

## Inspire Me.

**Everyone's got a job to do.** And the right environment can inspire ideas that change the world. Some teach, some heal, some create and some entertain. Von Duprin understands these spaces are personal and have unique requirements. So if color, texture or style help inspire progress then we can help.

### When the space requires:

- Unique or custom decor
- Personalized identity
- Thematic graphics
- Special color matching

### Typical applications include:

- Sports Arenas & Stadiums
- Theme Parks & Entertainment Venues
- Museums
- Hotels
- Restaurants
- Day Care Facilities & Preschools
- Facilities where unique architectural decor is desired

*It's your job. It's your space...and **it's personal.***

## *Provide solutions that inspire.*

Custom aesthetics can provide an atmosphere that allows for creative expression without being intrusive. To enhance a building's personality or blend with the environment, consider Von Duprin products with these custom options:

### **Custom Colors**

Architects often go to great lengths to make the interior of a building unique or inviting. Von Duprin offers custom colors to match the aesthetics of a building or blend with wall art or a mural. Custom colors can enhance a hotel or office building, or provide an entertaining and unique look for a children's museum or aquarium.

- Employ colors to create entryways that are fully integrated with brand and architectural color schemes.
- We offer a wide selection of durable powder coat finishes.
- More than 250 color options available matching to an industry RAL number.
- Option on all 98/99 and 33A/35A Series exit devices.

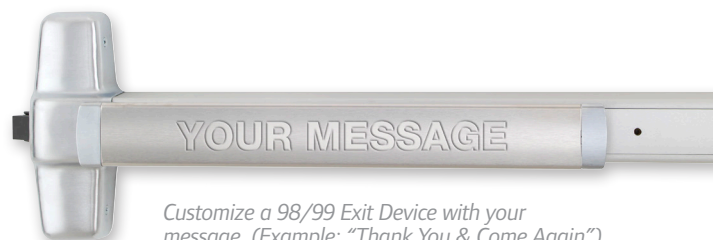

### **Custom Graphics**

Building owners take pride in their facility and often look for unique ways to make their building stand out. Custom graphics can be used to show pride in a university, support the home team in an arena, and even provide unique messaging on the exit device (Example: "Thank You & Come Again").

- Show off team pride, company logo or unique artwork.
- Laser etching on stainless steel or color graphic printing available.
- Unlike traditional printing methods, for graphic printing the artwork is an integral part of the powder coat rather than being applied just on the top of the trim.
- Ideal for sports teams, thematic or advertising applications.
- Option on all 98/99 and 33A/35A Series exit devices.

*Customize a 98/99 Exit Device with your company logo or mascot.*

*Customize a 98/99 Exit Device with your message. (Example: "Thank You & Come Again")*
