

LIGHTLINE®

Lightline canopy kits come with all the hardware needed to assemble. Please verify what type of wall you are dealing with before installing the canopy. If necessary, you may need to use screws and anchors other than those included in the enclosed installation kit. Consult a licensed contractor for installation hardware recommendations.

Do not use cleaners containing solvents, ammonia, chlorine, or abrasive cleaners on acrylic glass and metal. Use only a mild soap and water solution with a soft, non-abrasive cloth. The stainless surfaces can be cleaned with Enviro-Magic® cleaner available from Feeney.
