Nichiha USA

Nichiha, the leader in fiber cement technology, offers architects the largest selection of fiber cement textures and finishes in the market today. Nichiha panel products provide architects the flexibility to offer their clients a tremendous value; a long term cladding solution that comes with a 50 year warranty and low cost of installation. This value translates into keeping projects in budget. Nichiha fiber cement panels are ship lapped on 4 sides and install using a patented clip which keeps the product 1/4-in. off the wall creating a modified rain screen.

New for 2008 is a full line of lap products; NichiBoard™, NichiPanel™, NichiTrim™, NichiSoffit™, and NichiShake™, all made with the same technology that has set Nichiha fiber cement products apart. Manufactured in our 0 emissions state of the art facility in Macon, GA, Nichiha has worked diligently to utilize a variety of recycled raw materials to help improve the state of our environment.

## Nichiha Fiber Cement Panels

- Design flexibility for building exteriors and signature interior spaces.
- Attractive curb appeal
- The patented clip installation system creates a pocket of air between the panels and the substrate. This reduces moisture build up and enhances the integrity of the substrate.
- Panels are completely compatible with vinyl, wood, metal and cellular PVC trim accessories
- Panels are ship-lapped on four sides for tight fit and seamless appearance.
- Multi-layered coating process creates a lasting finish.
- 50-year transferable limited panel warranty\*
- 15-year transferable limited finish warranty\*
- Nominal 18" (L) x 6" (W)

\*See Nichiha Warranty for detailed information on terms, conditions and limitations.  
\*Note: Printed material may not accurately depict actual product color.
