RailEasy™ Cable Railing

**RAILEASY™**

This innovative collection of low maintenance railings offers unobstructed views and is capable of fitting any indoor or outdoor design situation.

### Revolutionary Approach

Enjoy the streamlined look of the five unique RailEasy™ models with infill options of cable railing, balusters and glass panels. These models mix traditional wood or optional vinyl with the clean, modern look of stainless steel. Assembled from a patented line of modular railing components, RailEasy™ systems are excellent for new or retrofit applications. We invite you to enjoy the beauty and durability of type 316 stainless steel. Call today for a free quote!

## Enjoy!

Add years of long lasting value to railing systems with the low maintenance SunRail™ systems. The streamlined look provides the enjoyment of unobstructed views without compromising the structural integrity.

SunRail™ Nautilus 1

## Ease of Installation

The SunRail™ systems are modular stainless steel railing systems that are perfect for any indoor or outdoor design situation. Each railing is pre-engineered for quick and easy installation with infill options of cable railing, balusters and glass panels. The versatility of a highly polished or brushed finish allows the SunRail™ models to blend nicely with every environment. The ordering process is so simple; just send us your plan view layout for a quote. Prior to installation, Atlantis engineers will provide complete, detailed drawings. No need to waste time picking individual components. We are ready to make your next project beautiful and easy.

**Achieve a custom look at a fraction of a fabricator's cost! These modular systems are perfect for any indoor or outdoor design and are pre-engineered for quick and easy installation.**

## SunRail™ AccessEasy

The SunRail™ AccessEasy line is ADA compliant and made from corrosion resistant marine grade stainless steel. This system utilizes a stainless steel top rail, posts, upper handrail and lower bump rail. Cable railing, balusters and glass panels are offered as infill options, as well as, your choice of a brushed or highly polished finish for endless design possibilities. The patented, modular components allow for the quick and accurate production of railings for any size project.

# RAIL EASY™

The RailEasy™ Tensioner features mechanical swaging capabilities that allow installers to cut cable on site, removing the hassle of pre-measuring and the cost of miscalculating dimensions. Each tensioner is made up of durable, corrosion resistant marine grade stainless steel.

**The RailEasy™ Tensioner features a slotted base which allows for angles up to 45 degrees, making it ideal for stair applications.**

The RailEasy™ cable system is an attractive, affordable and low maintenance railing infill option for any indoor or outdoor application. In addition to the standard RailEasy™ Tensioners, Atlantis Rail has developed new patented tensioners to accommodate difficult design situations. Follow the three easy installation steps below to produce an attractive, durable and clean looking railing system.

## 3 Easy Installation Steps

**Step 1 - Insert**  
Extend receiver end 3/4" to 1-1/4" out of the body for tensioning later. Loosen cone on receiver, but keep assembly together. Push end of wire rope through cone until fully seated.

**Step 2 - Tighten**  
Hold receiver with a wrench. Fully tighten cone onto receiver to ensure the strongest connection.

**Step 3 - Tension**  
Hold receiver with wrench, while rotating body to tension. Tighten the locknut to complete the installation.

**micro star™**

## Accent Features

The patented Micro Star™ series is a complete line of lighting options for railings, fencing, steps and many other indoor or outdoor applications. The Micro Star™ LED Lights are available in 12v and each draws only .02 amps. Each bulb has a life cycle of 50,000 hours or 12 years of 10 hour per day usage. RailEasy™ Post Caps provide sufficient levels of lighting and fit over standard 4"x 4" vinyl sleeves. They are pre-wired for a simple connection. The Micro Star™ Track Light complies with the latest California Efficiency Standards and fits unnoticed during the day on railings, decks, steps, fences and much more. It is a perfect option for stairway illumination code compliance. Micro Star™ lighting is optional on all RailEasy™ and SunRail™ systems. When ordering, make it clear which lighting option you would like included. Contact Atlantis Rail today to enhance the beauty of your railing system!
