

# quick selection guide

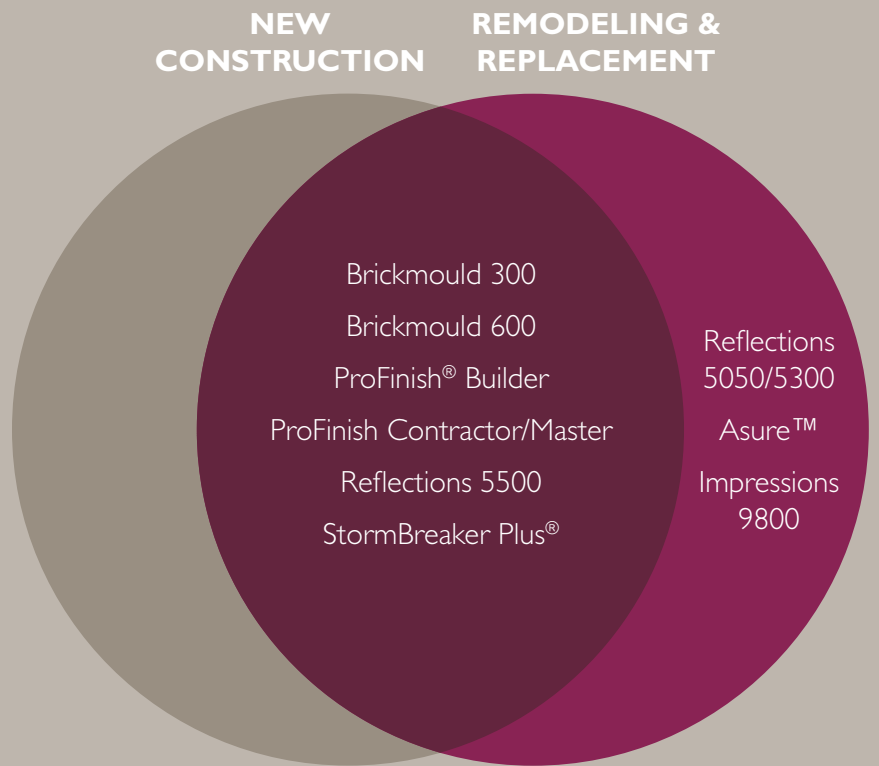

for easy installation  
in any application

# Find the right Simonton product for any job

Simonton offers windows and doors for all project types, including new construction and both kinds of replacement jobs, all with features your clients want.

