

INTRO

An unwavering focus on the ever-changing marketplace allows Mitten to continually develop new leading-edge products, providing our customers with a broad range of quality exterior cladding solutions.

Mitten offers a wide selection of styles, textures and colors to complement any architectural specification.

Energy conservation is important when considering exterior cladding and remodeling solutions. Mitten now offers a foam back cladding featuring a Thermal Foam Backing which reduces heat loss by up to 20%.

Modern and fresh while classically elegant, Mitten's vinyl siding options include a beautiful array of pastel colors as well as our Acrylic Color Technology (act[®]) offering 8 new darker, more vibrant colors. The options are endless.

The finishing touch is achieved with Mitten's matching or contrasting trims, soffit and fascia. Visit our website for the full line of accessories. www.mittenvinyl.com

- Finish Trim

Superior Impact Resistance

InsulPlank[®] is 300% more impact resistant than conventional vinyl and aluminum siding. What's more, it won't crack or break like fiber cement or rot like wood. InsulPlank[®] has an impact resistance and durability that can't be beat.

Solid Engineering Means Trouble-Free Maintenance

Strong and dependable, yet lightweight. InsulPlank's[®] solid design offers superior strength and remarkable weather resistance. No warping. No denting. No waving, and it won't sag like heavy fiber-cement siding. InsulPlank[®] goes on your home smoothly with straight, clean lines and keeps on looking great. Best of all, it's virtually maintenance-free.

StakLoc[®] Trouble-free Installation

InsulPlank[®] features the innovative StakLoc[®] System, a unique top-locking design that ensures strength and durability of the home's exterior. StakLoc[®] allows for trouble-free installation and helps keep joints and seams tight and uniform. InsulPlank[®] with StakLoc[®] maintains the expected distinctive and beautiful exterior appearance. Other exterior sidings just don't stack up.

InsulPlank[®] will not support combustion.

Assuredly, the materials in InsulPlank[®] are fire resistant and will not support combustion.

SPECIFICATIONS

CODES/STANDARDS

Mitten vinyl siding conforms and/or surpasses certification standards in many countries...

CANADA	UNITED STATES	AUSTRALIA
CAN/CGSB-41.24.95	ASTM 3679-02	AS/NZ 54256 Type B
