COLORED QUARTZ AGGREGATES

The logo for Dur-A-Flex Inc. is a white, stylized, elongated oval shape with a dark green background. Inside the oval, the text "DUR-A-FLEX® Inc." is written in a bold, white, sans-serif font, oriented vertically from bottom to top.

DUR-A-FLEX® Inc.

Retail stores don't have to compromise aesthetics for high quality or long lasting performance. They can also reduce their slip and fall claims with our texture options.

**Cost-effective.
Worry-free.**

Save your client time and money by reducing maintenance costs by 66% annually with our easy to maintain floor systems.

Installing a Dur-A-Flex floor saves an additional \$1 per square foot per year over other floors.

DUR-A-FLEX[®] Inc.

Our urethane resurfacers are the standard for Food Processing, resisting thermal shock and bacterial growth. USDA, FDA and NSF Certified.

Supermarket floors install quickly, eliminating revenue loss. And our Macro and Micro decorative chips are as beautiful as they are durable.

Open your doors sooner with a quick curing MMA system or don't close at all when you are renovating. These systems cure in a matter of hours and install 25-50% quicker than other floors, so many installations and repairs can be achieved overnight.

The logo for Dur-A-Flex Inc. is a white, stylized, elongated oval shape containing the text "DUR-A-FLEX® Inc." in a bold, sans-serif font. The background of the entire advertisement is a photograph of a large industrial manufacturing facility with a highly reflective, blue epoxy-coated floor. The facility is filled with various pieces of machinery, including what appears to be a CNC machine, and there are workers visible in the distance. The lighting is bright, creating strong reflections on the floor.

DUR-A-FLEX® Inc.

High traffic areas in Manufacturing facilities get the long lasting durability from our epoxy coatings so that they don't need to close for constant repairs.

"Changing to a Dur-A-Flex coating provided us with the protection and safety we were looking for. It has rejuvenated the facility and is much easier to clean than the old wax floor. Our slip and fall rate has been greatly reduced and it looks great."

Bob Belber, GM
Times Union Center, NY

A photograph showing the interior of a large convention center or arena. The floor is a light-colored, highly reflective epoxy coating. In the foreground, there is a long counter or service area with a metal railing. The counter has logos for "ARAMARK" and "Coca-Cola LIGHT". Above the counter, there are signs for "SOUTHSHORE SERVICES" and "SOUTHSHORE". The background shows a large, open space with high ceilings and bright lighting.

Stadium, Arena and Convention Center owners can provide public safety and have peace of mind.

DUR-A-FLEX[®] Inc.

From steamy kitchens to chilly freezers, our urethane floors stand up to thermal cycling from -20°F to 220°F.

Healthcare facilities can offer a healthier environment with our antimicrobial properties. Slip resistance increases safety for medical staff on the move.

"We have severe weather in the Northeast. Sand and mud gets tracked in on our floors. So we wanted the floors to be easy to maintain. With our Dur-A-Flex floors, it's a simple clean—you don't have to use different cleaners or do any waxing."

Cissy Meehan, Regional Director
Gambro Healthcare, CT

Flooring Material Cost Comparison

	Installed Cost	Annual Maintenance Cost	Years Average Life	Replacement Cost	Total Expenditure 25 Years	Cost Per Year
MMA	6.50	.45	25	0	17.75	.71
Quarry Tile	8.50	1.10	25	0	35.25	1.44
Carpet	3.25	1.25	8	3.75	42.00	1.68
VCT	1.95	1.75	8	2.25	50.20	2.00
Epoxy Terrazzo	14.50	1.65	25	0	48.25	1.93

When looking to compare the true cost of a flooring system maintenance, service life and replacement cost must be considered. The lowest installation cost does not equal the lowest cost solution to your flooring. MMA is also the fastest way to get a floor into service due to the fast (complete) cure.
