

STORAGE SOLUTIONS

ASI STORAGE SOLUTIONS, INC.

ASI Storage Solutions, Inc. manufactures high-quality locker systems and storage shelving designed for use in schools, athletic facilities, retail environments and other commercial, institutional and industrial applications.

Architects, designers, building owners, facility managers and construction professionals have come to rely on ASI Storage Solutions as their premier provider of storage systems that are appropriately priced, exceptionally durable, easy to install and even easier to use.

Our factory-trained, quality-committed architectural representatives are prepared to give you the support you need to make it easy for you to review and select the right products for all of our projects' specifications.

ASI Storage Solutions, Inc. is part of the ASI Group, a family of companies representing the world's leading manufacturers of specialty construction products: accessories, lockers and partitions.

THE PRODUCTS

All of ASI Storage Solutions' products come standard with top-of-the-line features, like *2 mil powder coating in 15 designer colors on all metal lockers*, which means you won't pay up-charges for the quality you want. These value-priced products are readily available for timely shipment.

We offer a number of locker collections including cubbies, phenolic, fully welded and plastic, each with specific features and benefits. With the addition of metal shelving, ASI Storage Solutions' extensive product line means you don't have to look anywhere else for the products you need to meet your locker system and shelving requirements, including ADA compliancy. Plus, as our commitment to continued improvement, we add features and introduce new products regularly.

TRADITIONAL COLLECTION

The visually appealing and very durable **Traditional Collection** is our most widely distributed locker line. Offering the most value for typical locker applications, this collection is available in a full range of spacious sizes and from single- to six-tier configurations, as well as two-person, sixteen-person and wall-mounted.

Featuring 16 gauge doors, frames and bottoms and 24 gauge tops, sides, backs and shelves, all Traditional lockers come standard with features that allow for easy and quiet operation, multi-point latching and positive automatic locking.

TRADITIONAL PLUS COLLECTION

With the same standard features as the Traditional line, the **Traditional Plus Collection** is intended for more rugged applications. Available in single-, double- or triple-tier configurations, this collection features 14 gauge doors with 16 gauge full height reinforcement channels, frame-secured 11 gauge frame hooks with protruding padlock hasps, and a maintenance-free, single-point latching system.

**48 HOUR QUICK SHIP AVAILABLE
ON METAL LOCKERS AND SHELVING**

COMPETITOR COLLECTION

The **Competitor Collection** offers ventilation and visibility combined with strength and visual appeal. Available in single- through six-tier configurations, this collection features 14 gauge doors and 18 gauge backs; all other components are 16 gauge.

PRO COLLECTION

The **Pro Collection** is specifically designed for applications that require easy access of uniforms and/or equipment. Select the configuration that best suits your needs by adding a lockable security box and/or a footlocker that doubles as a bench. The open front and perforated sides allow for full ventilation, with a large dedicated storage area.

PLASTIC LOCKERS

ASI **Plastic Lockers** are ideal for high-humidity applications, as these virtually maintenance-free lockers will never rust, rot, corrode or fade. Their ½" thick high density polyethylene (HDPE) plastic construction features solid color throughout, so even scratches are hard to see. Backed by a fifteen-year warranty, these lockers — available in single-, double-, triple- and six-tier configurations and eight designer colors — offer an exceptional overall low cost of ownership. 100% post-consumer recycled material is available.

CLEAR VIEW LOCKERS

Clear View Lockers feature 3.5mm polycarbonate see-through door panels, offering secure storage while allowing for visual inspection of the locker contents. Clear View lockers are available in one-, two-, three-, six- and sixteen-locker configurations. Ideal for convention center, retail back-room and other applications where content visibility is desired, Clear View lockers may also be equipped with coin-locks for day use.

ANGLE IRON LOCKER ALL-WELDED CONSTRUCTION

The specially constructed **Angle Iron Locker** frame provides the lockers with the robust structural integrity needed to protect belongings in rough environments, while the diamond-shaped ventilation holes assure the free flow of air and full visibility of locker contents.

ASI STORAGE SOLUTIONS, INC.

PERFORMANCE PLUS SHELVING

ASI Storage Solutions is proud to announce that it has added light duty industrial shelving to its line-up of quality lockers. Available in open type and closed type **Performance Plus Shelving**, you can easily add storage space where required and as much as needed.

Open Type Shelving
