond® exterior applications in precisely matched colors.

## Perfectly Complementary

ACM panels complement texture and contrast of profiled metal wall panels. Combine both perfectly with pre-matched or custom colors of choice.

## Extreme Durability

Decrease building façade maintenance costs with the durability of coil-coated metal cladding. Ideal when a high-quality, consistent image is as important as adhering to budget constraints.

## Colorweld® 300 Architectural Finishes

**Protected and colored with high-performance Colorweld 300 coatings, Reynolux® metal wall panels ensure precise color matching.**

- From 2-coat and 3-coat (XL) systems to metallic and mica finishes, Reynolux can be produced in virtually any color.
- Features 70% KYNAR 500®/HYLAR 5000® polyvinylidene fluoride (PVDF) resins.
- Coil coated to ensure the highest color uniformity and quality.
- Exhibits outstanding color and gloss retention and is considered the premier architectural coating for metal.
- Excellent flexibility and film adhesion for forming.
- Superior resistance to humidity, impact, salt spray, pollution, abrasion and graffiti.
