## Table of Contents

Freestanding Shade	2
Post-Mounted Shade	4
Custom Shade	6
Quality & Color Choices	8

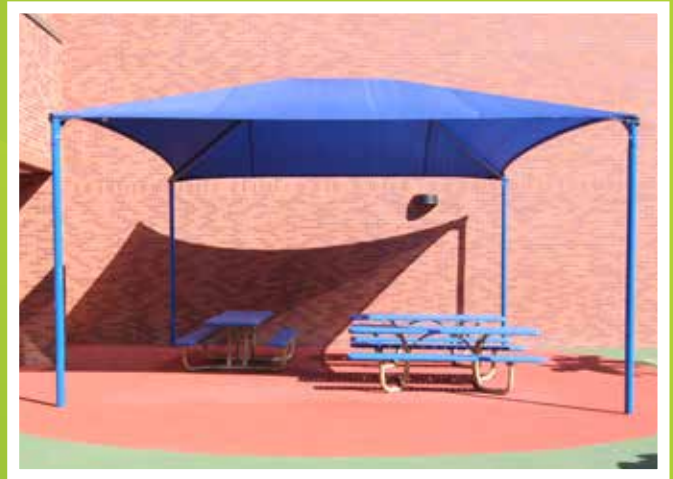

# Freestanding Shade\*

Miracle's PlayCover® freestanding shade structures are ideal for protecting large playground areas from the sun's harmful rays. Freestanding shade structures are available in multiple Hip, Triangle and Pyramid designs and come in a variety of both standard and flame retardant fabric colors, making them the perfect addition to your play space.

**Two Post Hip**

**Hip**

**Single Post Pyramid**

\*For freestanding shades, eave height does not include surfacing when placed in use zone of equipment. For a 12" loose fill, the eave height is one foot lower than stated. For example, a stated 8' eave height measures 7'.

**Triangle**

**Mariner's Pyramid**

**Super Span Hip**

**Slant Hip**

**Pyramid**

**Single Post Pyramid**

# Post-Mounted Shade

Miracle's PlayCover® post-mounted shade structures attach directly to any Kids' Choice® or Tots' Choice® playground structure, giving you the superior shade protection you need without the additional posts, which add cost to your project and impact the fall zone area. Available in Pinwheel and Pyramid designs, our post-mounted shade systems are available in a variety of both standard and flame retardant fabric colors.

**Pinwheel**

**Pyramid**

**Pinwheel**

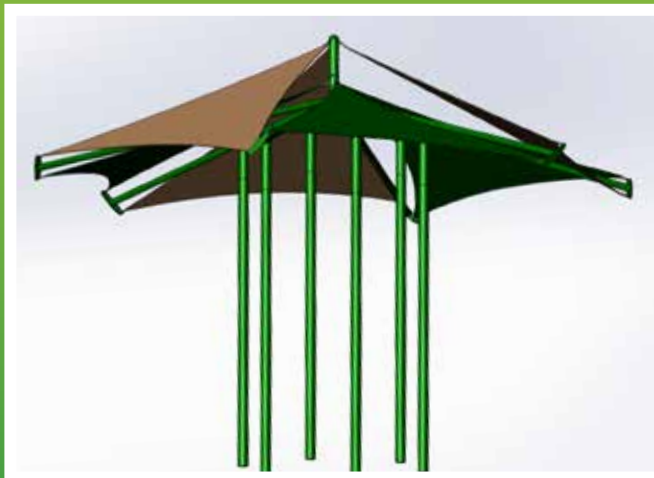

**Pyramid**

# Custom Shade

Contact your local sales representative to learn more about our PlayCover® custom shade options. Whether you are in the market for a freestanding structure or post-mounted shade options, we can customize it to meet the specific requirements for your unique project.

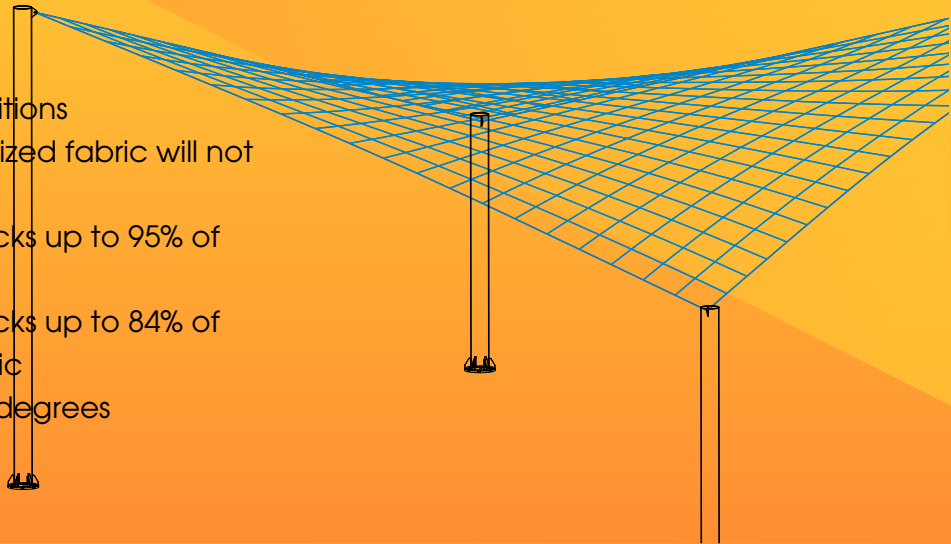

**Hexagon Pyramid**

**Hexagon Pinwheel**

# Quality & Durability

Miracle's PlayCover® Sun Shades utilize only the finest materials available including vinyl coated polyester (PVC), Teflon® coated fiberglass (PTFE) and HDPE, a high density polyethylene mesh which can block up to 95% of the sun's harmful UV-A and UV-B rays. Choose from a variety of materials with varying degrees of translucency, light reflectivity, UV and weather protection, fire retardancy and non-combustibility. All of our fabrics are easily maintained to preserve their appearance and ensure a long life.

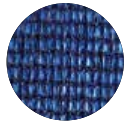

- Mildew and degradation resistant
- Heat and hail resistant
- Maintains color in all weather conditions
- High Density Polyethylene, UV stabilized fabric will not tear or fray if cut
- Shade Factor of up to 94% and blocks up to 95% of UV radiation for Standard Fabric
- Shade Factor of up to 86% and blocks up to 84% of UV radiation for Fire Retardant Fabric
- Temperature reduction of up to 30 degrees