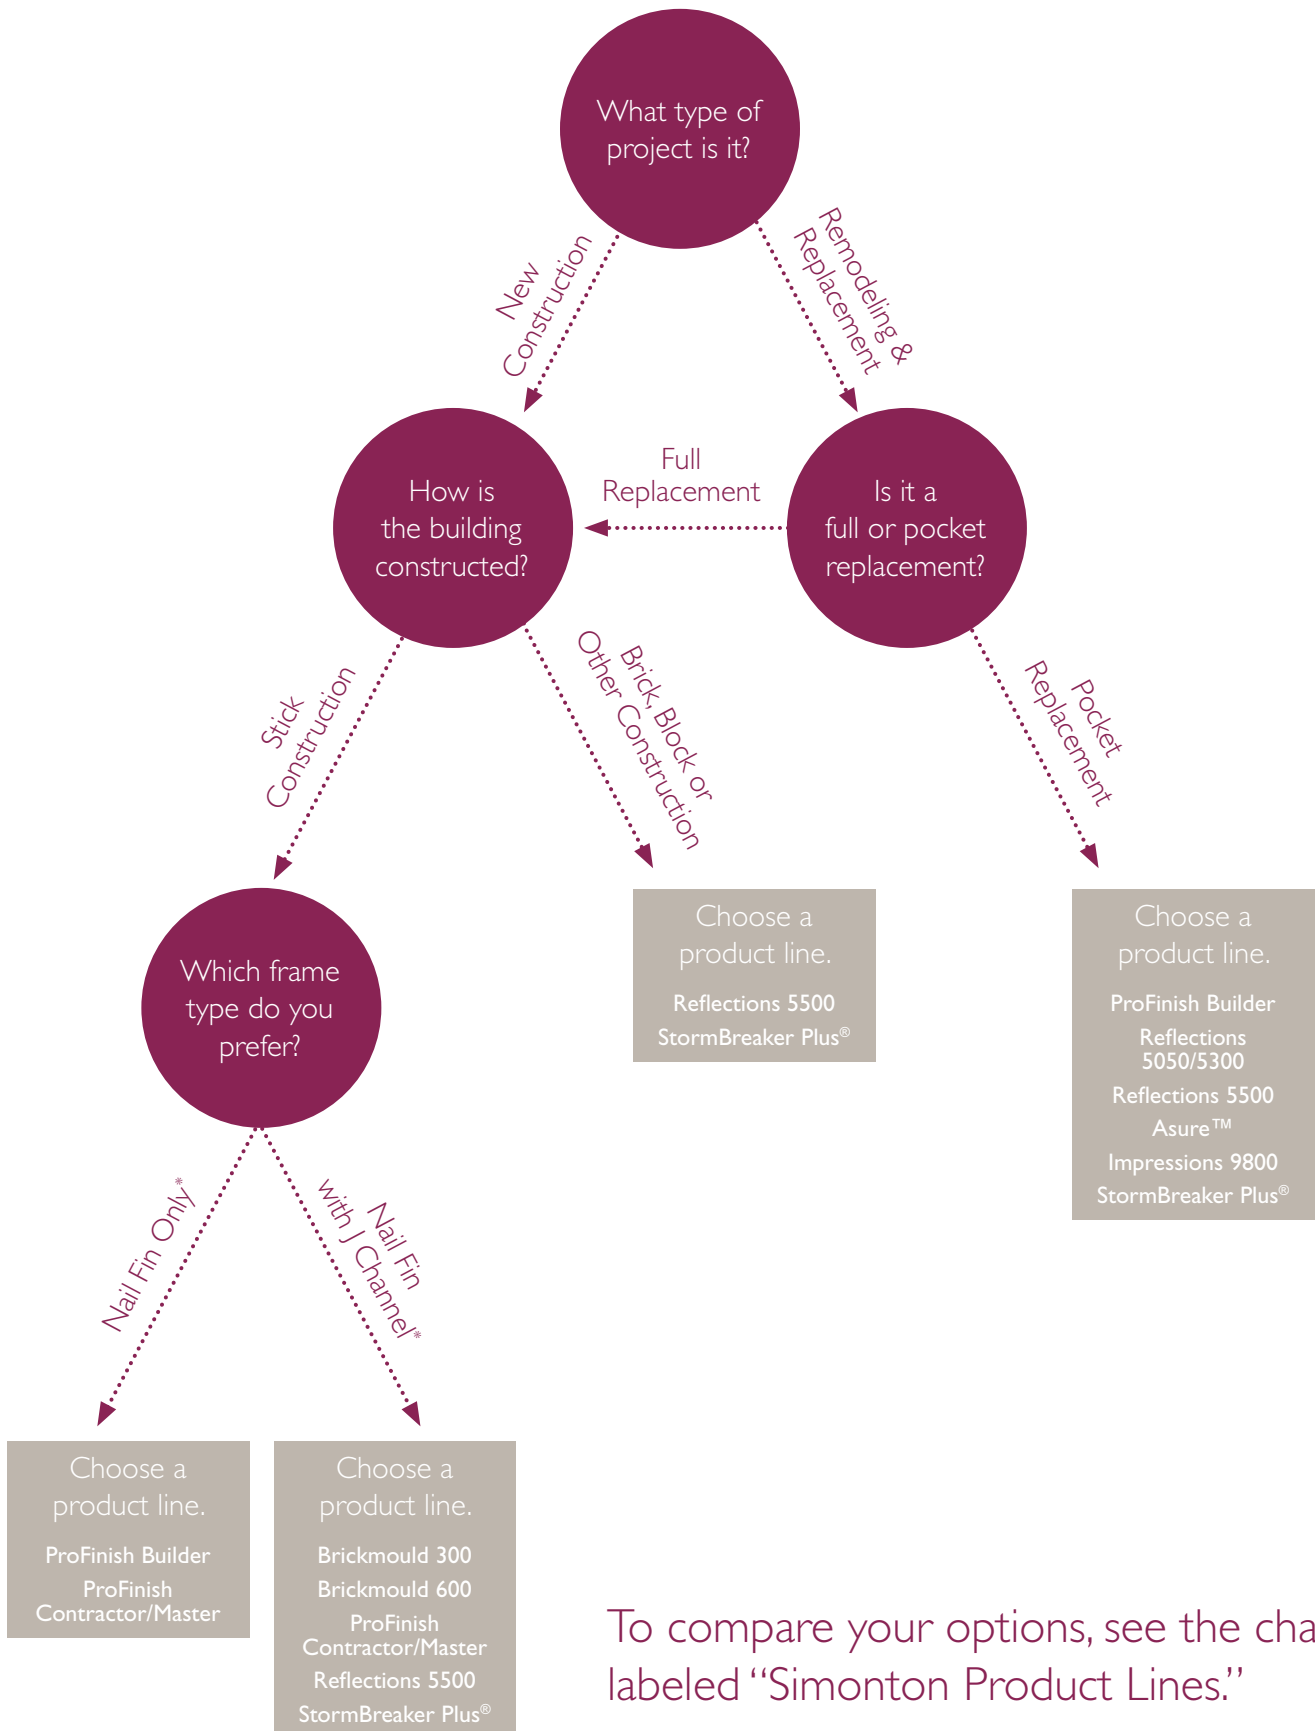

See the chart below for help choosing an installation method for replacement jobs.

	Pocket Replacement	vs.	Full Replacement
What it means	A new window and frame are installed inside the old unit's frame.		The old window and frame are entirely removed, and a new unit is installed in the opening.
Effect on the home's exterior	Exterior trim and siding can stay in place.		Exterior trim and siding need to be removed.
Effect on the home's natural lighting	The glass area that lets in daylight gets slightly smaller.		The daylight opening stays the same size or gets slightly larger, depending on the product installed.
Installation Time	About 1 hour		About 1 hour
Cost	Moderate window cost and moderate installation cost		Moderate window cost and moderate installation cost

# Products by Installation Method

Many Simonton products are flexible enough to be used for a variety of project types. Use the flow chart below to see all your options for any given job.

To compare your options, see the chart labeled “Simonton Product Lines.”

\*Fin removal is available to make products suitable for pocket replacement.

---

## Brickmould 300

The Brickmould 300 series combines the classic style and proportions of wood windows with the durability, thermal efficiency and ease of maintenance only vinyl is known for. Vinyl components of this series are covered by a Lifetime Limited Warranty.

---

## Brickmould 600

The Brickmould 600 series offers all the advantages of the Brickmould 300 series with more color and styling possibilities. Its Lifetime Limited Warranty also covers additional components for extra peace of mind.

---

## ProFinish® Builder

The ProFinish Builder series combines dependable quality with beauty and value. Its features are designed to make installation easier while delivering enhanced performance.

---

## ProFinish Contractor/Master

The ProFinish Contractor and Master series were named for their favor among installation professionals — because they're remarkably dependable and easy to install. Homeowners also love them for their complete line of styles and impressive energy efficiency.

---

## Reflections 5050/5300

The well-rounded Reflections 5300 series features the options and styles that homeowners want most, and Low E glass comes standard on all of them. The Reflections 5050 series offers impressive value by balancing energy efficiency, durability and beauty.

---

## Reflections 5500

The pinnacle of the Reflections line, the 5500 series is differentiated by a host of available styles and features, plus the most advanced glass packages.

---

## Asure™

Asure windows and doors feature a narrow frame for a larger viewing area, a stepped sill to deter wind and rain and advanced glass packages for excellent energy efficiency.

---

## Impressions 9800

The ultimate in style and quality, the Impressions 9800 series offers a wide selection of styles, features and the most advanced glass packages.

---

## StormBreaker Plus®

StormBreaker Plus windows and doors offer proven, 24/7 impact protection without the need for shutters — while still providing the beauty of traditional windows and excellent energy efficiency.
