10 year  
performance  
warranty

## Custom Wall Paneling

As one of the most visible aspects of any facility, walls set the tone for its entire appearance. The right wall protection should last and create a cohesive look throughout your facility for years. Kwalu Wall Protection, including wainscot paneling and rigid wall covering, are all fully customizable to the desired height. Pick from a vast array of inlays and finishes.

For stunning wall protection that can withstand the rigors of any hard use environment, look no further than Kwalu wall protection. Whether its behind-the-bed paneling, in dining areas, at nurses' stations, or in high-traffic hallways, Kwalu wall protection is a clever and stylish way to protect facility walls and put the finishing touches on room design. Repairable in seconds and backed by the industry's only 10-year performance-based warranty on both construction and finish, Kwalu wall protection turns extensive maintenance into simple housekeeping.

## Wainscot Paneling

Our **wainscot paneling** is offered in three standard styles (the classic Shaker, Oxford and the St. James with traditional beadboard).

## SoHo Wall Paneling

**SoHo** wall protection is the perfect solution to high-traffic areas that are often susceptible to sustained damage that occurs in most commercial and institutional environments. The customizable SoHo offers clean lines, turning problem areas into modern havens of style. Kwalu wall paneling offers the freedom to create unique designs to suit your space.

## Handrails

Kwalu handrails provide the security of a strong gripping surface as well as the protection for walls against bumps and knocks. The **Catena** and **Round** styles cover a range of design and budget applications. The Catena handrail features a solid repairable corner, making it ideal for high traffic areas.

## Corner Guards

Kwalu **corner guards** come in four standard wing sizes and two standard heights (4' and 8') for protecting vulnerable wall corners in any application and any budget. Custom sizes and angles are also available. Combine with wall panels to clad columns for additional protection with visual appeal.

## Crash Rails and Wall Bases

Crash Rails

Wall Base

As with all Kwalu wall protection products, our **crash rails** and **wall bases** offer the rich, warm texture of wood with the durability of our proprietary polymer, which is Designed to Last™. Kwalu's crash rails and wall bases have anti-bacterial finishes. Coordinate your base and chair moldings with other wall protection products for a complete design.

## Door Kick Plates and Push Plates

Doors are perhaps the most vulnerable part of any facility. Kwalu **kick plates** and **push plates** are designed to prevent doorway damage while providing aesthetic appeal. These are fully customizable for dimensions and styles.

# Kwalu Wall Protection Designed to Last™

## 10-Year Performance Warranty

Industry's only 10-year performance warranty on both construction and finish.

## Create Your Own Style

With custom colors, insert/inlay designs and dimensions tailored to suit the needs of your facility, it becomes clear what we mean by complete customer satisfaction.

## Designed to Last™

Kwalu is a high impact-resistant polymer that will not chip. Kwalu's wood grain effect goes the whole way through, so your walls look like new, year after year.

## Your Single Source

Only Kwalu can ensure a consistent look throughout your facility by offering complete ranges of furniture and wall protection – all made from the same Kwalu material, Designed to Last™.

## Antimicrobial Protection

Kwalu's antimicrobial product protection incorporated into the product, not sprayed on, inhibits the growth of a broad spectrum of odor causing bacteria and protects our wall protection from stains and product deterioration over time
